

Randomize Quiz Questions

Last Modified on 07/28/2023 8:28 pm CDT

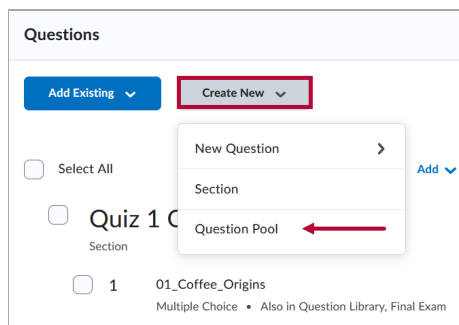

There are two ways to randomize quiz questions. Use the directions below based on how you want to randomize your questions:

- If you want to deliver a randomized subset of a question pool, follow the instructions for **Randomizing a Subset of Questions Within a Quiz**.
- If you want to deliver all the questions but deliver them randomly, follow the instructions for **Shuffle Option for Randomizing Quiz Questions Throughout a Quiz**.

Randomizing a Subset of Questions Within a Quiz

Random sections pull questions from a designated pool of questions. To import questions from the Questions Library, see [Use the Question Library \(https://vtac.lonestar.edu/help/use-the-question-library\)](https://vtac.lonestar.edu/help/use-the-question-library).

1. Click **[Course Activities] > [Quizzes]**.
2. From the **Manage Quizzes** page, click an existing quiz to add a random section or create a new quiz.
3. Click the **[Create New]** button, and then select **[Question Pool]**.

4. Enter a **Question Pool Title**, such as "Chapter 1 Randomized." This name describes the purpose of the folder.

A screenshot of the 'New Question Pool' form. The form has a title field labeled 'Question Pool Title *' with the text 'Chapter 1 Randomized' entered. Below the title field, there are two input fields: 'Number of Questions to Select *' with the value '10' and 'from 0', and 'Points per Question *' with the value '1'. There is a 'Browse Question Library' button, a 'Save' button, and a 'Cancel' button.

5. Enter the number of questions you will be delivering in this quiz and enter the point value of each question.

Browse Question Library

Save Cancel

7. If you do not see what you want to import, click on the [**Source**] dropdown list on the upper right to select a different question library or quiz.

Browse Question Library

Search... 🔍

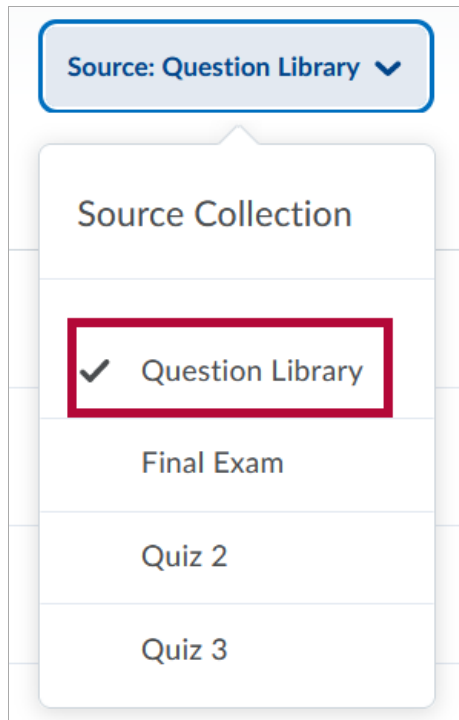

Source: Question Library ▼

6 questions

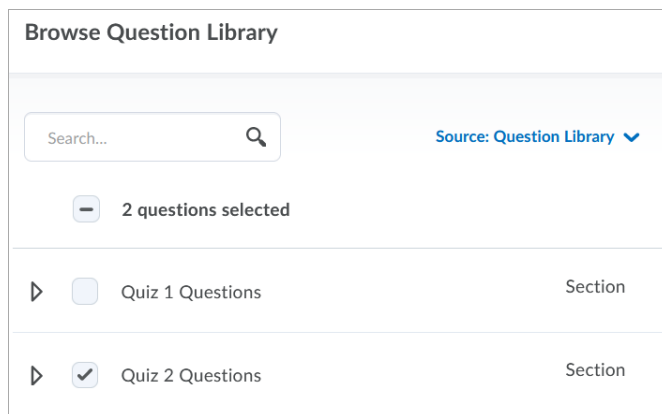

▶ <input type="checkbox"/>	Quiz 1 Questions	Section
▶ <input type="checkbox"/>	Quiz 2 Questions	Section
▶ <input type="checkbox"/>	Quiz 3 Questions	Section

