

Use the Announcements Tool

Last Modified on 03/28/2022 2:22 pm CDT

The Announcements tool enables you to create announcements that help communicate course updates, changes, and new information to your students quickly and efficiently. Since My Home or Course Home is the first page that students see when they log into D2L, the Announcements widget is a good area for displaying important information.

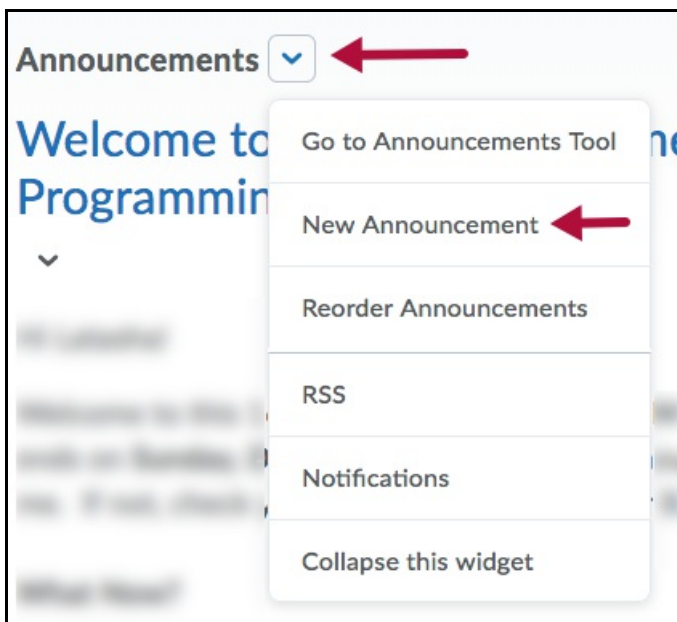

View the Announcements Tool

Click the **Announcements** widget's header on the course home page.

Create an Announcement

1. Click the context menu for the **Announcements** header, then select **New Announcement**.

2. Enter the subject of your announcement in the **Headline** field.
3. Enter the body of your announcement in the **Content** field.
4. If you want to hide your announcement's date and time, clear the box for **Always show start date**. By default, an announcement's start date and time appear below the headline when displayed in the Announcements widget.

Availability

Show Start Date

Always show start date

If unchecked, the start date will be visible only in the Announcements tool to users with permission to edit announcements.

- To make your announcement available starting at a specific date and time, select the date and time under **Start Date**. Announcements will display on the course homepage immediately when published, unless a start date and time is specified.

Start Date

6/6/2018 2:45 PM Now

United States - Chicago

End Date

Remove announcement based on end date

4/20/2018 12:00 AM Now

United States - Chicago

- To remove your announcement from student view, select the check box for **Remove announcement based on end date** and select the date and time you want the announcement to no longer be visible. You and administrators will still be able to see the announcement after the end date, but students will no longer be able to see it.
- Under the **Attachments** section, you can include files, audio recordings, and video recording as part of your announcement:

Attachments

Add a File Record Audio Record Video

- Click **Add a File** to attach a file to the announcement.
 - To record audio, click **Record Audio**. Click **Flash Settings** to make adjustments to your microphone selection and volume. Click **Play** to listen to your recording. Click **Clear** to erase your recording.
 - To record a video, click **Record Video**.
- To include additional release conditions, click **Attach Existing** or **Create and Attach**.

Additional Release Conditions

Attach Existing Create and Attach  Remove All Conditions

There are no conditions attached to this item.

- Click **Save as Draft** to continue editing the announcement (students cannot see draft announcements), or click **Publish** to release the announcement to users.

Copy an Announcement

1. Users click Copy, which opens a new edit announcement page in draft mode with the details of the original announcement copied over.

