

SoftChalk Cloud and How to Add it to Your Course

Last Modified on 03/28/2026 5:23 pm CDT

SoftChalk Cloud is a program that allows faculty to easily create professional-looking, interactive lessons to upload into their online classes. SoftChalk Cloud content resides online in a **SoftChalk Cloud** account rather than being uploaded into D2L. If you decide to host your content in **SoftChalk Cloud** rather than in D2L, it is highly recommended that you also keep a local copy using **SoftChalk Create** (<https://vtac.lonestar.edu/help/getting-started-with-softchalk#install-and-access-softchalk-create-desktop-version->). Please refer to [Getting Started with SoftChalk](https://vtac.lonestar.edu/help/getting-started-with-softchalk) (<https://vtac.lonestar.edu/help/getting-started-with-softchalk>) on how to install and access **SoftChalk Create (SoftChalk Desktop App)**.

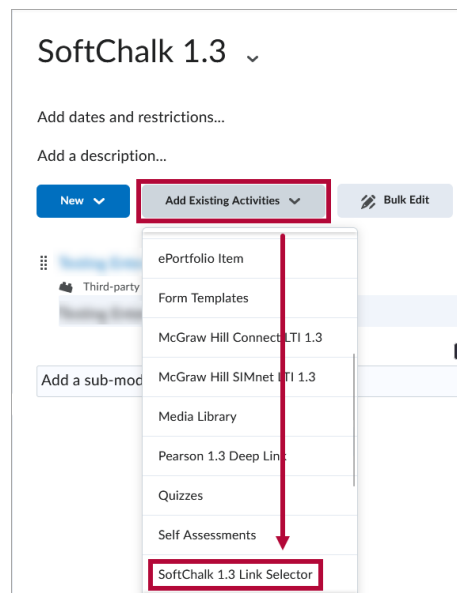

NOTE: The previous <https://softchalkcloud.com/login> link will no longer work, as all **SoftChalk** content is now under the new domain at <https://lonestar.softchalkcloud.com> (<https://lonestar.softchalkcloud.com>). If you intend to log into **SoftChalk** directly, please use the new link.

ALERT: If you or your students are experiencing issues accessing **SoftChalk** through **SoftChalk 1.3** links, please follow these browser troubleshooting instructions provided by **SoftChalk**: [When I click on a lesson link that should connect to the SoftChalk ScoreCenter, my lesson is not connecting? What should I do?](https://softchalk.atlassian.net/wiki/spaces/SKB/pages/156664316/When-I-click-on-a-lesson-link-that-should-connect-to-the-SoftChalk-ScoreCenter-my-lesson-is-not-connecting-What-should-I-do?showComments=true&showCommentArea=true) (<https://softchalk.atlassian.net/wiki/spaces/SKB/pages/156664316/When-I-click-on-a-lesson-link-that-should-connect-to-the-SoftChalk-ScoreCenter-my-lesson-is-not-connecting-What-should-I-do?showComments=true&showCommentArea=true>)

Adding a SoftChalk Lesson to Your D2L Course

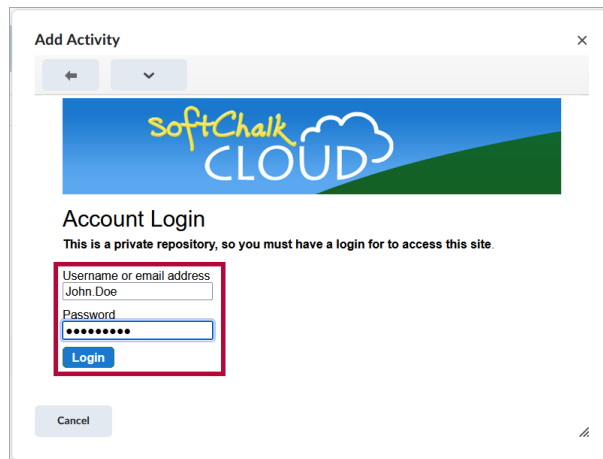

Once you have created your **SoftChalk Cloud** lesson and added it to the **Score Center** if desired, you will need to add the lesson to your content in D2L.

