

# Use Turnitin with Assignments

Last Modified on 05/08/2025 7:40 am CDT

**NOTE:** As of December 2024, the e-rater feature is no longer available in D2L due to its retirement by the vendor. As an alternative, faculty are encouraged to use [IntelliWriter](https://vtac.lonestar.edu/help/add-intelliwriter-to-your-d2l-course) (<https://vtac.lonestar.edu/help/add-intelliwriter-to-your-d2l-course>), a writing tool integrated into D2L that provides real-time grammar, spelling, and writing style feedback. Please refer to the [Add IntelliWriter to Your D2L Course](https://vtac.lonestar.edu/help/add-intelliwriter-to-your-d2l-course) (<https://vtac.lonestar.edu/help/add-intelliwriter-to-your-d2l-course>) article for more info.

**Turnitin Feedback Studio** is an integrated tool within D2L that helps maintain academic integrity and supports effective feedback for student submissions. Faculty can use it to review originality reports, detect potential plagiarism, and provide detailed comments directly on student work.

**NOTE:** Text submission in WYSIWYG editor is **NOT** recommended as it may not generate a similarity report.

## Enabling Turnitin Feedback Studio on Assignment Settings

From the **Edit Folder** page, expand the **[Evaluation & Feedback]** panel to do the following:

- Enable detailed **Similarity Reports** for assignment submissions
- Control end-user visibility
- Set the Similarity Report's frequency
- Select the sources to check the submission against
- Determine if the current submission is added to the file index for new submissions to be checked against.

## Viewing the Similarity Report® Options in the Turnitin Feedback Studio

1. From the **Evaluation & Feedback** panel, click **[Manage Turnitin]**.

2. In the **Turnitin Integration** popup window, select **[Enable Similarity Report for this folder]**.  
From the **Display** and **Submissions Checked** area, select the appropriate radio button.
  - **[Allow learners to see similarity scores in their submission folder]** - Allow students to view their similarity scores in their folder.
  - **[Automatic similarity checking on all submissions]** - Performs a similarity check on all student submissions.
  - **[Identify individual submissions for similarity checking]** - Requires you to select submissions individually to check for similarities.

**Turnitin™ Integration**

**Similarity Report**  
Enable similarity checking to identify matching or similar text to sources in Turnitin's databases.

Enable Similarity Report for this folder

**Display**  
 Allow learners to see similarity scores in their submission folder

**Submissions Checked**  
 Automatic similarity checking on all submissions  
 Identify individual submissions for similarity checking

## Viewing Similarity Report® Options

- When you enable **Online Grading®**, the **Enable Similarity Report® for this folder** checkbox is automatically selected. Therefore, Turnitin® generates a Similarity Report automatically. If it is not enabled, check the box.

**Turnitin™ Integration**

**Similarity Report**  
Enable similarity checking to identify matching or similar text to sources in Turnitin's databases.

Enable Similarity Report for this folder

**NOTE:** If you do not enable these options for this folder *before* students submit any papers, Online Grading® will not generate the similarity reports for any submissions, even if you select the checkbox at a later date.

You may clear the **Online Grading®** option and use only the **Similarity Report®**, but you cannot use only the **Online Grading®** option without selecting **Similarity Report®**.

- From the **Display** area, select the **Allow learners to see similarity scores in their submission folder**, if needed.

**Display**

Allow learners to see similarity scores in their submission folder

- From the **Submissions Checked** area, change the frequency of your Similarity Reports.
  - [Automatic similarity checking on all submissions]**, which will put all student submissions through Turnitin®.
  - [Identify individual submissions for similarity checking]**, which will allow you to choose which students' papers are sent through Turnitin®.

**Submissions Checked**

Automatic similarity checking on all submissions  
 Identify individual submissions for similarity checking

- Click the **[More Options]** button. A window displays additional Turnitin® options.

