

Quiz Statistics - Insights Portal

Last Modified on 05/14/2024 11:56 am CDT

The Faculty Assessment Quality dashboard provides a visualization to help faculty understand the quality of assessments using quiz and question statistics for quiz and question types, such as:

- Reliability
- Average grade
- Discrimination index
- Point biserial

All quizzes and questions that have had at least one quiz attempt in the last 12 months appear on the top level of the visualization. Only each student's first attempt is included in the dashboard, as subsequent attempts bias the metrics by which quiz and question quality are measured.

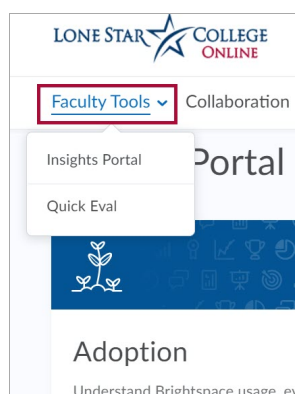

For a deeper look and a definition of statistical terms, such as Reliability Coefficient, Correlation, Discrimination Index, Top Lure, etc. visit [Using the Assessment Quality Dashboard](https://documentation.brightspace.com/EN/insights/-/admin/d2l_insights_using_assessment_dashboard.htm?toppath=Administrators%7CBrightspace%20Performance%20Plus%20Analytics%7CBrightspace%20Insights%7CUsing%20Brightspace%20Insights%20Dashboards%7CUsin)

Access Insights Portal

There are two different paths to the Insights Portal:

1. From the D2L homepage, click **[Faculty Tools]** → **[Insights Portal]**.

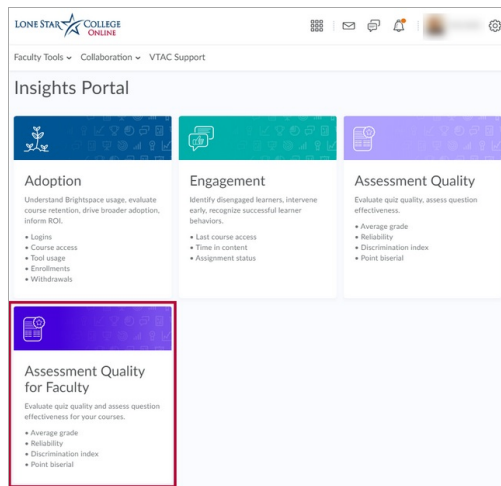

2. From within a course, click **[Course Management]** → **[Course Admin]** → **[Insights Portal]**.

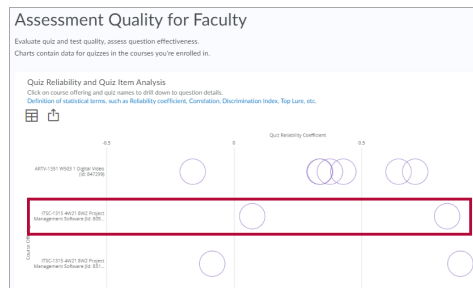

Assessment Quality for Faculty

1. To evaluate quiz quality and assess question effectiveness for your courses, click on **[Assessment Quality for Faculty]**.

2. Then click on a course to view quizzes and the following quiz statistics:

- Average grade
- Reliability
- Discrimination index
- Point Biserial

3. Click on a quiz to see the questions.

Quiz	Average Score	No. of Learners	No. of Questions	Reliability Coefficient
Syllabus Quiz (Id: 1277131)	89.4%	17	5	0.07
Final Exam (Id: 1277130)	89.3%	9	50	0.83
Contact Info & More (Id: 1277132)	100.0%	17	6	
Final Exam Essay Portion (Id: 1439027)	100.0%	7	10	

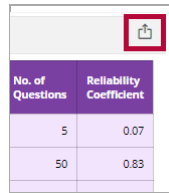

4. The question list shows **Average Score**, **Standard Deviation**, **Correlation**, and the **Discrimination Index** for each question.

Id	Question	Question Type	Question Pool	Average Score	No. of Learners	Std Dev	Correlation	Lower 27%	Upper 27%	Discrimination Index
14093427	During project charter creation there is typically a very general unde...	True or False	No	100.0%	9	0.00		100.0%	100.0%	
14093428	Fixed price contracts provide low risk for the seller, since the buyer...	True or False	No	100.0%	9	0.00		100.0%	100.0%	
14093429	The formality of a kick-off meeting can vary considerably depending on...	True or False	No	100.0%	9	0.00		100.0%	100.0%	

Exporting the Data

You can export the data as an **Excel file**, **Comma Separated Values file**, or a **PowerPoint file**.

- Click on the **Export Icon** in the upper right just above the chart.

The screenshot shows a table with two columns: 'No. of Questions' and 'Reliability Coefficient'. The table has three rows, including a header row. In the top right corner of the table area, there is a small square icon with a document symbol, which is highlighted by a red square box.

No. of Questions	Reliability Coefficient
5	0.07
50	0.83

- Click on the file type you want.