1. Navigate to the content module in which you want to place your **SoftChalk Lesson**.
2. Click **[Add Existing Activities]** and choose **[SoftChalk 1.3 Link Selector]**.

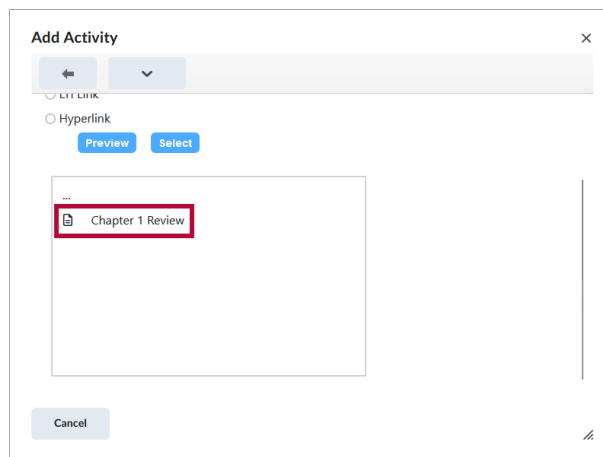

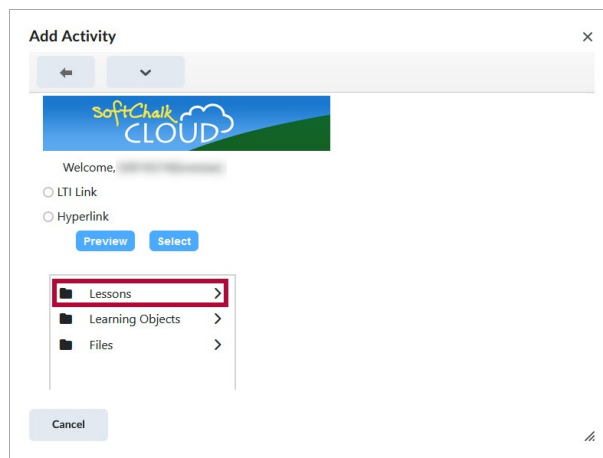

3. Your **SoftChalk Cloud** account will open inside the **[Add Existing Activities]** window. The first time accessing the new **SoftChalk Cloud** account through the integration you will be required to enter your credentials. *If you are already logged into SoftChalk Cloud outside of D2L, you will need to log out before logging into SoftChalk Cloud through your D2L course.*

NOTE: Your username to login is the same as your Employee Email address, excluding [@lonestar.edu](mailto:lonestar.edu). Your password is your **myLoneStar** password. For example, if your Employee Email address was *John.Doe@lonestar.edu*, your **SoftChalk** username would be *"John.Doe"*.

4. Navigate to the lesson you want to insert and click on it.

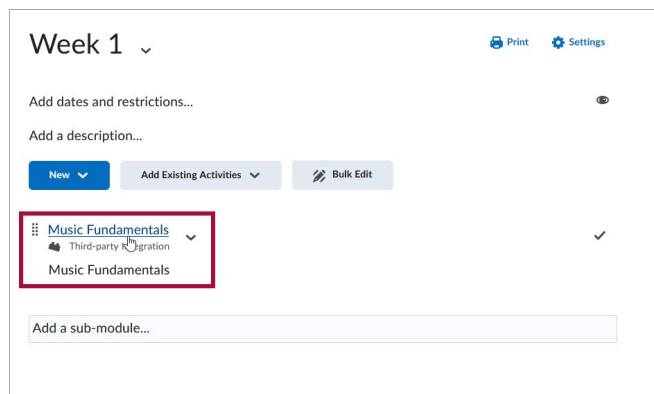

5. If you are adding a **scored lesson**, select **[LTI Link]** then click **[Select]**.
 If you are adding a **non-scored lesson**, select **[Hyperlink]** then click **[Select]**.

