

# Publish Quiz Grades

Last Modified on 01/06/2022 2:31 pm CST

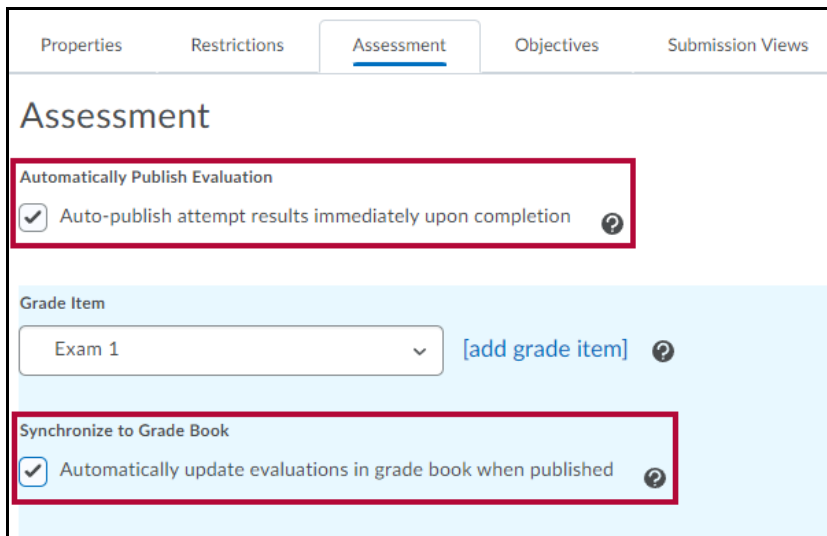

There are two options when publishing quiz grades: Automatic and Manual.

## Automatically Publish Quiz Grades

1. Go to **Course Activities > Quizzes**.

2. Click the title of the quiz.
3. Select the **Assessment** tab.
4. Make sure the quiz is associated with a Grade Item.
5. Select the boxes next to **Auto-publish attempt results immediately upon completion** and **Automatically update evaluations in grade book when published**.

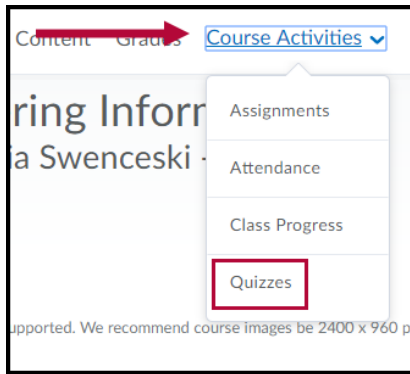

6. Click the **Save and Close** button.

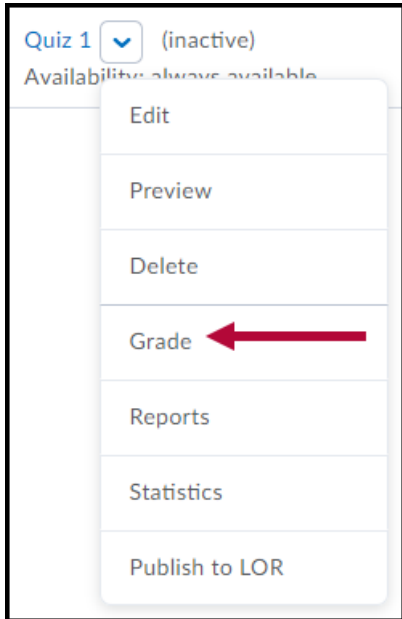

**NOTE:** If these options are not enabled prior to receiving student submissions, the current quiz grades will still need to be manually published and these options will take effect from that point forward.

## Manually Publish Quiz Grades

1. Go to **Course Activities > Quizzes**.

2. From the drop-down menu next to the quiz title, select **Grade**.

3. Select the quiz attempts.

4. Click Publish Feedback.

5. You can see the date of your published or draft feedback in the status column.

<input type="checkbox"/>	Previous history				
<input type="checkbox"/>	attempt 1	Dec 30, 2015 4:01 PM	9 / 10	90 %	Published: Nov 21, 2019 3:01 PM
	overall grade (highest attempt)		9 / 10	90 %	
<input type="checkbox"/>	Upcoming history				
<input type="checkbox"/>	attempt 1	Jan 6, 2016 10:42 AM	8 / 10	80 %	Draft Saved: Nov 21, 2019 2:59 PM
	overall grade		-	-
