The **Class Progress** tool allows you to see statistics and details for the current students in a course. You can see student data for each course tool, such as discussions or quizzes, and for content, logins, and grades.

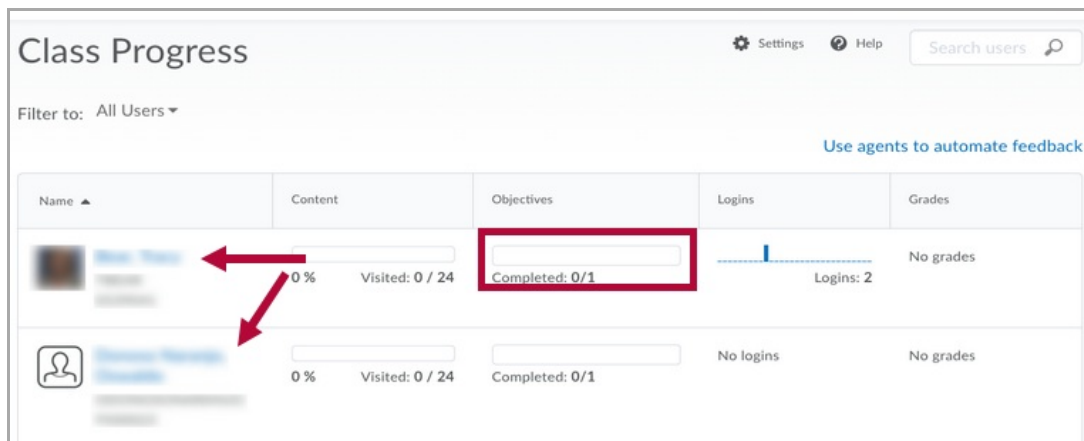

NOTE: **Logins** and **Course Access** data only represent the last 30 days, NOT the full term.

Class Progress Page

1. To access Class Progress, click on **[Course Activities]** -> **[Class Progress]**.

2. To view progress by group or sections, use the **[Filter to:]** dropdown menu.
3. The first page is the **Class Progress** page.

4. Click a **[Progress Bar]** to view a student's progress on that course tool.
5. Alternatively, click on a **[student's name]** to see the student's **Progress Summary** page.

Course Access

- You can see the **number of days the student has logged in to the course** , the **last login**, and the **number of days missed since their last login** , at the top of the screen.
- The left column shows the **dates the student accessed the course** .
- The right column shows the **number of days missed between access dates** .

Login Tracker

- You can view a student's **System login dates** as well as the number of logins by viewing the

login tracker on the **Class Progress** page or by selecting **Login History** on the **User Progress** page.

- If you hover over the tracker, a box will appear showing the date and number of logins on that date. Move the mouse across the graph to view other dates.

Grade Progress Quick Check

- As with the **Login Tracker**, you can hover over the **Grades** column and quickly view grade scores.
