LOR: Change Versions of a Learning Object in Your Course

Last Modified on 08/24/2020 2:19 pm CDT

You may need to update content in your courses you added from a LOR.

- 1. Access your course, and select the course module.
- 2. Click the arrow next to the object that has been added from the LOR using a link (either a dynamic link or a locked link).
- 3. Select the Change Version option.

- 4. Select the Dynamic link to newest version option or Locked link to version option.
 - All versions of the file are listed in the drop-down menu.
