

# Getting Started with SoftChalk

Last Modified on 03/24/2026 11:05 am CDT

**SoftChalk Cloud** is a program that allows faculty to easily create professional-looking, interactive lessons to upload into their online classes. SoftChalk Cloud content resides online in a SoftChalk Cloud account rather than being uploaded into D2L. If you decide to host your content in SoftChalk Cloud rather than in your D2L course, it is highly recommended that you also keep a local copy using the **SoftChalk Create App (Desktop App)**.

## Access SoftChalk Create Online

1. Go to the **LSC SoftChalk** page at [lonestar.softchalkcloud.com](https://lonestar.softchalkcloud.com) (<https://lonestar.softchalkcloud.com/login>)
2. Go through the **LSC Single Sign-On** process and login with your **LSC Email Address** and **LSC Password**.
3. Upon successful log-in, you'll land on the **Lessons** page below.

The screenshot shows the Lone Star College SoftChalk Cloud interface. At the top, there is the Lone Star College logo and a user profile dropdown with the name '(lonestar)' and a 'Logout' button. Below the logo is a navigation bar with links for 'My Content', 'ScoreCenter', 'SoftChalk Share', and 'Account'. The main content area is divided into two sections: 'ACTIONS' and 'Lessons'. The 'ACTIONS' section includes buttons for '+ Create Lesson', 'Upload Lesson', and 'Create Folder', along with a 'STORAGE' indicator showing '1.91 MB of 2.00 GB used'. The 'Lessons' section is a table with columns for 'Name' and 'Privacy'. The table contains four rows of lesson entries:

Name	Privacy
123456	Personal
12345	Personal
test	Personal
Fatty Acid Synthesis	Personal

4. If you wish to create your SoftChalk lesson online, select **[Create Lesson]** → **[Use Create Online]**.

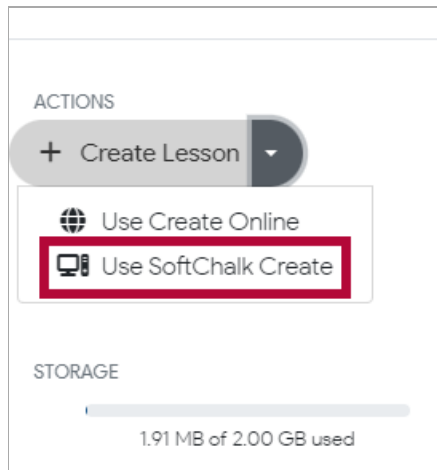

This close-up screenshot shows the 'ACTIONS' section of the interface. The '+ Create Lesson' button is highlighted with a red box, and its dropdown menu is open. The dropdown menu contains three options: 'Use Create Online' (highlighted with a red box), 'Use SoftChalk Create', and 'Use SoftChalk Create'. Below the dropdown menu, the 'STORAGE' indicator shows '1.91 MB of 2.00 GB used'.