NOTE: For scores from the **SoftChalk** lesson to be imported to the D2L gradebook, you must set up the **SoftChalk** lesson in **Score Center**. Grade items for **SoftChalk Score Center** lessons will not be created until the first time a student completes the lesson assessment.

6. Your **SoftChalk Cloud Lesson** is now added to your **D2L Content Module**.

Updating Existing SoftChalk Links for 1.3

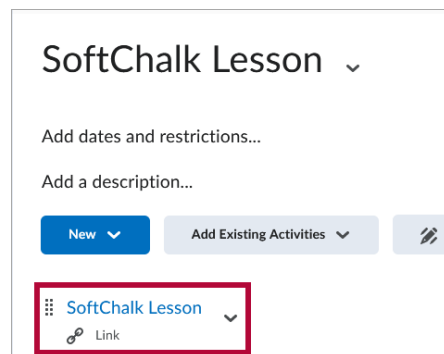

LSC has moved **SoftChalk Cloud** to a **new enterprise environment with unlimited licenses**, which utilizes **Single Sign-On** for easier login. This means all faculty **SoftChalk** accounts and all existing **SoftChalk** content has been migrated to this new environment, as of December 19th.

For any **SoftChalk** links made prior to December 19th, 2023, you need to go through the process of updating your **SoftChalk** links in D2L courses to reflect the URL for the new environment. Instructions for this process are below.

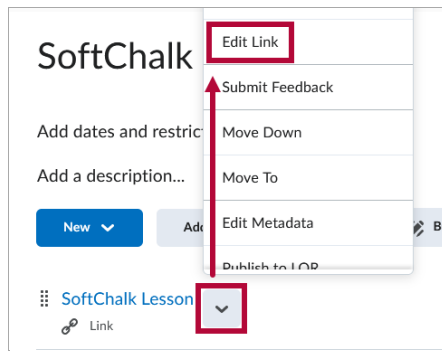

Updating Hyperlinks

All **SoftChalk Cloud** hyperlinks will need to have their links edited to match the new URL for the new enterprise environment.

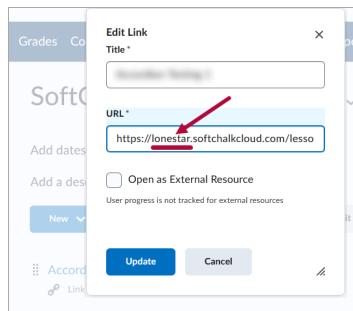

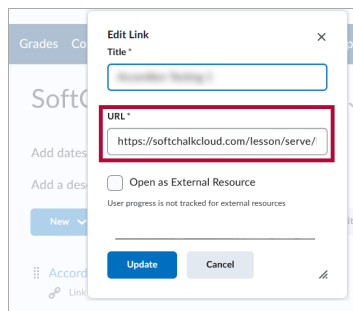

1. Find your **SoftChalk Cloud Hyperlink** in the **Content** of your course.

2. Click the **[dropdown arrow]** next to the **SoftChalk Cloud** hyperlink then select **[Edit Link]**.

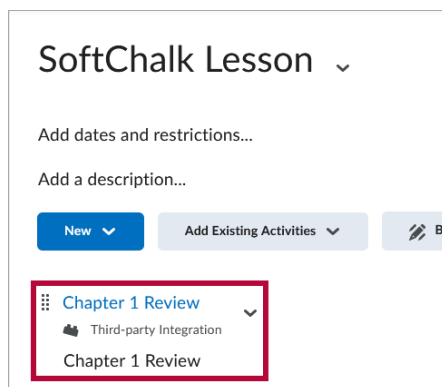

3. In the **URL** field, the URL for your lesson should start with "**https://softchalkcloud.com...**" — edit it to read "**https://lonestar.softchalkcloud.com...**" instead. No other changes to the URL need to be made.

