

Submit a Quiz Stuck "In Progress"

Last Modified on 03/07/2022 2:09 pm CST

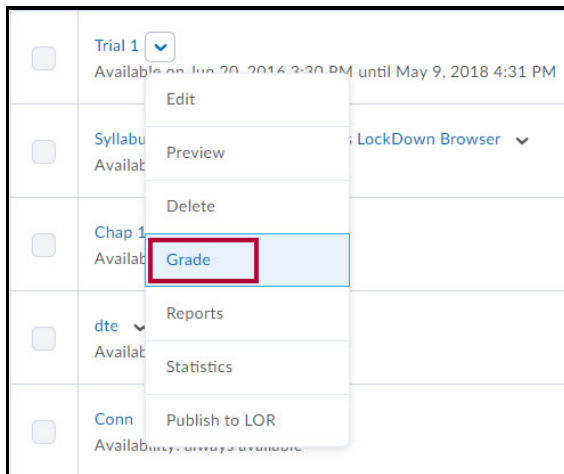

During the course of any class, it may happen that a student says they submitted a quiz but the instructor cannot see it in the quiz attempts list. This is because, by default, the "quiz attempts list" is filtered to only students that have submitted an attempt. If the student was unable to submit the quiz, his attempt is marked as "In Progress" and can only be viewed by changing the filter.

Finding quizzes stuck "in progress"

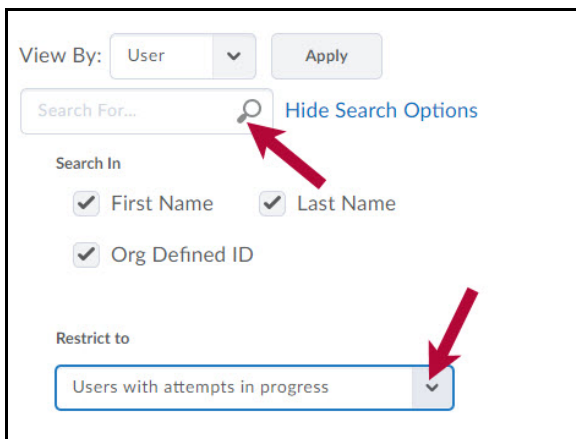

1. Click on **Course Activities** on the navbar and choose **Quizzes**.

2. Click the arrow next to the desired quiz and choose **Grade**.

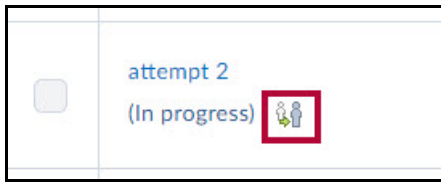

3. On the Users tab, click **Show Search Options** then choose **Users with attempts in progress** from the "Restrict to" dropdown list.

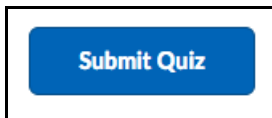

4. Click the magnifying glass in the search box above the "Restrict to" setting to apply the filter and initiate the search.

Submitting an attempt for students:

1. Click the **Enter Quiz as User** icon beside the quiz attempt in progress.

2. Click **Yes** to confirm you wish to enter the quiz as the student.
3. Go to end of the quiz and click **Submit Quiz**.

This will return to the Grade Quiz page and atomically stop impersonating the user.
