

# Add Pearson (LTI 1.3) MyLab and Mastering, or Revel to Your D2L Course

Last Modified on 06/06/2024 11:00 am CDT

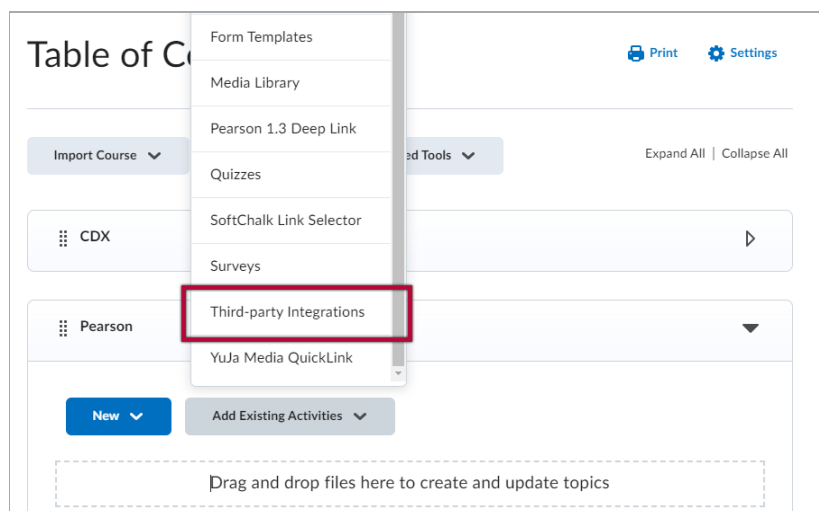

**NOTE:** These instructions include tutorial videos from Pearson. It is *highly recommended* that you read the steps and watch the videos before performing them. LSC-Online does not have access to your Pearson account. For integration issues, please contact your Pearson representative.

**ALERT:** You **MUST** use the following steps to add **Pearson MyLab and Mastering** or **Pearson Revel** to your D2L course, and **have students access Pearson via the D2L link**, in order to correctly integrate your D2L course with Pearson.

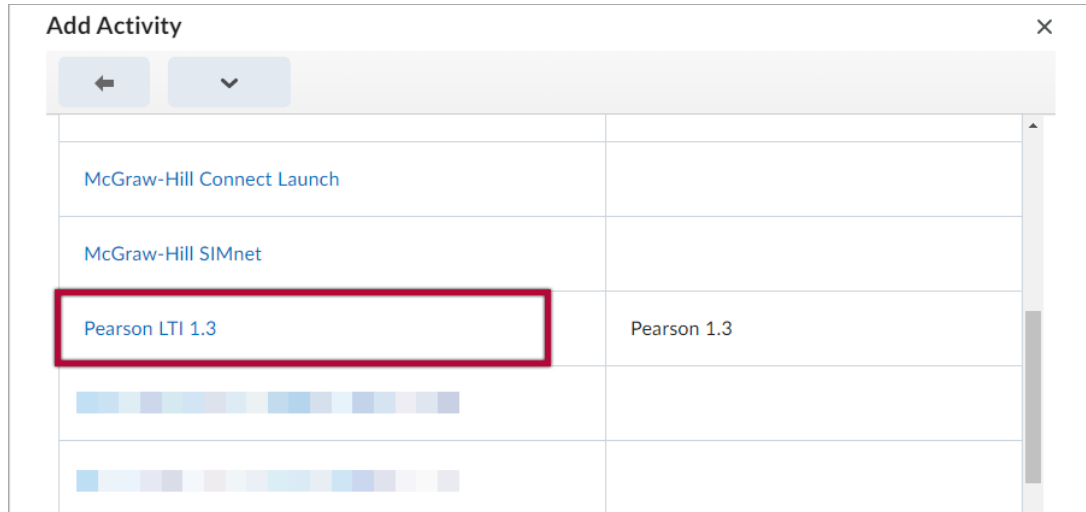

If you create your course on the Pearson website separately, and students access the course directly through Pearson *without* going through D2L, then the Pearson course **cannot** be integrated with D2L afterwards.

