

Create a YuJa Video Quiz

Last Modified on 09/07/2023 10:00 am CDT

You can add quizzes throughout your YuJa video to encourage student engagement and assess student understanding.

NOTE: When properly importing a **YuJa Video Quiz** or **Playback Quiz** into your D2L course, it will automatically generate a grade item in your D2L gradebook. The default point value for YuJa grade items is **100 points**. If you prefer to change this, please remember to do so **BEFORE** your students begin taking the Video Quiz or Playback Quiz. Changing the point value for the grade item **AFTER** grades have already appeared for it in the D2L gradebook will alter the grades already received. However, there is a way to correct this if you **manually** re-sync the grades from the YuJa gradebook to D2L by following the steps [in this article](https://support.yuja.com/hc/en-us/articles/1500007406362-On-Demand-LMS-Gradebook-Sync) (<https://support.yuja.com/hc/en-us/articles/1500007406362-On-Demand-LMS-Gradebook-Sync>).
