Add Users to a Community Group

Last Modified on 10/08/2024 9:39 am CDT

Add Existing Users

Adding users that already exist in D2L is most easily accomplished by using the **Org Defined ID** number (this is the user's Student ID# or Employee ID#). Usernames or first and last names may be utilized as well in the search. If you do not locate a user from their ID# that user may not yet have an account and need to have their account created in D2L. If you are unable to locate a user via the ID number or username please contact the <u>IT Service Desk</u> (https://vtac.lonestar.edu/help/vtac-assistance#ots).

If you have **Group Manager** access to a community group, you can add anyone in the system to your group by following the steps listed below:

Show Video Walkthrough

- 1. Click on the **Community Group** from your **D2L homepage**.
- 2. Click on [Collaboration] in the Navbar, then choose [Classlist].
- 3. Click on the [Add Participants] button at the top and choose [Add existing users].

- 4. Enter the **Student or Employee ID number** and click the []] icon to start your search.
 - You may uncheck [Include Users already in the org unit] in order to return only users **NOT** in the community group already.

Add Existin	Hide Search Options Last Name ed ID Vsername			
Enrollment Include User Search Type Image: Contains	rs already enrolled in org unit			Salasta Dala
1 Search Result	Clear Search			Select a Role Advisor Faculty
Email				Copy Only Group Manager No Access Observer Scribe-Interpreter Student
	Last Name, First Name	Username	Org Defined ID	Teaching Assistant Learning Support Person
	, Alan 💼		008	Faculty ~
Enroll Selected Use	rs Cancel			20 per page 🗸

- 5. In the list of search results, select the role for the user. You can assign any of the roles that are listed. The **[Copy Only**] role is most useful for individuals you intend have the ability to copy **FROM** this group into other courses or groups.
- 6. After selecting the user and role click [Enroll Selected Users].

NOTE: If you see the already enrolled in y may need to remove	e [Already Enrolled] our group. Enrolling t and re-enroll an alre	indicator on a Username then he user a second time may retu ady enrolled user to update the	that user is urn an error. You eir role.

Unenroll Users

If you need to remove a user for any reason, this is accomplished by going to the [Classlist]. If

you have **Group Manager** access to a community group, you can remove anyone in the system from your group by following the steps listed below:

- 1. Click on the community group from your D2L homepage.
- 2. Click on [Collaboration] in the navbar, then choose [Classlist].
- 3. Select the [checkbox] next to the user(s) you want to remove.

🗹 Em	ail 🚥 Page	🖶 Print 🖪 Enrollment 🛔	_ Unenroll

Import Users from a File

If you intend on adding a large number of users at once, it may be more beneficial to bulk enroll users by importing a **CSV file**. In order to create the CSV file, it is best to create the file through **Excel**.

1. Within **Excel**, list the ID numbers in Column A, and the name of their role in Column B.

Example:

	А	В	с	C
1	7653684	Student		
2	7891356	Student		
3	7128452	Student		
4	7489563	Student		
5	9785123	Student		
6	9147961	Student		
7	7159874	Student		
8	7896325	Student		
9	7556981	Student		
10	7469985	Student		

2. Click on [File] -> [Save As] -> [Browse], this will bring up the Save As window.

3. Name your file and be sure to **change the file type to CSV** through the **Save as type** drop-down menu.

4. Within your Community Group on D2L, go to **Classlist** -> **[Add Participants]** -> **[Import** users from a file on your computer].

5. Click on **[Browse]** to upload your newly saved **CSV** file, then click **[Import]**. The users listed in the file should now be enrolled into the classlist for your Community Group.

Roles Available in a Community Group

NOTE: View <u>D2L Roles Chart (https://vtac.lonestar.edu/help/d2l-roles)</u> for additional details.

- **Advisor** Users will have a limited view of student information but no editing ability in the course. Viewing access includes Class Progress, Classlist, Groups, Manage Files and Quizzes.
- **Faculty** Users added as faculty will have the same rights as the original faculty member, including editing content, quizzes, etc.
- **Copy Only** Users cannot edit the course or content, but they can copy material from the community group.
- Group Manager Users have full access to the Community Group and can add other members in any role.

- **Observer** Users will have a similar role to students. Users will appear as a student in the classlist, but will not show up in the gradebook. Observers can view student data, including User Progress. Observers cannot participate in discussions or copy courses, but they can view setup options and preview quizzes and surveys.
- Scribe-Interpreter Users (scribes, interpreters) will have a similar role to students. Users will appear as a student in the classlist, but will not be able to take quizzes or search for students.
- **Student** Users can interact with content as a student only.
- **Teaching Assistant** Users will have access to add and modify course content, the ability to post news announcements to the course, and the ability to participate in discussions. Teaching Assistants will also have faculty level access to the course calendar.
- Learning Support Personnel (LSP) Users have student-level access but will be able to view grades, feedback, and student feedback as well as edit Quiz Submission Views. This role is often used in Dual Credit courses; it is meant to facilitate student learning by providing users a view similar to that of students.
