

Create Groups

Last Modified on 11/04/2024 11:50 am CST

You can create group work areas for students with the **Manage Groups** tool and use groups to organize students' work on projects and assignments.

Students can belong to multiple groups within the same course. For example, each student can simultaneously belong to a group for class projects, a group for special interest discussions, and a group for advanced students. Each group can have its own discussion forums and assignment folders. You can grade members of groups individually or as a team.

Creating a Group Category

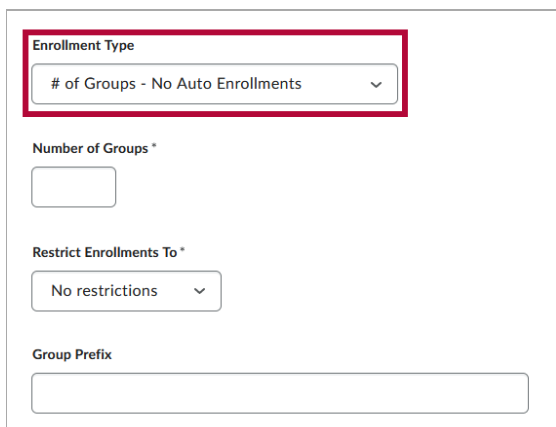

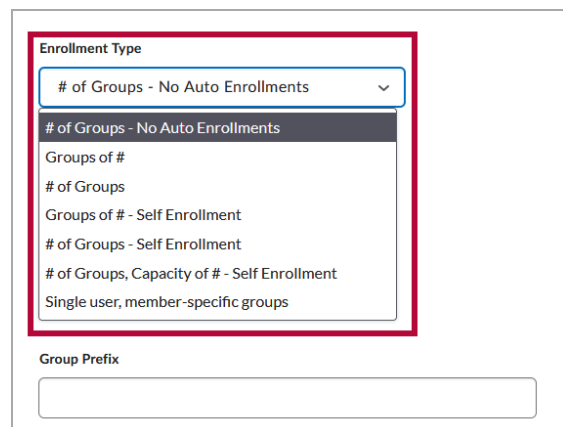

Use categories to organize and manage related groups. For example, you can have a category for Assignment 1, Assignment 2, Seminars, Remedial Help, and Book Reviews.

NOTE: You must set up a category before you can set up groups.

1. Click **Collaboration** on the navbar and choose **Groups**.
2. On the **Manage Groups** page, click **[New Category]**.

3. Enter a **Category Name** and **Description**.
4. Select an **Enrollment Type** from the drop-down list.

A screenshot of the 'Enrollment Type' dropdown menu in the 'Manage Groups' form. The dropdown is open, showing the selected option '# of Groups - No Auto Enrollments' and a list of other options: '# of Groups', 'Groups of #', 'Groups of # - Self Enrollment', '# of Groups - Self Enrollment', '# of Groups, Capacity of # - Self Enrollment', and 'Single user, member-specific groups'. The dropdown menu is highlighted with a red border.A screenshot of the 'Enrollment Type' dropdown menu in the 'Manage Groups' form. The dropdown is open, showing the selected option '# of Groups - No Auto Enrollments' and a list of other options: '# of Groups', 'Groups of #', 'Groups of # - Self Enrollment', '# of Groups - Self Enrollment', '# of Groups, Capacity of # - Self Enrollment', and 'Single user, member-specific groups'. The dropdown menu is highlighted with a red border.

Please refer to the table below for an explanation of the different **Enrollment Types**:

	Instructor manually Enrolls Students in Groups	Students Enroll themselves in Groups (Self-Enrollment)	Students are Automatically Enrolled in Groups
Instructor Chooses Number of Groups	# of Groups - No Auto Enrollments	# of Groups - Self Enrollment	# of Groups
Instructor Chooses Number of Students per Group	N/A	Groups of # - Self Enrollment	Groups of #
Instructor Chooses Both	N/A	# of Groups, Capacity of # - Self Enrollment	N/A
Instructor Chooses Neither	N/A	N/A	Single user, member-specific groups

- Depending on the chosen Enrollment Type, enter the **Number of Groups** to create and/or the **Number of Users** per group.
- Using the **Restrict Enrollments To** drop-down, you can restrict the category you are creating to only enroll students within a particular **Section** (if you are in a merged course), or within an already existing **Group Category**, if there are any.