## Viewing Optional Settings

Area	Setting Name	Setting Description
Submission Settings <div style="border: 1px solid black; padding: 5px; width: fit-content;"> <input checked="" type="checkbox"/> Standard paper repository  <input checked="" type="checkbox"/> Allow submission of any file type  <input checked="" type="checkbox"/> Allow file submissions  <input checked="" type="checkbox"/> Enable Turnitin Matching that integrates with Turnitin History support  <input checked="" type="checkbox"/> Enable grammar checking using EPP® and™ technology  <input checked="" type="checkbox"/> Allow a choice           </div>	Paper Repository (Drop-Down List)	Allows students to submit papers to the standard paper repository. Leave this set to <b>Standard paper repository</b> unless you do not want Turnitin® to save the submissions to the repository.
	Allow Submission of Any File Type	Allows students to submit any file type. With this option selected, Turnitin® will check submissions for similarity where possible. Submissions will also be available for download, and Online Grading® feedback tools will be available where possible.

	Allow Late Submissions	Defaults to Yes and you cannot change it. Please note, this setting will not change the dates you have set in your D2L assignment, and won't change the acceptance of papers if you have put in both a due date and an end date to allow late papers.
	Attach a Rubric	If you have built rubrics inside Turnitin®, you can attach one to the assignment. These rubrics are totally separate from D2L rubrics.
<p>Compare Against</p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Student paper repository</li> <li><input checked="" type="checkbox"/> Current and archived web site content</li> <li><input checked="" type="checkbox"/> Periodicals, journals and publications</li> </ul>	<ul style="list-style-type: none"> <li>• Student Paper Repository</li> <li>• Current and Archived Web Site Content</li> <li>• Periodicals, Journals, and Publications</li> </ul>	Select the options to compare assignments against.
<p>Similarity Report</p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Generate reports immediately (0)</li> <li><input type="checkbox"/> Exclude bibliographic materials</li> <li><input type="checkbox"/> Exclude quoted materials</li> <li><input type="checkbox"/> Exclude small sources</li> </ul>	<ul style="list-style-type: none"> <li>• Generate Similarity Reports for student submission (Drop-Down List)</li> <li>• Exclude Bibliographic Materials; Exclude Quoted Materials; Exclude Small Sources</li> </ul>	<ul style="list-style-type: none"> <li>• Select an option from the drop-down list that determines how Turnitin® handles the Similarity Report for multiple submissions.</li> <li>• Select the options to exclude from the Similarity Report.</li> </ul>
<p>Additional Settings</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Save these settings for future use</li> </ul>	Save These Settings for Future Use	Enables the settings you have made, so you do not have to go through and reset them for each assignment.

## Manually Submitting Files for Similarity Checking

If your assignment folder has **Identify individual submissions for similarity checking** enabled, you need to submit file submissions for similarity checking manually.

This option is useful if you do not want to check every file submission for plagiarism but still want the ability to do so on a case-by-case basis.

1. Click the drop down arrow next to the assignment and select **[View Submissions]**.
2. From the **Folder Submissions** page, click the  **[Submit file to Turnitin]** icon to the far right.

It may take a moment for the Similarity Report to generate after selecting this option. Refreshing the page may be necessary.

## Similarity Reports

From the **Folder Submissions** page, you can view Similarity Reports. When a report is available, the status changes from **In-Progress** to a percentage rating, which indicates the level of matching content.

- A lower percentage rating indicates the content is likely original and has not been copied.
- A higher percentage rating indicates the content is likely not original and has been copied from another source.

[View Interpreting Similarity Webinar](#)

Colors are associated with percentage:

**Blue** = 0%

**Green** >= One word and < 24%

**Yellow** >= 25 and < 49%

**Orange** >= 50 and < 74%

**Red** >= 75 and <= 100%

## If the Similarity Report Fails to Generate

If a **Similarity Report** fails to generate, you can attempt to resubmit submissions to Turnitin.

