

Set Optional Advanced Quiz Properties

Last Modified on 10/13/2020 10:06 am CDT

The following options are available in the Optional Advanced Properties section on the quiz**Properties** tab.

The screenshot shows a panel titled "Optional Advanced Properties". At the top, there is a dropdown menu labeled "Collapse optional advanced properties" with a downward arrow. Below this are three checkboxes: "Allow hints" (unchecked), "Disable right click" (unchecked), and "Disable Email, Instant Messages, and alerts" (checked). Each checkbox has a small question mark icon to its right. At the bottom of the panel, there is a text input field labeled "Notification Email" with a question mark icon to its right.

Allow Hints

Allows students to access hints to questions (if there are hints entered in the quiz questions).

Disable Right-Click

Prohibits students from right-clicking on a question when taking a quiz.

NOTE: This option does not work if a student is using Safari on a Mac.

Disable Email, Instant Messages, and Alerts

Prohibits students from accessing email, instant messages, and alerts if they have a quiz attempt in progress.

Notification Email

The email address or comma-separated list of email addresses specified in this field will receive a message each time a student submits a quiz attempt.
