

Add SmarterMeasure Assessment for EDUC 1300

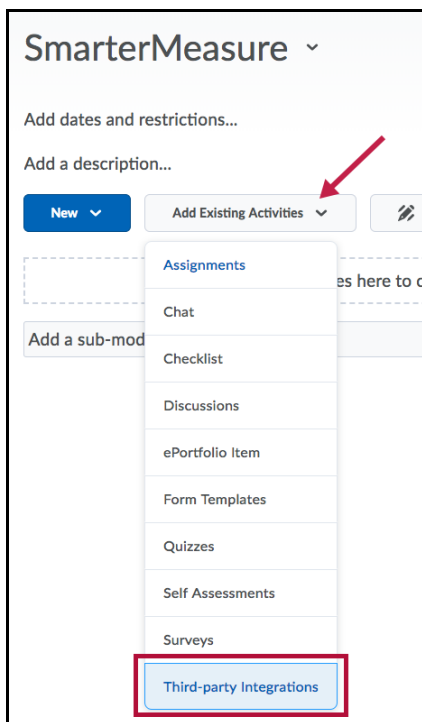

Last Modified on 02/04/2021 2:36 pm CST

To add the SmarterMeasure assessment to your EDUC-1300 course, follow the steps below:

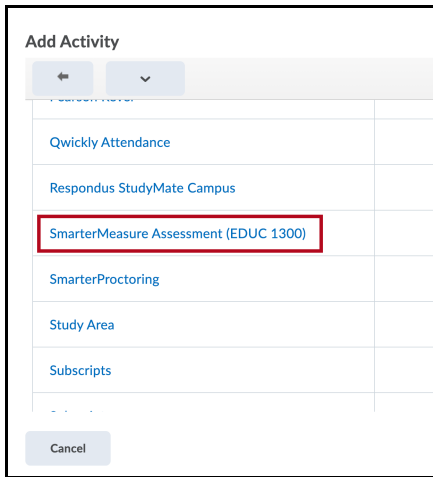

1. Click **Content** on the navbar, then click on the appropriate module in the Table of Contents on the left side of the screen.

2. While in the module, click the **Add Existing Activities** button, then select **Third-party Integrations**.

3. Select **SmarterMeasure Assessment (EDUC 1300)**.

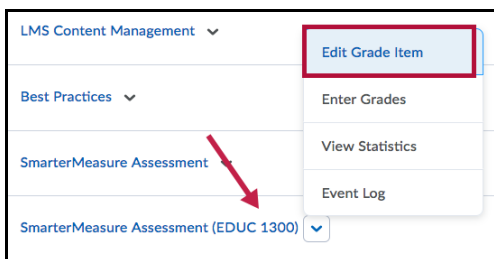

NOTE: You will need to add the third-party integration for each new class; it will not copy correctly from another course.

Once students begin taking the assessment, an associated Grade Item will be created in the gradebook. Since SmarterMeasure is graded as a percent of completion, it comes over from SmarterMeasure as a grade item with 100 max points. This needs to be changed to 50 max points in EDUC-1300 courses. You can do this using the following steps:

1. Click **Grades** on the navbar, then click the **Manage Grades** tab.

2. Scroll down to the **SmarterMeasure (EDUC 1300)** grade item. Click the arrow next to the name of the grade item and choose **Edit Grade Item**.

3. Under the **Grading** heading, change the **Maximum Points** to 50.