1. Navigate in your course to **[Course Activities]** -> **[Assignments]** and click the dropdown arrow next to the assignment, then click **[View Submissions]** to access the **Folder Submissions** page.
2. Next to the student's submission, click the **[Resubmit File to Turnitin™]** icon.

<input type="checkbox"/>		Submission 1 .pdf (64.48 KB) ▾		Sep 3, 2023 10:00 AM	Student Name
<input type="checkbox"/>		Submission 2 .pdf (41.87 KB) ▾	0 %	Aug 31, 2023 10:00 AM	Student Name
<input type="checkbox"/>		Submission 3 .docx (14.62 KB) ▾		Sep 3, 2023 10:00 AM	Student Name
<input type="checkbox"/>		Submission 4 .pdf (35.17 KB) ▾	19 %	Aug 29, 2023 10:00 AM	Student Name
<input type="checkbox"/>		Submission 5 .pdf (54.66 KB) ▾	6 %	Sep 4, 2023 10:00 AM	Student Name

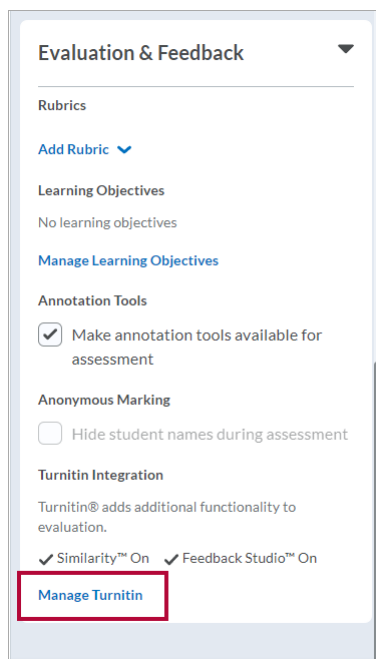

3. The icon will change to **In Progress**. It may take several minutes to generate the submission report.

**NOTE:** This will only work if Turnitin was already enabled for the assignment before the students' submission(s) were made. In cases when the Turnitin is activated after some submissions have been made to the assignment folder, please attempt the following workaround instead.

If that does not work, you can attempt the following workaround which can force the generation of the reports.

To trigger reports:

1. Go into the Assignment editor. Click to expand the **[Evaluation & Feedback]** panel.
2. Click **[Manage Turnitin]**.

3. Click **[More Options]**.

4. Change the Turnitin report generation setting to **[Generate reports on due date (students can resubmit until due date)]**. Click **[Submit]** and **[Save]** when done.

5. On the assignment editor page, make sure the due date is in the future. If the due date has already passed when this change occurs, it won't generate the reports. On the newly selected due date, all reports will be re-run (which triggers the generation of the reports that are missing).

## Viewing a Similarity Report for a Submission

To view the associated Similarity Report, click the percentage rating. To access the **Feedback Studio**, click the **[Pencil]** icon.

## Opening Similarity Reports

Two panes make up the Similarity Report.

1. The right pane lists all of the matching sources, including the percentage of text that matches and a link to the online content.
2. The left pane displays the submission text using colored highlights to draw attention to the matching content.

**NOTE:** For more detailed help with Similarity Reports, click the help link in the top-right corner of the report page within Turnitin®.

The following file types are compatible with Similarity Report®:

- Htm
- Html
- Mht
- Mhtml
- Doc
- Docx
- Hwp
- Odt
- Rtf
- Pdf
- Wpd
- Txt
- Ps
- Pptx
- Ppt
- Ppsx
- Pps
- Xls
- Xlsx

**NOTES:** A PDF file must be a single file with highlightable text; Turnitin® will not accept PDF image files, forms, portfolios, or documents containing multiple files. If a file type is incompatible with Similarity Check®, the Information icon displays instead of the percentage rating.

If you would like to use Turnitin from the [Turnitin.com \(https://Turnitin.com\)](https://Turnitin.com) website rather than through the integration with D2L, please contact VTAC.