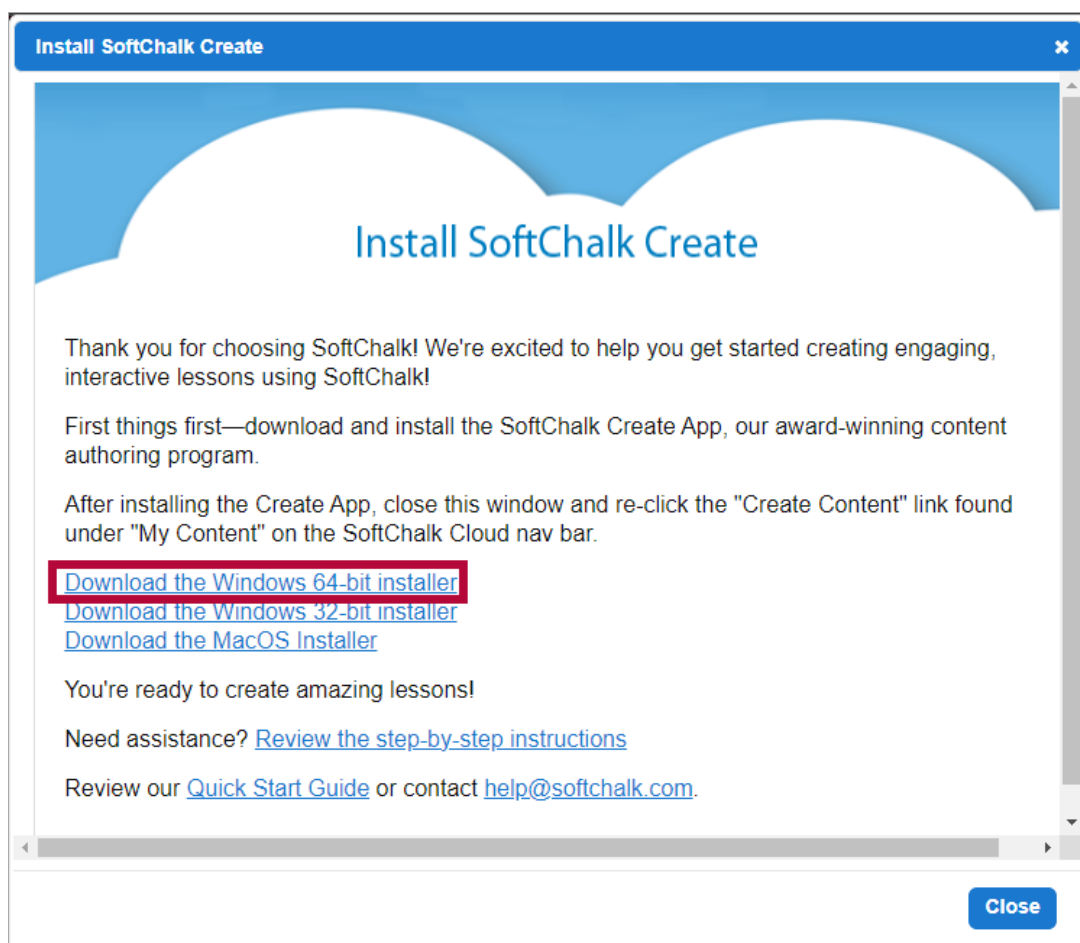

5. Refer to the [SoftChalk Training Videos](https://softchalk.com/support/training) (<https://softchalk.com/support/training>) and [SoftChalk User Guides](https://softchalk.com/support/user-guides/) (<https://softchalk.com/support/user-guides/>) to learn how to create your lessons with SoftChalk. If you would like to use the **SoftChalk Desktop App** to create your lessons, please follow the instructions in the next section.

