

Create a Link

Last Modified on 03/22/2024 2:56 pm CDT

Once you have created a module or sub-module in your table of contents, you can add links to websites in that module.

To add links:

1. Click the module in the **Table of Contents** on the left.
2. Click on the **[New]** button.

3. Choose the **[Create a Link]** option.
4. Enter a title and the **URL** (web address) in the appropriate fields.

New Link

Title *

URL *

Open as External Resource

User progress is not tracked for external resources

Create Cancel

5. The box labeled **[Open as External Resource]** is automatically selected as many links must open in a new window so to be safe leave checked.
6. When finished, click the **[Create]** button.
