[Create and Share Playlists](https://support.yuja.com/hc/en-us/articles/15303563490455-How-to-Create-and-Share-Playlists) [□ \(https://support.yuja.com/hc/en-us/articles/15303563490455-How-to-Create-and-Share-Playlists\)](https://support.yuja.com/hc/en-us/articles/15303563490455-How-to-Create-and-Share-Playlists)

Playlists allow Content Creators to present videos and images in an ordered list for viewing when shared through a direct link or embed code. All Content Creators have access to the Playlist feature; however, user accounts created before the introduction of the Playlist feature will need to activate the feature.

[Using the Media Chooser \(https://support.yuja.com/hc/en-us/articles/4407019647511-Using-the-Media-Chooser-for-D2L\)](https://support.yuja.com/hc/en-us/articles/4407019647511-Using-the-Media-Chooser-for-D2L) **<https://support.yuja.com/hc/en-us/articles/4407019647511-Using-the-Media-Chooser-for-D2L>**

Use the YuJa Media Chooser to upload or create new content, and embed that content directly in D2L, or create a link to your content.