Group 2

Show Advanced Properties

- Under **Advanced Properties** choose **Groups Options**. Depending on your Enrollment Type, you will see different group options.
 - For Auto-Enrollment types (# of Groups and Groups of #):
 - Select **[Auto-Enroll New Users]** to automatically enroll new students who join

after the initial group creation in the group with the fewest users.

- Select **[Randomize users in Groups]** to randomly place students in groups during group creation. If this option is not chosen, students are placed alphabetically based on the Claslist.
- For Self-Enrollment types:
 - Set **[Self Enrollment Start Date]** if you want to prevent students from enrolling in a group before a certain date.
 - Set **[Self Enrollment Expiry Date]** if you want to prevent students from enrolling in a group after a certain date.
 - Select the option **[Allocate unenrolled users after Self Enrollment Expiry Date]** if you want D2L to assign students who are not already assigned a group after the expiry date.
- Some Enrollment types also give the option **[Make category and group descriptions visible to group members]**.

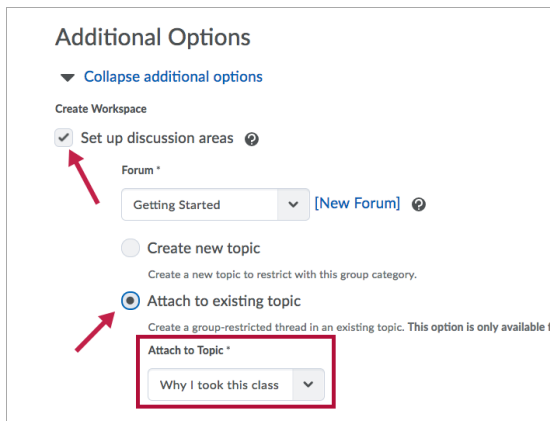

8. Choose your Workspace options under **Additional Options**:

- Select **[Set Up Discussion Areas]** if you want to associate discussion areas with the groups in the category.
- Select **[Set Up Assignment Submission Folders]** if you want to associate assignments with the groups in the category.

9. Click **Save**.

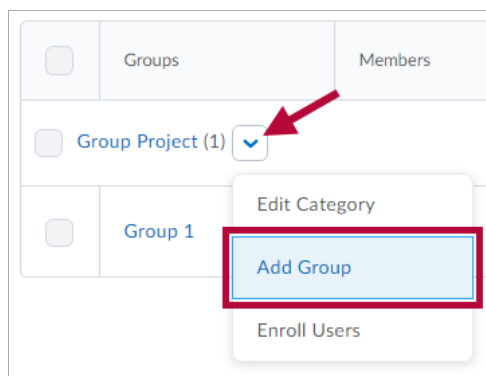

- If you enabled **Discussion Areas**, you will need to select a forum and choose to either [Create a Discussion Topic \(https://vtac.lonestar.edu/help/a061\)](https://vtac.lonestar.edu/help/a061) or Attach to an existing topic, which you select in the drop-down menu.

- If you enabled **Assignment Submission Folders**, you will need to name the folder (e.g., Group Projects), and make selections such as Grade Item, Instructions, and Originality Report, just as you would with individual submission folders. Click **Create**.
- Click **[Done]**.

Creating a group

1. On the Manage Groups page, click **[Add Group]** from the context menu of the category to create a group in.

2. Enter a **Group Name** if you do not want to use the default name provided.
3. Enter a **Group Code** if you do not want to use the default group code provided.
4. Enter a **Description** for the group.
5. Click **[Save]**.
