

# Create a Link

Last Modified on 04/19/2021 4:14 pm CDT

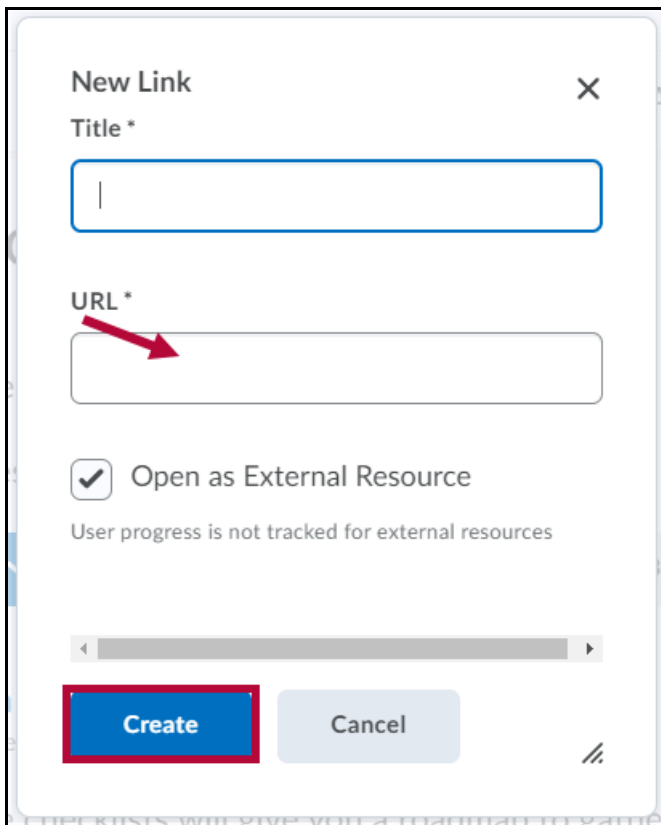

Once you have created a module or sub-module in your table of contents, you can add links to websites in that module.

To add links:

1. Click the module in the Table of Contents on the left.
2. Click on the **New** button.

3. Choose the **Create a Link** option.
4. Enter a title and the URL (web address) in the appropriate fields.

A screenshot of a 'New Link' dialog box. The dialog has a title bar with 'New Link' and a close button (X). It contains two input fields: 'Title \*' and 'URL \*'. A red arrow points to the 'URL \*' field. Below the input fields, there is a checked checkbox labeled 'Open as External Resource' with the text 'User progress is not tracked for external resources' underneath. At the bottom of the dialog, there are two buttons: 'Create' (highlighted with a red box) and 'Cancel'. A scrollbar is visible at the bottom of the dialog.

5. The box labeled **Open as External Resource** is automatically selected as many links must open in a new window. so to be safe leave checked.
6. When finished, click the **Create** button.
