

Automated SmarterProctoring

Last Modified on 06/24/2021 9:08 am CDT

SmarterProctoring offers an automated proctoring service that is available for all courses. This allows students to schedule an exam and be recorded while they take the exam. The video will then be available for you to review.

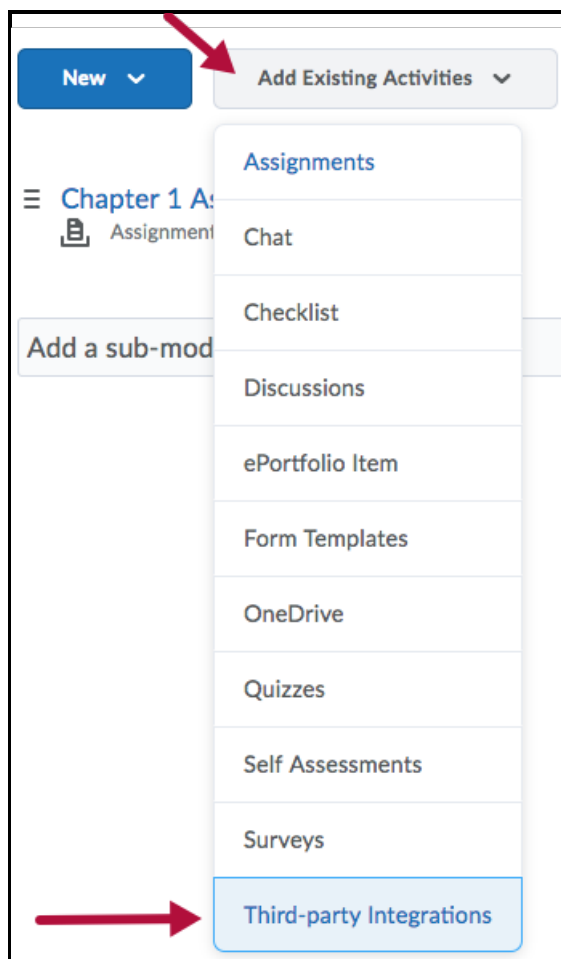

There are some things you should inform your students of before they take exams through SmarterProctoring:

- There is currently no cost to the student for SmarterProctoring.
- The student **cannot** take the exam on a mobile device (e.g., an iPad).
- The student **must** be using the Chrome browser.
- The student must have a functioning webcam, microphone, and broadband internet connection.

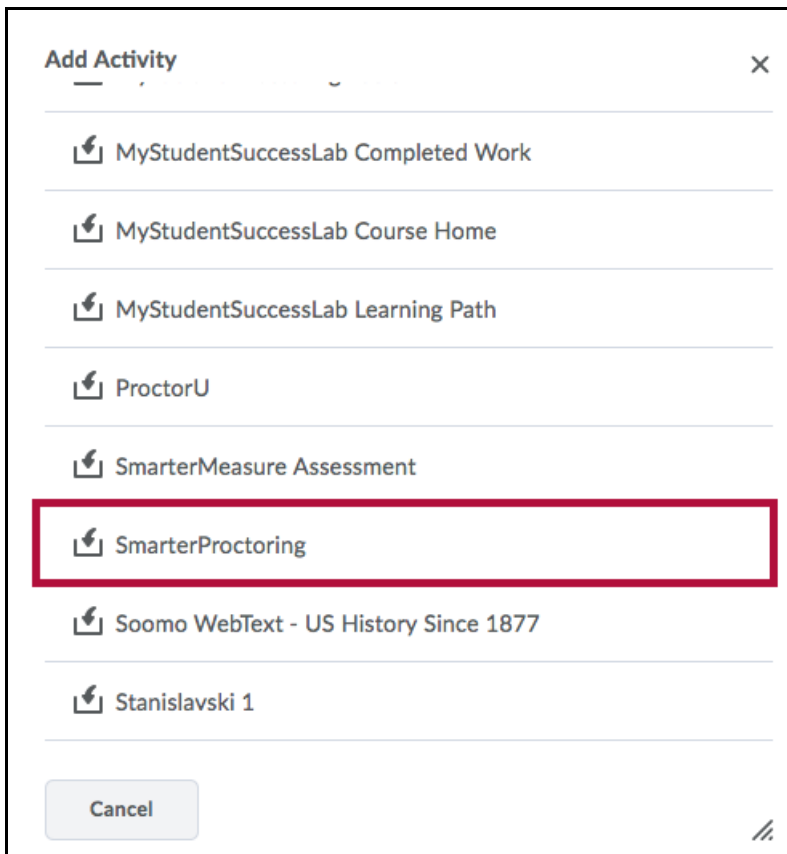

NOTE: Before setting up your quiz in SmarterProctor, you **MUST** enter your date and time restrictions **AND** your password in the D2L quiz. See [Apply Quiz Restrictions \(https://vtac.lonestar.edu/help/a224\)](https://vtac.lonestar.edu/help/a224)

To add a SmarterProctoring link to your course:

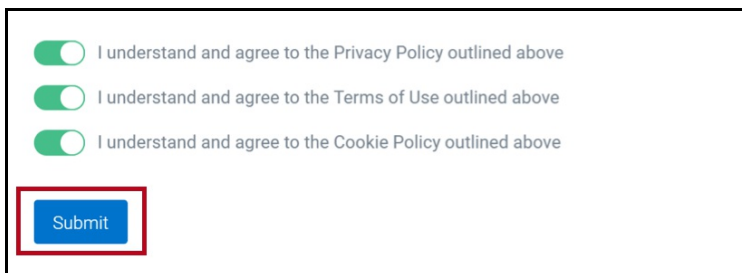

1. In your content module, click the **Add Existing Activities** button, then choose **Third-party Integrations**.

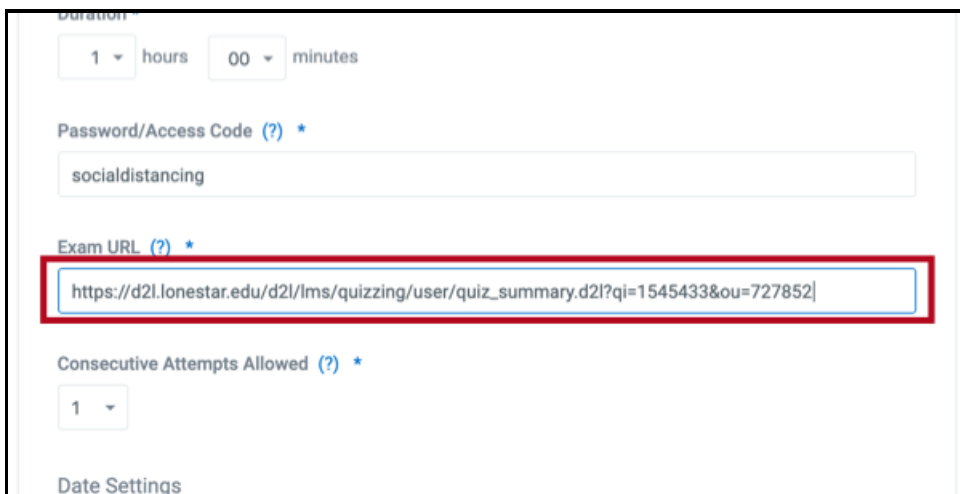

2. Choose **SmarterProctoring**.

3. You will be asked to accept the service's Terms before continuing. Accept all the terms and click the Submit button.

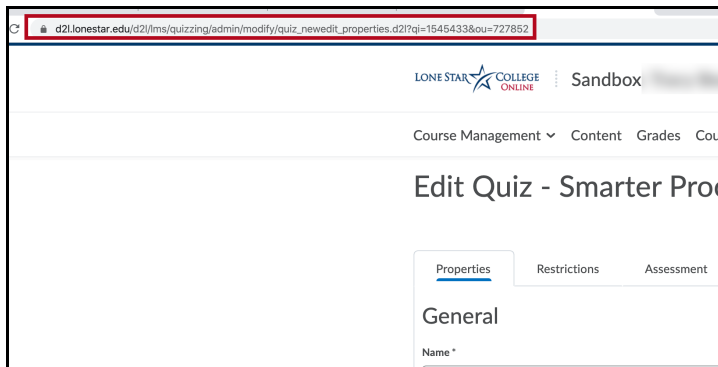

4. Click **New Exam**.
5. Fill out the fields as desired. You can view the resources below for more information.
One important note: you will be asked to input a URL. This must be the **exact URL** for your quiz.

To find that URL:

- Go to **Course Activities > Quizzes** and click on the name of the quiz. Copy the URL for that page.

- That url will take the following form:
https://d2l.lonestar.edu/d2l/lms/quizzing/admin/modify/quiz_newedit_properties.d2l?qi=1545433&ou=727852
 You will need to edit the bold green pieces and remove the italicized red piece.
- Your final result should have the following form:
https://d2l.lonestar.edu/d2l/lms/quizzing/user/quiz_summary.d2l?qi=1545433&ou=727852
 This is the URL you will enter in to the Exam URL field.

Following are some resources for instructors using Automated SmarterProctoring:

- [Faculty FAQ](https://smarterproctoring.zendesk.com/hc/en-us/articles/360041682791-Faculty-FAQ-Automated-Proctoring) (https://smarterproctoring.zendesk.com/hc/en-us/articles/360041682791-Faculty-FAQ-Automated-Proctoring)
- [Instructor Dashboard Overview](https://vimeo.com/398999704) (https://vimeo.com/398999704)
- [Creating an Exam with Automated Proctoring](https://smarterproctoring.zendesk.com/hc/en-us/articles/360035641951-Creating-an-Exam-w-Automated-Proctoring) (https://smarterproctoring.zendesk.com/hc/en-us/articles/360035641951-Creating-an-Exam-w-Automated-Proctoring)

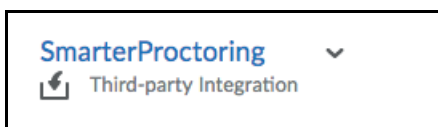

Pearson Exams (MyMath Labs Only)

The only difference when setting up a Pearson exam from the SmarterProctoring Dashboard in D2L is that the URL for Pearson will be to the assessment. Pearson will auto-inject the password.

1. On the "Proctor Settings" page when "Automated Online Proctoring" is enabled, more options appear.
2. Uncheck Disable New Tabs.

Student Information

Students will see a link to SmarterProctoring in the Content area of your course.

Following are some materials you can provide for your students about using Automated SmarterProctoring.