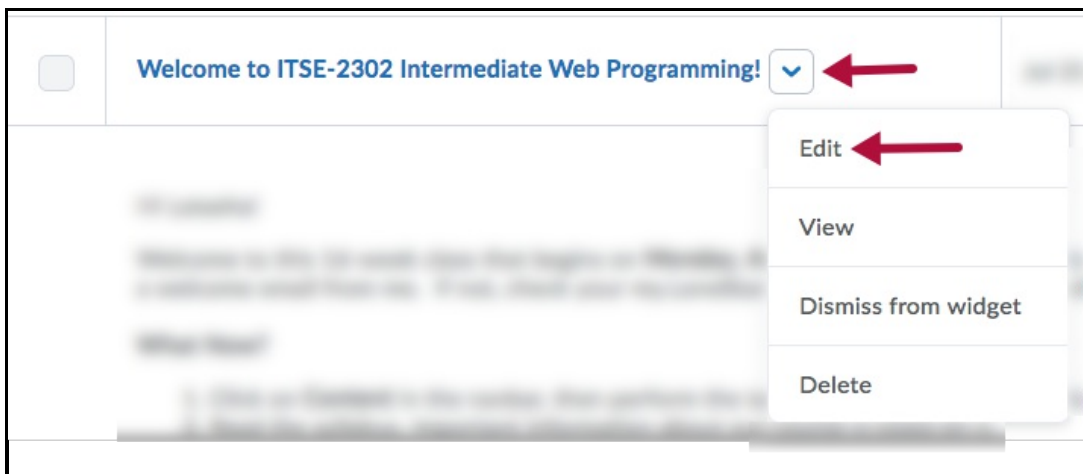

The following details are copied:

- Headline, with "Copy of " appended to the front
- Content
- Display Author checkbox setting
- Show Start Date setting
- Attachments
- Release conditions

Start dates and/or end dates are not copied over. No notifications are triggered by this action until the edit page is saved.

Edit an Announcement

1. Click on the **Announcements** header to go to the **Announcements** tool page.
2. Click on the title of the announcement you want to edit or click the context menu and choose **Edit**.

3. Edit your announcement.
4. You can select the check box for **Major edit - send a notification and restore it for those who dismissed it** to inform users of significant changes and updates to the announcement, while making the announcement reappear with current information for those who may have dismissed it.

Headline *

Welcome to ITSE-2302 Intermediate Web Programming!

Content *

Welcome to this 16-week class that begins on **Monday, August 28th**. This course ends on **Sunday, December 17th**. You should have received a welcome email from me.

What Now?

1. Click on **Content** in the navbar, then perform the tasks in the **START HERE** module.

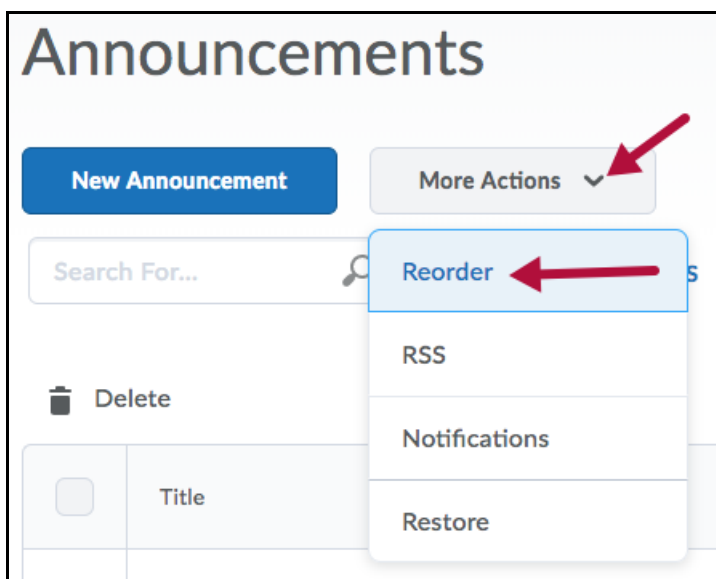

Major edit - send a notification and restore it for those who dismissed it

5. Click **Update**.

NOTE: You can also make the edited announcement reappear at the top of the Announcements widget by changing its **Start Date** to the current date and time.

Reorder Announcements

1. Click on the **Announcements** header to go to the **Announcements** tool page.
2. Click the **More Actions** button, then select **Reorder**.

3. Use the drop-down lists in the **Sort Order** column to select an announcement's order. Other

announcements automatically reposition themselves according to the new order.