8. In the **Source drop-down list**, choose the **Question Library** (for all questions in the

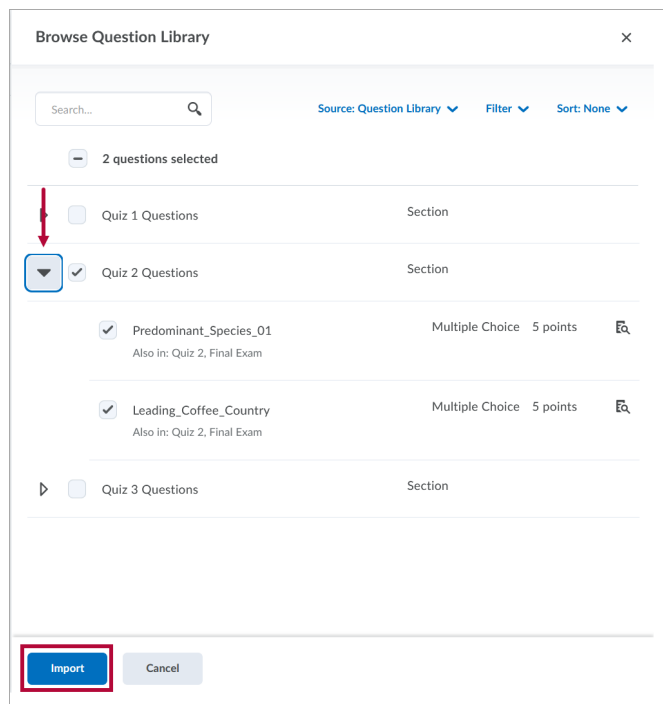

question library) or a specific question library or quiz that contains the questions you want to use.

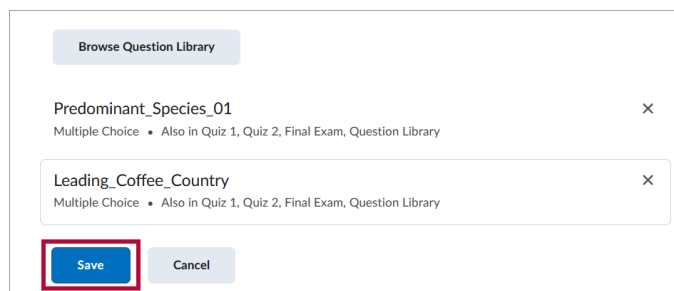

9. Select the question type you want to import.

10. Click the **[triangle]** to expand the library and see individual questions. Click **[Import]** at the bottom of the page.

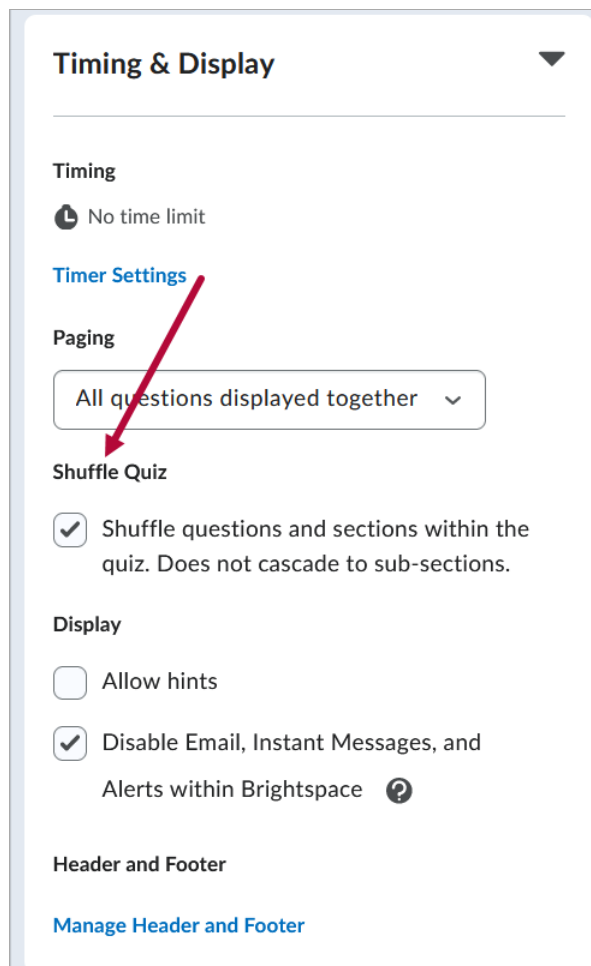

11. In the **New Question Pool** page verify that the questions are selected and hit **[Save]** to return to the quiz.

12. Click **[Save and Close]**.

Shuffle Option for Randomizing Quiz Questions Throughout a Quiz

1. From the **Manage Quizzes** page, either click on the quiz you want to randomize questions in or create a new quiz.
2. In the **Timing & Display** section under **Shuffle Quiz**, check the **[Shuffle questions and sections within the quiz. Does not cascade to sub-sections]** checkbox.

3. After you have selected the checkbox, click **[Save]** at the bottom of the screen.
