

Add McGraw-Hill Connect to Your D2L Course

Last Modified on 06/23/2022 1:33 pm CDT

NOTE:

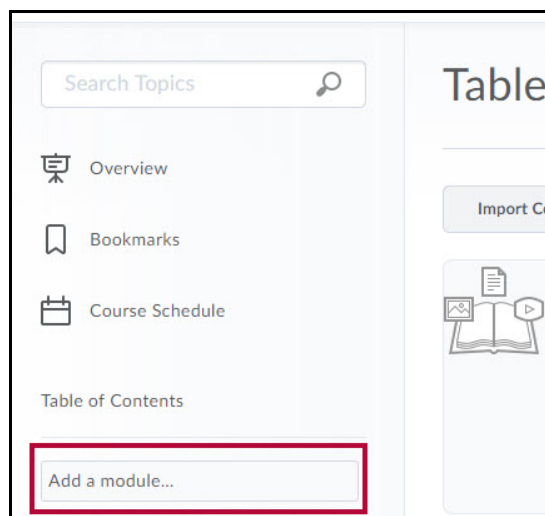

- This article assumes that your course has already been built in McGraw-Hill Connect.
- These instructions include tutorial videos from McGraw-Hill. It is *highly recommended* that you read the steps and watch the videos before performing them.
- LSC-Online does not have access to your McGraw-Hill account. For integration issues, please contact your McGraw-Hill representative.

Adding the McGraw-Hill Connect Launch (Deep-Link) Integration

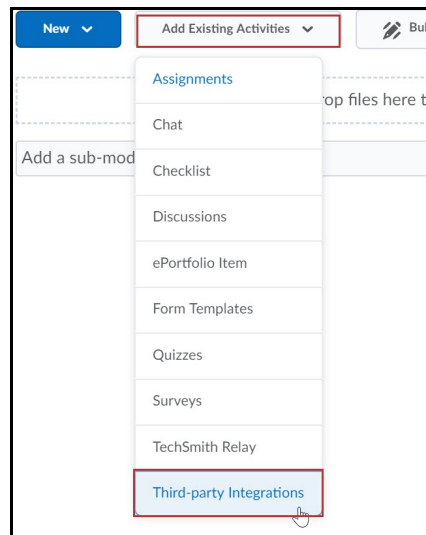

Adding McGraw-Hill Connect Launch Integration to Your D2L Course

McGraw-Hill Connect Launch now allows for deep-linking of content into your course. You cannot, in this case, choose the "Open as external link" option or the deep-link will not work.

1. Open your course in D2L.
2. Go to Content and select the module where you want to insert the McGraw-Hill Connect Launch integration (for example, add a module and give it a name such as "McGraw-Hill").

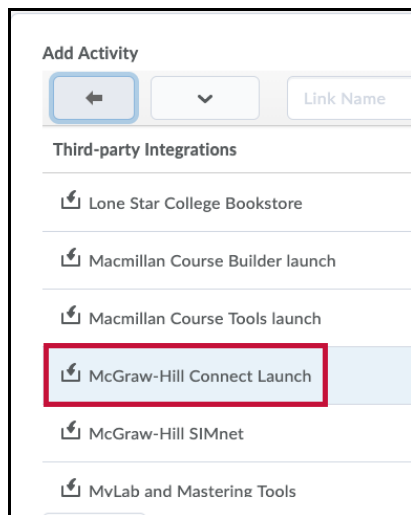

3. In your module, click the **Add Existing Activities** button, and select **Third-party**

Integrations.

4. Select **McGraw-Hill Connect Launch**.

5. Watch the video below to pair Connect to your course and deploy links to D2L.

Re-link a Copied Connect Course with D2L

If you used Connect in a previous course and copied the course in D2L, watch the video below to re-pair and re-link your Connect links.

Additional Support for McGraw-Hill Connect:

- [Connect Instructor Support](https://www.mheducation.com/highered/support/connect.html) (https://www.mheducation.com/highered/support/connect.html)
- [Instructor Resources](https://mhedu.force.com/CXG/s/InstructorResources?dc=Instructor_Resources) (https://mhedu.force.com/CXG/s/InstructorResources?dc=Instructor_Resources)

