Add YuJa Video To Content
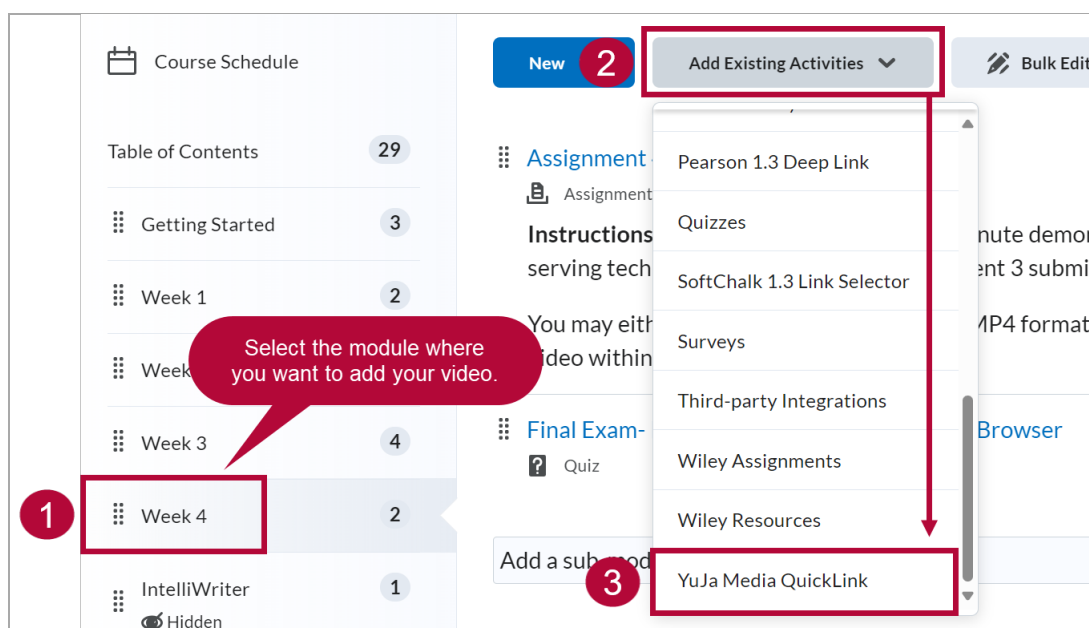

Show Video Walkthrough

> **NOTE:** When you are creating an announcement and need to embed a YuJa video, use the **Source Code (HTML Editor)** option, instead of the **[Insert stuff]** → **[Enter Embed Code]** route.

1. Select **[Content]** on the Course **Navbar**.

2. Select the module where you want to add your YuJa video. Then select **[Add Existing Activities]** followed by **[YuJa Media QuickLink]**.

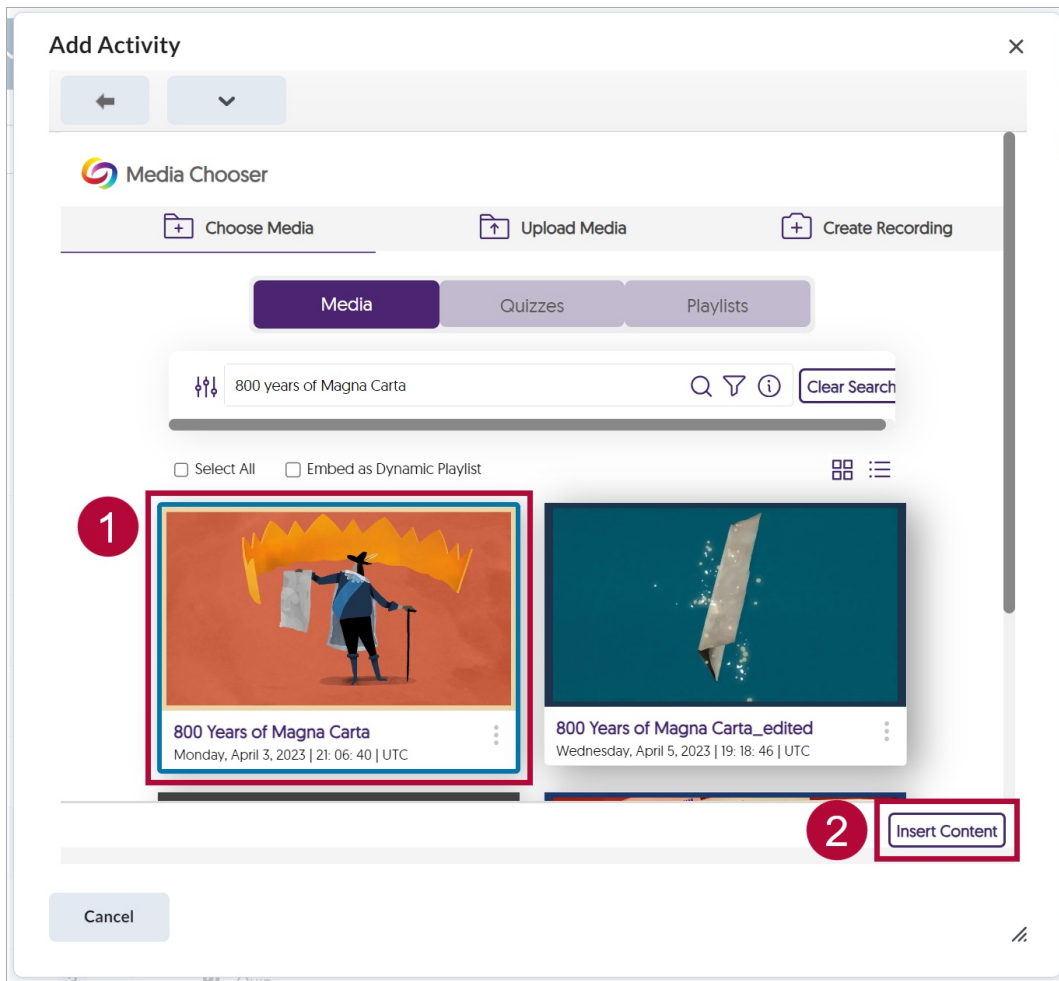

3. From the **Media** tab, search for the video you want to add by either scrolling or by using the **Search** field.

> **NOTE:** Click and drag the corner icon to expand the **Media Chooser** window.