## Install and Access SoftChalk Create App [Desktop Application]

1. After logging in, select **[Create Lesson] → [Use SoftChalk Create]**.

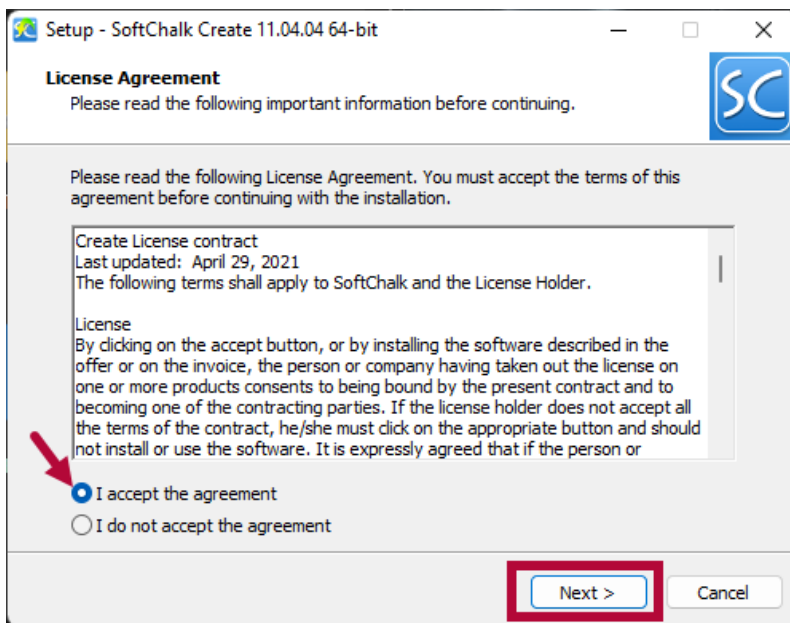

2. On the following window, select **[Download the Windows 64-bit installer]**.

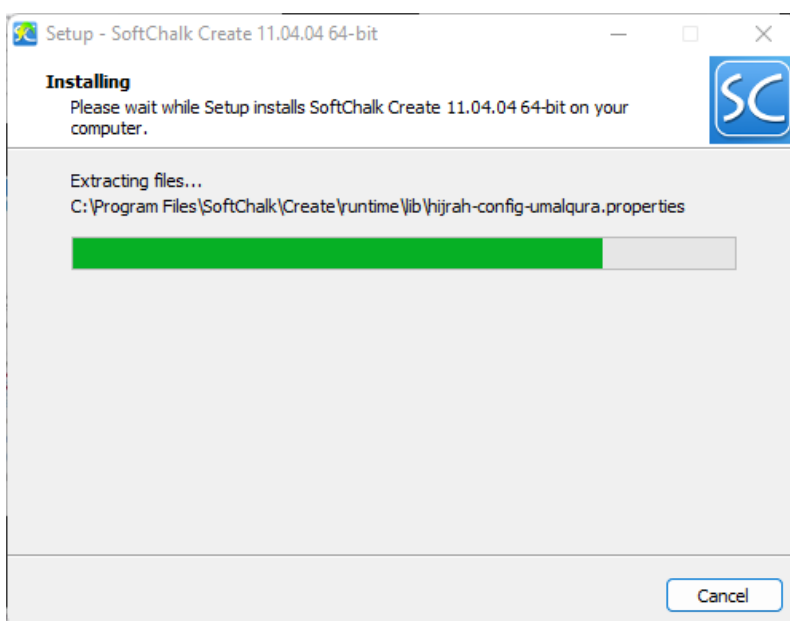

3. After downloading the **SoftChalk Create App** installer, open the installer by double clicking the launcher icon.

4. Click **[I accept the agreement]** → **[Next]**.

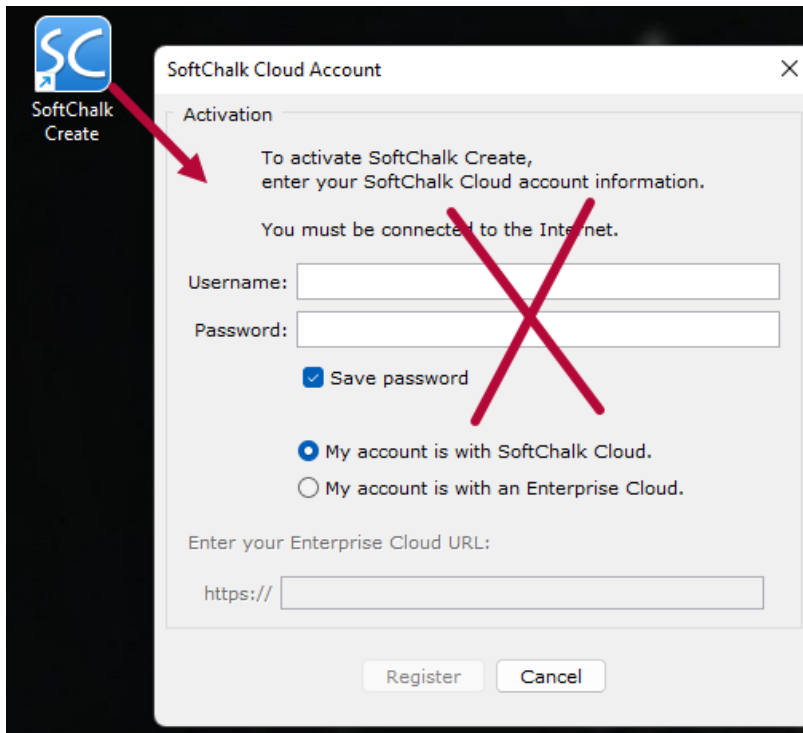

5. Wait for the installation to complete.

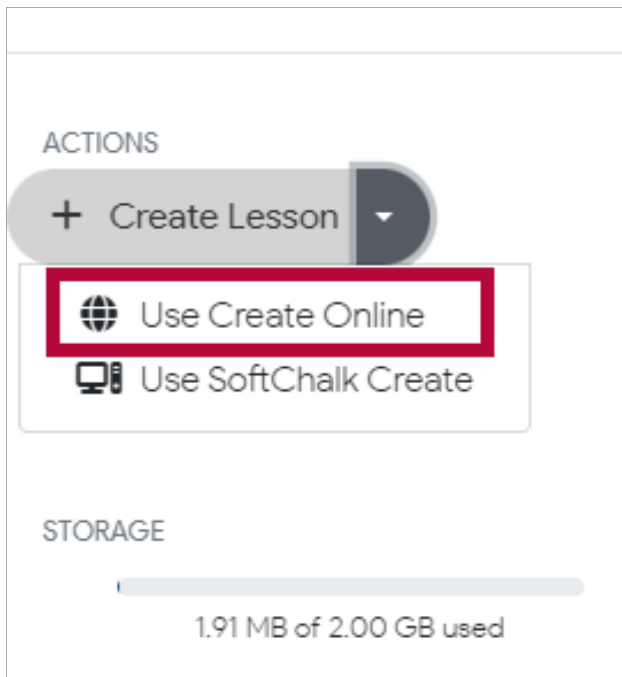

- When the installation is completed, the window will close. You may see the **[SoftChalk Create]** shortcut now located at where you installed the program, opening the shortcut will show the window in the screenshot below.