## Adding Pearson 1.3 MyLab and Mastering or Pearson Revel to a D2L Course

1. Make sure that you are not logged into **Pearson MyLab/Pearson Revel**.
  - If you opened **Pearson MyLab/Revel** previously, please restart your browser to be sure you are not still logged in. You may have to clear your browser cache if you are still logged in after a browser restart.
2. Open your course in D2L.
3. Go to **Content** and select the module where you want to insert the Pearson integration.
  - For example, add a module and give it a name such as "MyLab Links" or "Revel Links").
4. In your new module, click **[Add Existing Activities]**, then select **[Third-party Integrations]**.

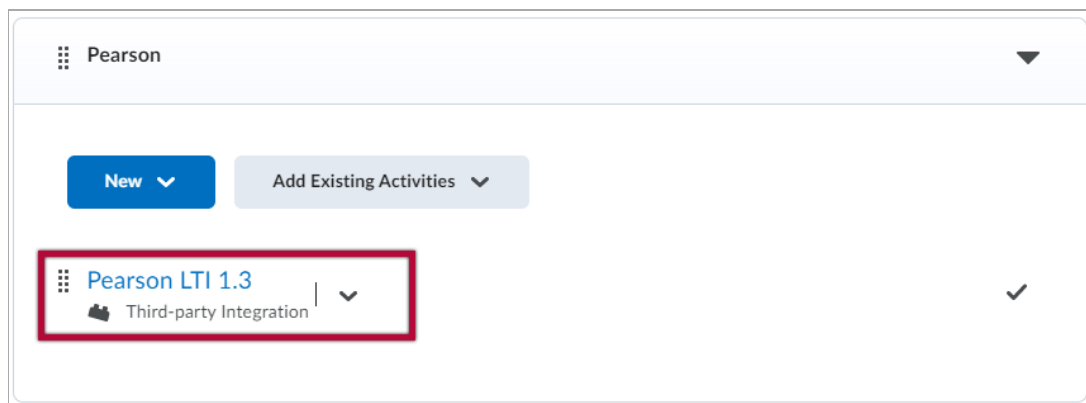

5. Click the **Pearson LTI 1.3** link.

## Pairing Pearson LTI 1.3 to a D2L Course

1. Click the **Pearson LTI 1.3** link that you added in the steps above.

2. Choose one of the following two options, depending on what you're trying to add:
  - Click on the **[Pearson MyLab | Mastering]** tile if you are using **Pearson MyLab and Mastering**. Proceed to **step 3** below.

- Click on the **[Pearson Revel | eText | Live Response]** tile if you are using **Pearson Revel**. Sign-in with your Pearson account if prompted.

**NOTE:** If you are using **Pearson Revel**, please continue by following the instructions on **Add the Revel and eText or Pearson Link** ([https://help.pearsoncmg.com/integration/ng/instructor/en-us/content/1\\_add\\_pearson\\_link.htm](https://help.pearsoncmg.com/integration/ng/instructor/en-us/content/1_add_pearson_link.htm)). ([https://help.pearsoncmg.com/integration/ng/instructor/en-us/content/1\\_add\\_pearson\\_link.htm](https://help.pearsoncmg.com/integration/ng/instructor/en-us/content/1_add_pearson_link.htm)) You will need to select the option for **[Brightspace]** on that page.

### Add the Revel and eText or Pearson link

Updated 05 Dec 2022

Add the Revel and eText or Pearson link if you don't see it in your course. [Need help identifying your integration?](#)

- > Blackboard
- > **Brightspace**
- > Canvas
- > Moodle
- > Sakai
- > Schoology

3. Your course is now linked with Pearson. Click the **[Get Started]** button.

4. There are two options available to create a course in Pearson:

- a) **Choose from catalog:** Select your book from the catalog and use it to build your course.
- b) **Copy an existing course from Pearson:** For example, it is possible to select a course from a previous semester.

**NOTE:** It is not possible to create a course on Pearson's portal first, *then* linking it to your D2L course from Pearson's portal. Instead, you can copy content from an existing Pearson course during this step of the process, and a new course will be automatically created at Pearson's portal.

## Create a Course

**Choose from catalog**

Select discipline      Enter author, title, ISBN, or keyword

All disciplines ▾           

**Copy an existing course**

Enter a course ID (example: name12345)

    

New courses may take up to 3 hours to create. You'll receive an email confirmation when the course is ready.