4. Select the video(s) you wish to add to your module, then select **[Insert Content]**.
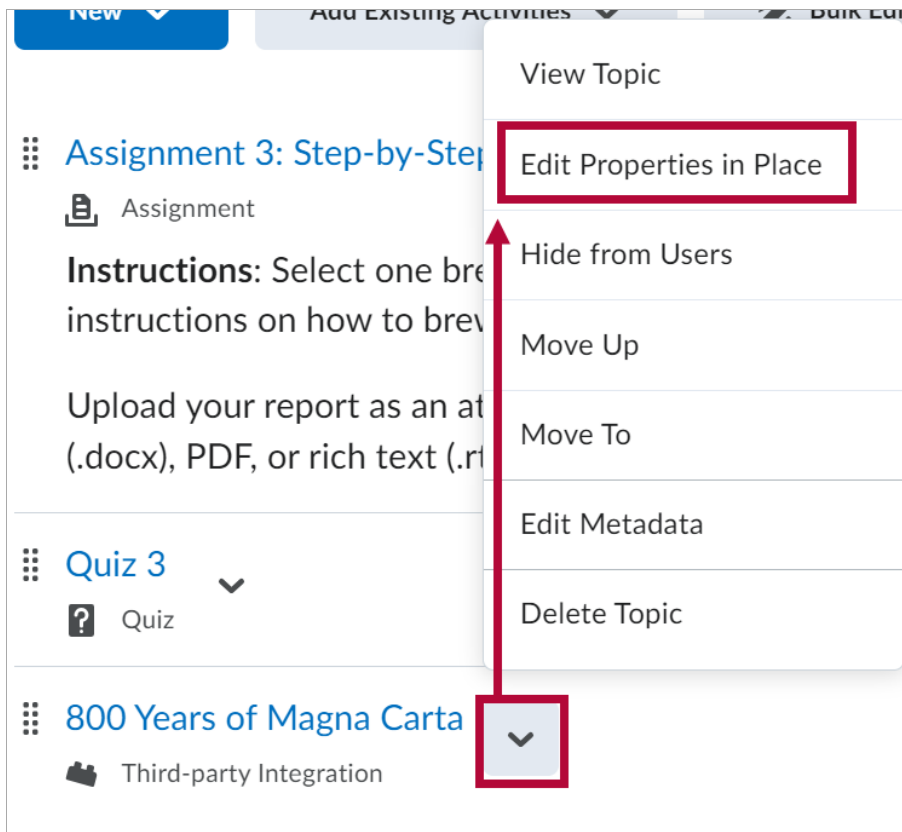

5. Upon inserting the video, the video title will show up in the module. Each video will be given a separate link.
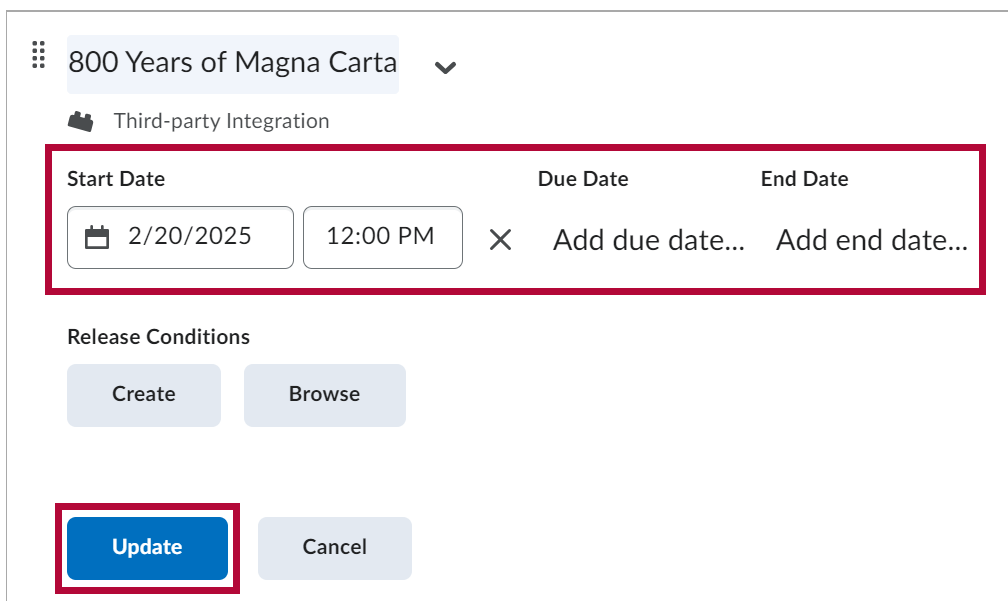

Add Restriction Dates

1. To add restriction dates to your YuJa video, click the down arrow next to your video and select **[Edit Properties in Place]**.

2. Enter the restriction dates you want and select **[Update]**.

3. The restriction date will appear under the video.

3

Upload your report as an attachment to this (.docx), PDF, or rich text (.rtf).
