

# Set Release Conditions for an Assignment

Last Modified on 04/08/2026 10:36 am CDT

Release conditions allow you to set requirements for access to an assignment folder based on multiple criteria, including completion of other items in D2L. For example, you can require that students visit a set of lecture notes in the Content tool before they can submit work to an assignment folder. Alternatively, you can make submission to the assignment folder a condition for accessing another item, such as a quiz.

## Set release conditions for an assignment folder

Release conditions allow you to associate an assignment folder with other items in D2L. For example, you can require that students meet some criteria, such as visiting a set of lecture notes in the **Content** tool, before they can submit their work to an **Assignment** folder. Alternatively, you can make submitting to the assignment folder criteria for accessing another item, such as a **Quiz**.

1. On the **[New Folder]** or **[Edit Folder]** page, click on the **[Availability Dates & Conditions]** tab.
2. In the **Release Conditions** section, click **[Add Release Condition]**.

**Availability Dates & Conditions** ▼

---

**Start Date**

**End Date**

**Release Conditions**

Users are not able to access or view the assignment unless they meet the release conditions.

**Add Release Condition** ▼

**Special Access**

Special Access allows activities to be available to only a select group of users or individualized due dates for certain users.
