Add Oxford University Press Content to Your D2L Course

> **Online Services** does not have access to your **Oxford University Press** account. For integration issues or questions, please contact Oxford University Press Support ohe-usa@hudsonsoft.com ().

Getting Your Course Set Up

1. Send an email to VTAC@lonestar.edu ().
2. Include a list of the courses, complete with section numbers and terms, in which you want to use Oxford University Press.

Adding Oxford University Press Content

Once the integration has been set up, you can contact your rep or support at ohe-usa@hudsonsoft.com () for information about how to add the content to your course.

You should receive an exported D2L course from OUP containing the specific content for their text. This is not the standard common cartridge they typically send, but an exported D2L course with only D2L content prepared specifically for LSC (the standard common cartridge (*.imscc file) sent by OUP causes errors).

Import the course pack received from OUP as usual from Import/Export/Copy Components (https://vtac.lonestar.edu/help/a118).
