

View Class Progress

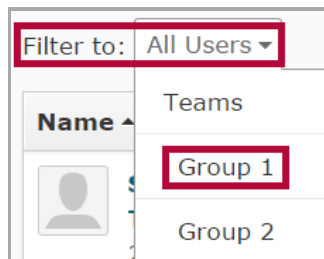

Last Modified on 08/22/2023 10:30 am CDT

The Class Progress tool allows you to see statistics and details for the current students in a course. You can see student data for each course tool, such as discussions or quizzes, and for content, logins, and grades.

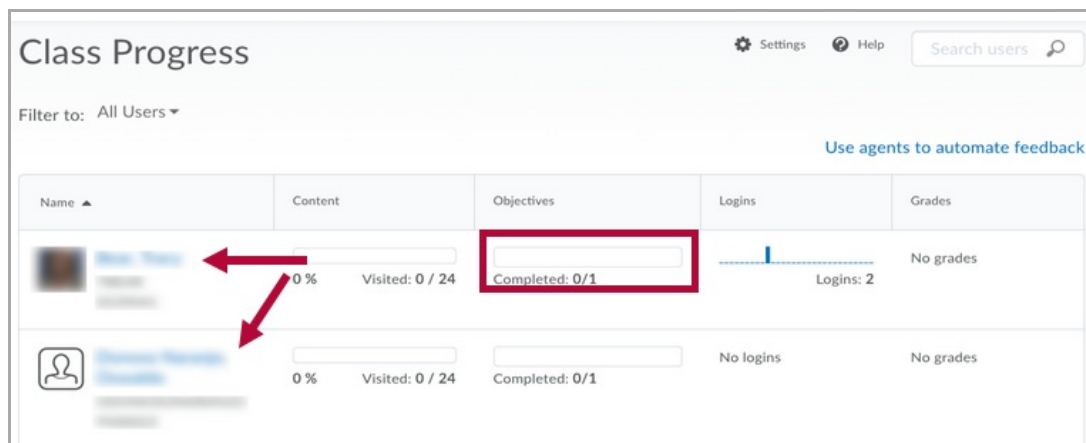

NOTE: Logins & Course Access data only represent the last 30 days, NOT the full term.

Class Progress Page

- To access Class Progress, click on **[Course Activities]** -> **[Class Progress]**.

- To view progress by group or sections, use the **[Filter to:] dropdown**.
- The first page is the **Class Progress** page.

- Click a progress bar to view a student's progress on that course tool.
- Alternatively, click on a student's name to see the student's **Progress Summary** page.

Course Access

- You can see the **number of days the student has logged in to the course** , the **last login**, and the **number of days missed since their last login** , at the top of the screen.
- The left column shows the **dates the student accessed the course** .
- The right column shows the **number of days missed between access dates** .

Login Tracker

- You can view a student's System login dates as well as the number of logins by viewing the login tracker on the Class Progress page or by selecting Login History on the User Progress page.
- If you hover over the tracker, a box will appear showing the date and number of logins on that date. Move the mouse across the graph to view other dates.

Grade Progress Quick Check

- As with the Login Tracker, you can hover over the **Grades** column and quickly view grade scores.
