5. On the following page, you'll be presented with the following options:

- A. **[Create a new course]**
- B. **[Copy from an Existing Course]** – Allows you to copy a course from a course that you previously built.
- C. **[Copy another instructor's course with a course key]** – Select this if your department has a master course to copy from. This requires a **Course Key** from the master course creator.
- D. **[Link to a course that was already created]** – Links the D2L course to an already existing Cengage course. For example, if you have already made a copy of your Fall course in the Cengage website to use in Spring, then you can link the D2L course to the newly created Spring course in Cengage. **It is important to note that you cannot link to an existing Cengage course if the Cengage course already has students in the course.**

Click **[Continue]** to complete this step.

NOTE: The last three choices here (B, C, D) can only be selected **if there are no students in the Cengage course yet.** If there are students, select **[Create a new course from scratch]**.

The screenshot shows the 'Add Activity' dialog box with the Cengage logo and a progress bar indicating the steps: Select Title (completed), License Type (completed), Course Option (current step), and Course Details. Below the progress bar, a book cover for 'Advertising and Integrated Brand Promotion' is displayed. The question 'How do you want to integrate with Cengage?' is followed by four radio button options labeled A, B, C, and D. Option A is 'Create a new course from scratch', B is 'Copy an existing course', C is 'Copy another instructor's course with a course key', and D is 'Link to a course that was already created'. At the bottom, there are 'BACK' and 'CONTINUE' buttons, with 'CONTINUE' highlighted by a red box. A 'Cancel' button is also present at the bottom left.