## Insights Panel

In the **Insights** panel, you'll find a quick overview of any integrity insights we've found in a document. Depending on your Turnitin license, it can include Similarity, Flags, and Document Details. Viewing more information is as easy as selecting the one you're interested in learning more about.

See [Flags Insight Panel](#)

(<https://groove.grvlnk3.com/url/99zivncyn3gpz8dffhj3z/aHR0cHM6Ly9oZWxwLnR1cm5pdGluLmNvbS9mZWVkyMfj1zdHVkaW8>) from Turnitin for more information.

## Template Exclusion

Occasionally students are provided with templates that are submitted alongside their assignments. If all students within the class submit the same template, it will influence their Similarity Report. Templates can be uploaded to the assignment settings so that they can be automatically excluded from all students' Similarity Reports in that class.

See [Template Exclusion](#)

(<https://groove.grvlnk3.com/url/99zivncyn3gpz8dffhj3z/aHR0cHM6Ly9oZWxwLnR1cm5pdGluLmNvbS9mZWVkyMfj1zdHVkaW8>) from Turnitin for more information.

## Using Turnitin QuickMarks

You can access the **QuickMarks** tool through the  icon on the right toolbar within **Turnitin Feedback Studio**. You can then select from a word bank that will allow you to insert feedback that may be applicable to the student's content.

[Show Feedback Tools Walkthrough](#)

See [Adding QuickMarks \(https://help.turnitin.com/feedback-studio/turnitin-](https://help.turnitin.com/feedback-studio/turnitin-website/instructor/quickmarks-and-commenting-tools/adding-quickmarks.htm)

[website/instructor/quickmarks-and-commenting-tools/adding-quickmarks.htm\)](https://help.turnitin.com/feedback-studio/turnitin-website/instructor/quickmarks-and-commenting-tools/adding-quickmarks.htm) from Turnitin for more information.

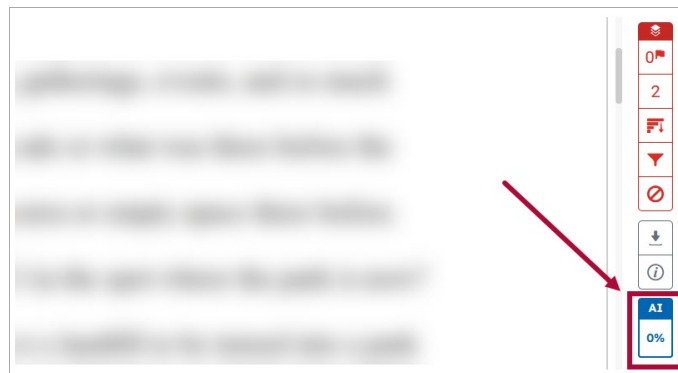

## AI Writing Detection

Turnitin Feedback Studio includes **AI writing detection**. It identifies **ChatGPT** and **GPT3** authored writing.

[View AI Report Webinar](#)

1. In the Turnitin Feedback Studio, you will see a box labeled **AI** with the percentage of qualifying text determined to be generated by AI. Click **[AI]** to open the **Turnitin AI Writing Detection** page.

2. Here you will find a detailed report regarding how much of the qualifying text in the Submission has been determined to be AI-generated by Turnitin.

How much of this submission has been generated by AI? ⓘ

**0%**

of qualifying text in this submission has been determined to be generated by AI.

**How do we detect AI-generated writing?**

To learn more about Turnitin's AI writing detection model and how it works, please visit our [AI writing detection page](#).

**Educator resources for AI writing**

- Find strategies for [approaching AI-generated text in the classroom](#).
- Minimize potential AI misuse with our [AI misuse rubric](#) to review existing writing prompts for AI vulnerability, and our [AI misuse checklist](#) to review options to proactively respond to potential AI misuse in your classroom.
- Stay informed as Turnitin expands its [AI writing capabilities](#).