5. Fill out the form for your course and click **Create Course**.

< Create a Course

## Enter Course Details

Course ID: admin47451

Course Type: Student Course

Course Dates: Oct 20 - Dec 30, 2022

Course Materials: **A Graphical Approach to College Algebra 7th Edition**  
 Hornsby, John | Lial, Margaret | Rockswold, Gary  
 TextBook ISBN-13: 9780134696522

6. Close your browser tab or window. You will receive an email when your course is ready.

Pearson

You're done!

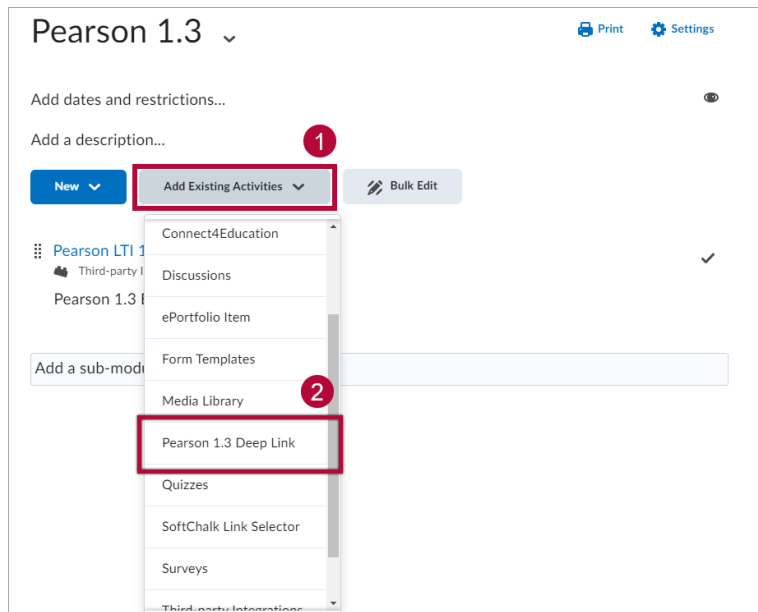

New courses may take up to 3 hours to create. You'll receive an email confirmation when the course is ready.  
 Close the tab to return to Brightspace.

Course ID: Available when course is ready  
 Course Type: Student Course  
 Course Dates: Oct 24, 2022 – Jan 31, 2023  
 Reference Number: 287175

