

Using Webex for Collaboration

Last Modified on 09/08/2021 12:13 pm CDT

What is Webex Meetings?

Webex Meetings is a web conferencing service that connects you with anyone, anywhere, in real time. You can create meetings that combine desktop sharing through a web browser with audio conferencing and video, so everyone sees and hears the same thing at the same time. The service also includes an annotation tool and a whiteboard, and meetings can be recorded for later playback. It even works on a mobile device like an iPad. You can add these meetings to your D2L course to host a lecture to your entire course or a meeting between just a few people.

To set up your LSC WebEx account, visit lonestar.webex.com (<https://lonestar.webex.com/>) and sign in with your LSC network username and password.

Your LSC Webex account includes access to 3 conferencing accounts: Webex Meetings, Webex Events, and Webex Trainings. To decide which conferencing account may be best for your instructional purposes, visit the [Webex Suite Comparison](https://www.cisco.com/c/en/us/products/conferencing/product_comparison.html) (https://www.cisco.com/c/en/us/products/conferencing/product_comparison.html) page. Specific tools and functions for each account can be found under the **Information Sharing** and **Special Features** headings.

For more information about Webex conferencing accounts, see

What is Webex Teams?

Webex lets you collaborate with others in a variety of ways. You can create virtual spaces to share files or whiteboards, send messages to groups or individuals, and start phone calls or video meetings.