Adding the Legacy McGraw-Hill Connect Content to Your D2L Course

Getting Your Course Set Up

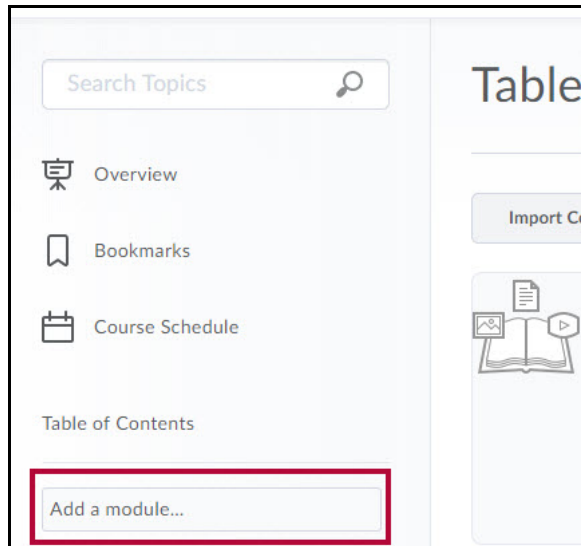

1. Send an email to VTAC@lonestar.edu.
 - Include a list of the courses, complete with section numbers and terms, in which you wish to use McGraw-Hill Connect. Specify that you want the legacy McGraw-Hill Connect integration.

The legacy integration (McGraw-Hill Campus Gateway Connect) provides a link in your course that will take your students into the course you have built in Connect, and they can navigate through the course there.

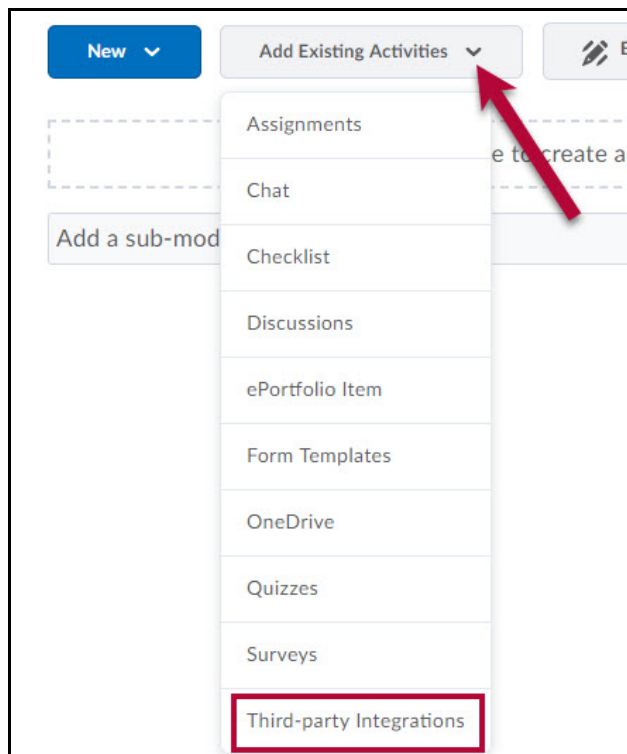

Adding McGraw-Hill Content to Your D2L Course

1. Open your course in D2L.
2. Go to Content and select the module where you want to insert the McGraw-Hill Connect legacy integration (for example, add a module and give it a name (e.g., "McGraw-Hill

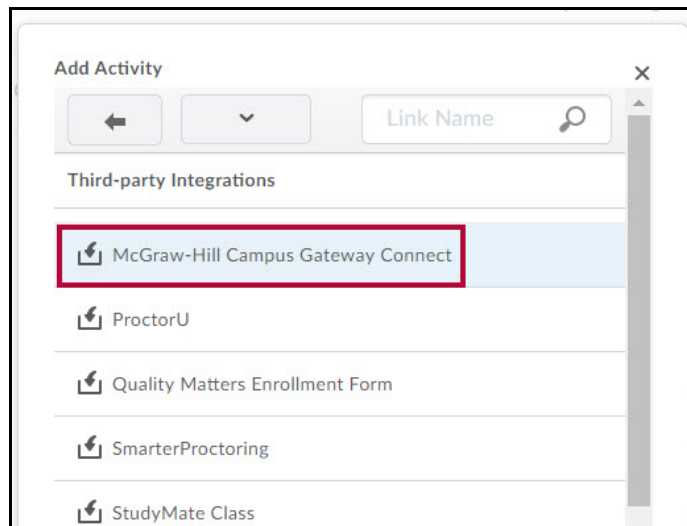

Connect").

3. In your new module, click the **Add Existing Activities** button, and select **Third-party Integrations**.

4. Click the **McGraw-Hill Campus Gateway Connect** link that appears.

5. You will now see "McGraw-Hill Campus Gateway Connect" has been added as a Third-party Integration under your Table of Contents. Choose that option to add it to your course. **Make sure that it is set to open as an external resource.**