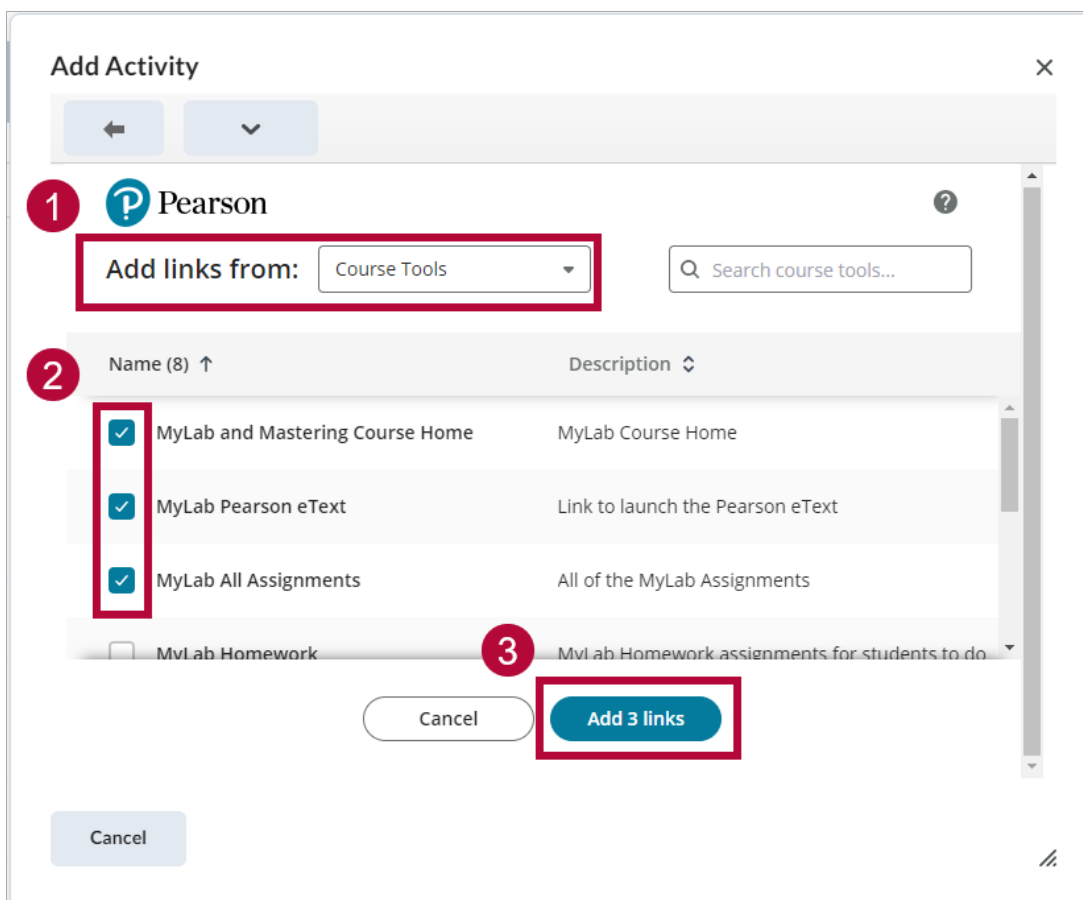

**NOTE:** Adding direct links to Pearson assignments in your D2L course content is optional. Students can still access Pearson activities through the **MyLab and Mastering Course** link.

## Adding Pearson 1.3 MyLab and Mastering Course Tools to Content

1. From within the D2L module, click on **[Add Existing Activities]** → **[Pearson 1.3 Deep Link]**.

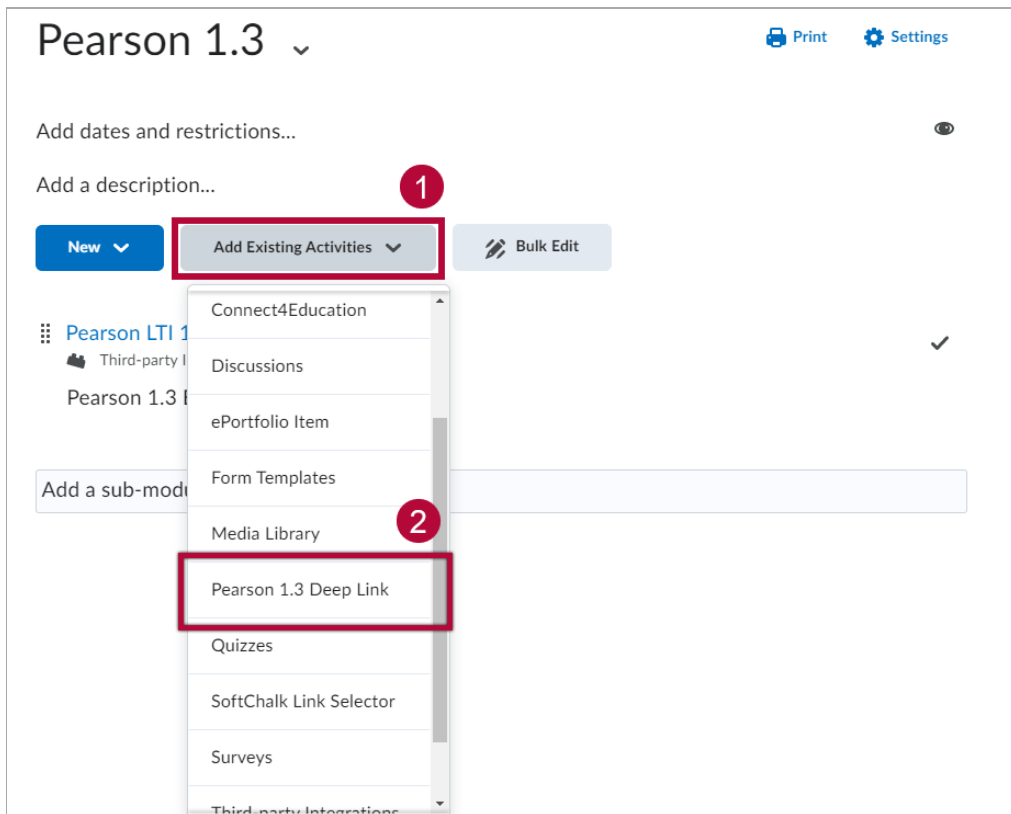

2. In the **Add links from** drop-down menu, select **[Course Tools]**. Check the boxes for the content you wish to add to your course, then click the **[Add links]** button at the bottom of the page.

