

# Restore Deleted Assignment Submissions

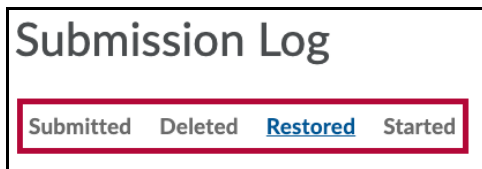

Last Modified on 06/08/2021 10:19 am CDT

Faculty members can track when an assignment submission was deleted and who deleted it. They can also restore those deleted submissions.

1. Click **Course Activities** on the navbar, then select **Assignments**.
2. Click the title of the assignment that contains the submission you would like to restore.
3. On the **Folder Submissions** page, click **Submission Log** at the top of the page.

4. You can click on the **Submitted**, **Deleted**, **Restored**, and **Started** filters to view items according to their state.

5. You'll see a list of assignment submissions and the actions that have been taken on them, as well as who took those actions. If there are any deleted submissions, you will see a **Restore** button next to each one unless it has been restored.