4. Click **Save**.

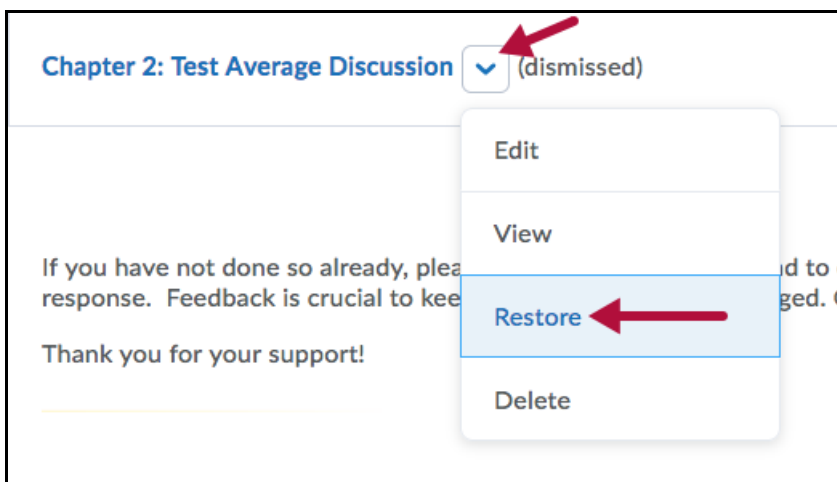

Dismiss an Announcement

Dismissing an item hides it from your view, not the student view. Dismissing is NOT deleting.

- Click the **Dismiss [X]** icon for the announcement you want to hide (from yourself only) in the Announcements widget.
- To hide from students, change the start or end date.

Restore a Dismissed Announcement

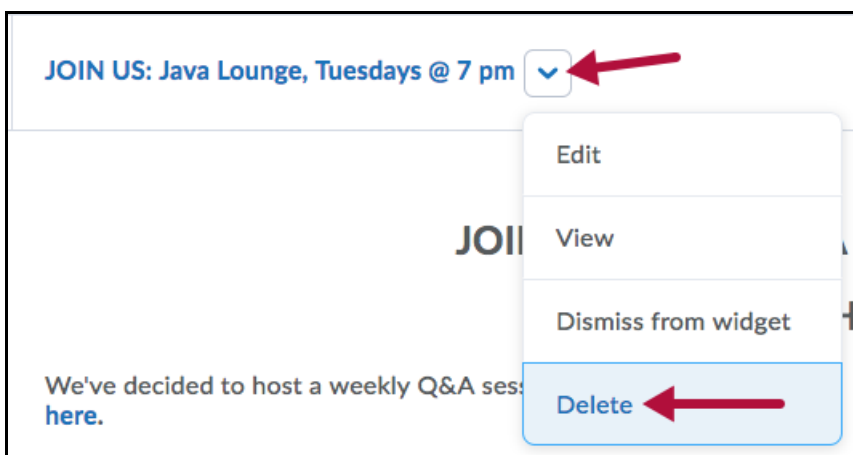

1. Click on the **Announcements** header to go to the **Announcements** tool page.
2. Click **Restore** from the context menu of the announcement you want to restore.

3. To restore an announcement dismissed by students, select **Edit** from the context menu, select the **Major edit** checkbox, and click **Update**.

Delete an Announcement

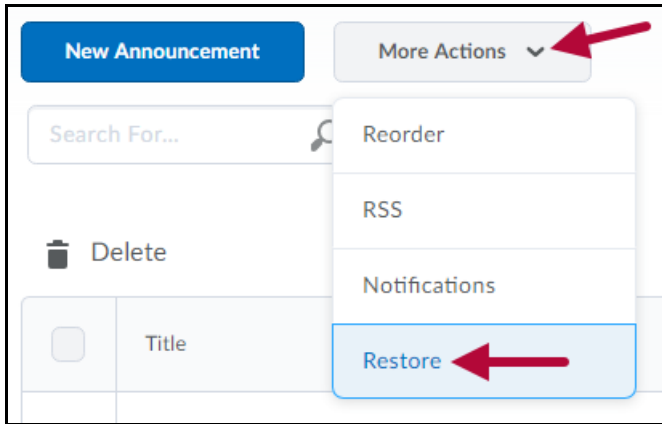

1. Click on the **Announcements** header to go to the **Announcements** tool page.
2. Click on the context menu next to the announcement and choose **Delete**.

NOTE: You can only delete Announcements that you have created.

Restore a Deleted Announcement

1. Click the **More Actions** button at the top of the page and choose **Restore**.

2. Check the box next to the announcement you'd like to restore, then click the **Restore** button.
