

# Add Pearson (LTI 1.3) MyLab and Mastering, or Revel to Your D2L Course

Last Modified on 01/22/2026 10:47 am CST

These instructions include tutorial videos from Pearson. It is *highly recommended* that you read the steps and watch the videos before performing them.

**Online Services** does not have access to your **Pearson** account. For integration issues or questions, please contact your **Pearson representative**.

**Jan. 2026 Office Hours to schedule an appointment** for Instructor Assistance:

- **Link:** [Schedule Time for Course Setup](https://outlook.office365.com/book/PearsonCustomerSuccess@pearsoneducationinc.onmicrosoft.comsaljsauthenabled=true)  
(<https://outlook.office365.com/book/PearsonCustomerSuccess@pearsoneducationinc.onmicrosoft.comsaljsauthenabled=true>)
- **Watch the Star Bundle (VitalSource) & Pearson Open Lab**  
(<https://vimeo.com/1154387603/760a665ea7>)

**ALERT** It is required for all Faculty to add a **Pearson 1.3 LTI** link to a **Content** module, as this link is **required** for students who **Opt Out** of the **STAR Bundle** to access Pearson. [Click here](#) to view the instructions for adding a **Pearson 1.3 LTI** link.

## Accessing Pearson from Course Materials in D2L

1. In your D2L course, select **[Course Materials]** from the Navbar. The **Course Materials Dashboard** will open in a new browser tab.

2. In the **Course Materials Dashboard**, click **[My Courses]** to display the Course Materials. Identify the **Pearson eText** associated with your course—the eBook will be listed under the course materials for the current term. Click the **[Open]** button next to the **eText** associated with your course to launch the tool.

**NOTE:** The **Course Materials Dashboard** displays all the materials for the current term. Please make sure you are choosing the course materials for the correct course before clicking the **[Open]** button.

**NOTE:** If prompted, sign in with your Pearson credentials to complete the access process.

## Pairing Pearson LTI 1.3 to a D2L Course

1. The first time you follow the above steps, you will need to pair your Pearson integration with D2L. You will be taken to a screen where you will be given two options for pairing:
  - Create a copy of a course:** Copy an existing course, such as a course from a previous semester, or a Pearson coordinator course (the Pearson equivalent of a D2L Sandbox).
  - Pair an existing course:** For example, it is possible to select a course from a previous semester.

**NOTE: It is not possible to create a course on Pearson's portal**

**first, then linking it to your D2L course from Pearson's portal.** Instead, you can copy content from an existing Pearson course during this step of the process, and a new course will be automatically created at Pearson's portal.

Pair a MyLab or Mastering and LMS course

Pair the course materials provided to you.

**NOTE:**

- Grade items that are sent from Pearson to D2L are **NOT** put in categories, and will need to be manually moved to its proper category.
- When syncing grades, you will need to navigate to Pearson through **[Course Materials]**.
- Once you have accessed Pearson through **[Course Materials]**, the first step for a faculty to set up the gradebook is to click **[Sync Grades Now]**.
- The second step is to click **[Automatic Grade Sync]** link to make sure it syncs student grades automatically.
- For additional questions, please contact your Pearson representative.

## Adding the Pearson 1.3 link to a D2L Course

**ALERT** The following steps are **required** for all courses, as this link is required for

students who **Opt Out** of the **STAR Bundle** to access Pearson.

1. From your D2L course, go to **Content** and select the module where you want to insert the Pearson integration.
  - For example, add a module and give it a name such as "Pearson Link for students opting out of Star Bundle").
2. In your new module, click **[Add Existing Activities]**, then select **[Third-party Integrations]**.

The screenshot shows the 'Table of Contents' section of a D2L course. On the left, there's a sidebar with 'Import Course' and 'CDX' sections. The main area shows a list of activities: 'Pearson 1.3 Deep Link', 'Quizzes', 'SoftChalk Link Selector', 'Surveys', and 'Third-party Integrations'. The 'Third-party Integrations' option is highlighted with a red box. At the bottom, there are 'New' and 'Add Existing Activities' buttons, and a note to 'Drag and drop files here to create and update topics'.

3. Click the **Pearson LTI 1.3** link.

The screenshot shows the 'Add Activity' dialog box. It lists several options: 'McGraw-Hill Connect Launch', 'McGraw-Hill SIMnet', and 'Pearson LTI 1.3'. The 'Pearson LTI 1.3' option is highlighted with a red box. To the right, there's a note 'Pearson 1.3'.