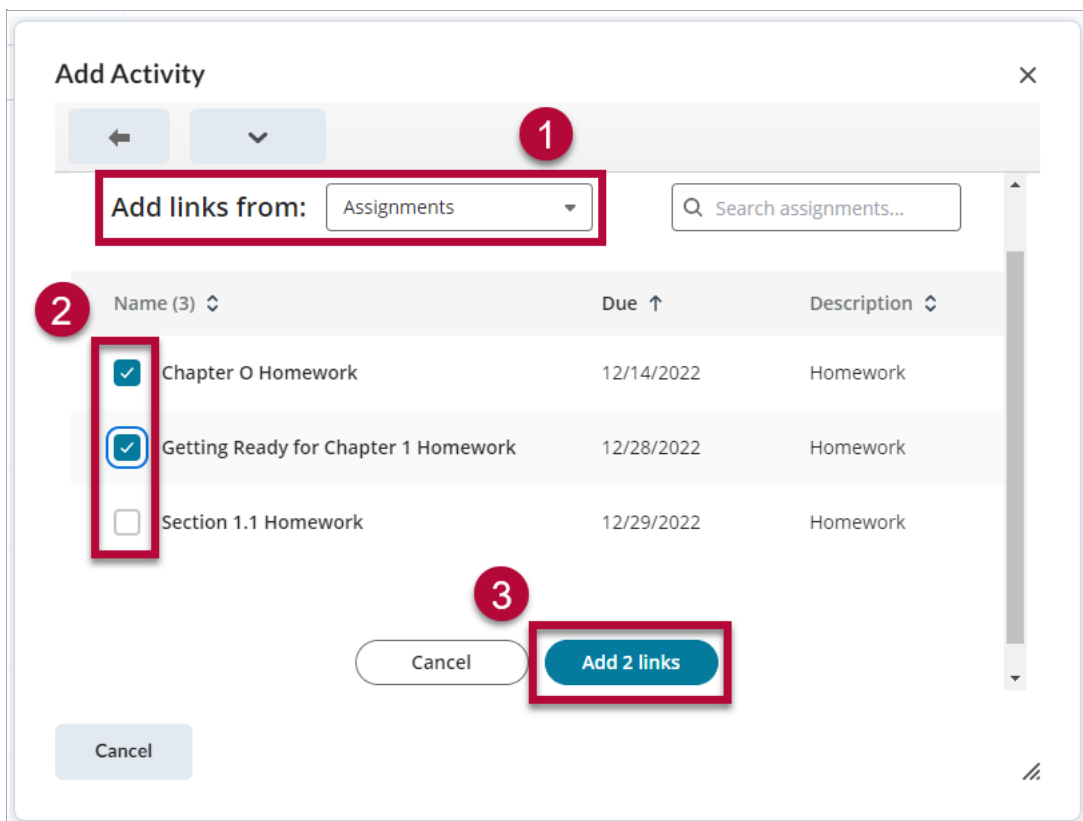

## Adding Pearson 1.3 Assignments to Your Course Content

1. From within the D2L module, click on **[Add Existing Activities]** -> **[Pearson 1.3 Deep Link]**.

2. In the **Add links from** drop-down menu, select **[Assignments]**. Check the boxes for the content you wish to add to your course, then click the **[Add links]** button at the bottom of the page.

**NOTE:**

- Grade items that are sent from Pearson to D2L are **NOT** put in categories, and will need to be manually moved to its proper category.
- The first step for a faculty to set up the gradebook is to click **[Sync Grades Now]**
- The second step is to click **[Automatic Grade Sync]** link to make sure it syncs student grades automatically.

For additional questions, please contact your Pearson representative.