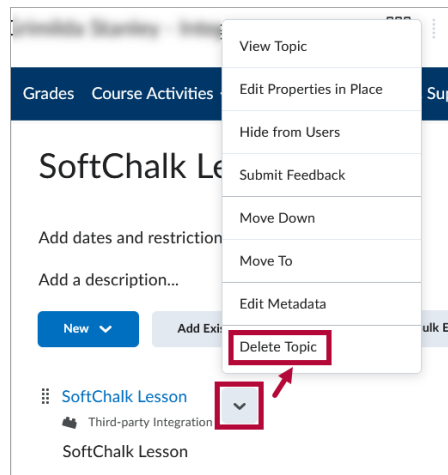

Updating LTI Links

All **SoftChalk Cloud** LTI links, and any associated **Grade Items**, will need to be deleted and re-added using the new integration link.

1. Find your **SoftChalk Cloud LTI link** in the **Content** of your course.

2. Click the **[dropdown arrow]** then select **[Delete Topic]**.

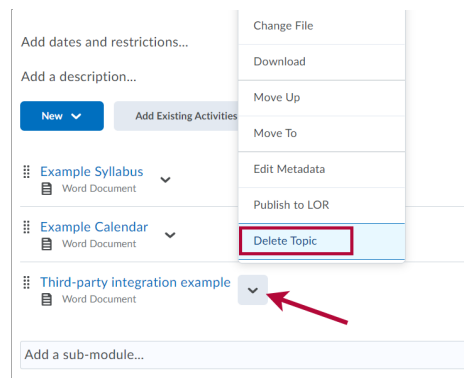

3. After deleting the LTI link from **Content**, delete the **Grade Item** associated with that content link, if there is one. For instructions on deleting a **Grade Item**, see [Delete a Grade Item \(https://vtac.lonestar.edu/help/delete-a-grade-column\)](https://vtac.lonestar.edu/help/delete-a-grade-column).
4. Once the LTI link and its associated **Grade Item** have been deleted, follow the steps above to add the **SoftChalk Lesson** to **Content** again using the new version of the LTI link.

Updating SoftChalk LTI Links Copied From a Community Group

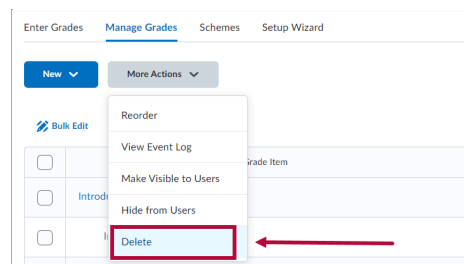

To update **SoftChalk** LTI links (SoftChalk lessons linked to the D2L gradebook) that were copied from a **Community Group**, first contact the **Community Group** manager to confirm that the **SoftChalk** LTI links in the **Community Group** are updated. You can find the group manager through **[Collaboration]** then **[Classlist]**. To update the **SoftChalk** links, the group manager should follow the instructions in [Add a SoftChalk Cloud Lesson to Your D2L Course \(https://vtac.lonestar.edu/help/add-softchalk-to-d2l-content\)](https://vtac.lonestar.edu/help/add-softchalk-to-d2l-content).

When the **Community Group SoftChalk** LTI links are updated, follow these instructions:

1. Delete the old **SoftChalk** LTI links in **Content** (see [Delete a Module or Topic \(https://vtac.lonestar.edu/help/a0719\)](https://vtac.lonestar.edu/help/a0719)).

2. Delete the related **SoftChalk** LTI grade items on the **Manage Grades** page (see [Delete a Grade Column \(https://vtac.lonestar.edu/help/delete-a-grade-column\)](https://vtac.lonestar.edu/help/delete-a-grade-column)).

3. Copy the selected components listed below (see [Copy Course Components Advanced \(https://vtac.lonestar.edu/help/copy-course-components-advanced\)](https://vtac.lonestar.edu/help/copy-course-components-advanced)). Select the desired **Third-party Integration Links**, **Content Topics**, and **Grade Items**.

Select All Components

Content (393 item(s))

Copy all items

Select individual items to copy

Include associated files