**NOTE:** You do **NOT** want to log into SoftChalk Cloud through this window, as **your LSCS Username and Password will not work here.**

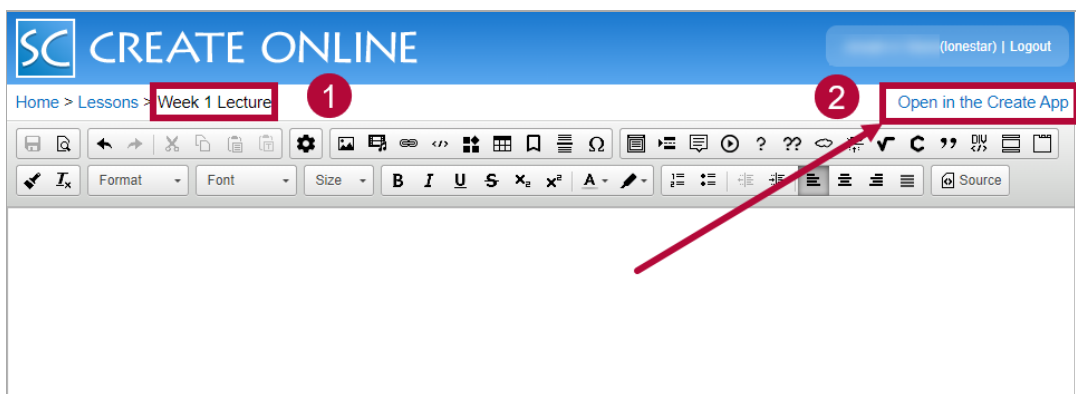

If you see the following, please close the window and head back to your **LSC SoftChalk** site through a web browser.

- Back on the **Lessons** page, select **[Create Lesson]** → **[Use Create Online]**.

8. On the **Create Lesson** page, **name your lesson**, then click on **[Open in the Create App]**.

9. The **SoftChalk Create App** that was installed should now launch correctly. You can either view the **[Quick Video Tutorial: Getting Started]** video, or close the popup.

You are ready to create lessons using the **SoftChalk Create App**.
