SoftChalk Cloud is a program that allows faculty to easily create professional-looking, interactive lessons to upload into their online classes. SoftChalk Cloud content resides online in a SoftChalk Cloud account rather than being uploaded into the Learning Management System (LMS). If you decide to host your content in SoftChalk Cloud rather than in the LMS, it is highly recommended that you also keep a local copy using SoftChalk Create.

To download, access the license, or read more information, see [SoftChalk Lessonbuilder](https://vtac.lonestar.edu/help/a199) (<https://vtac.lonestar.edu/help/a199>). [Requires login using your Lone Star College credentials.]
