

Add Beyond Labz to Your D2L Course and Importing a Course Cartridge

Last Modified on 12/11/2025 12:53 pm CST

This integration is currently available for **LSC-Montgomery, Department of Chemistry**.

Online Services does not have access to your **Beyond Labz** account. For integration issues, please contact Beyond Labz at support@beyondlabz.com.

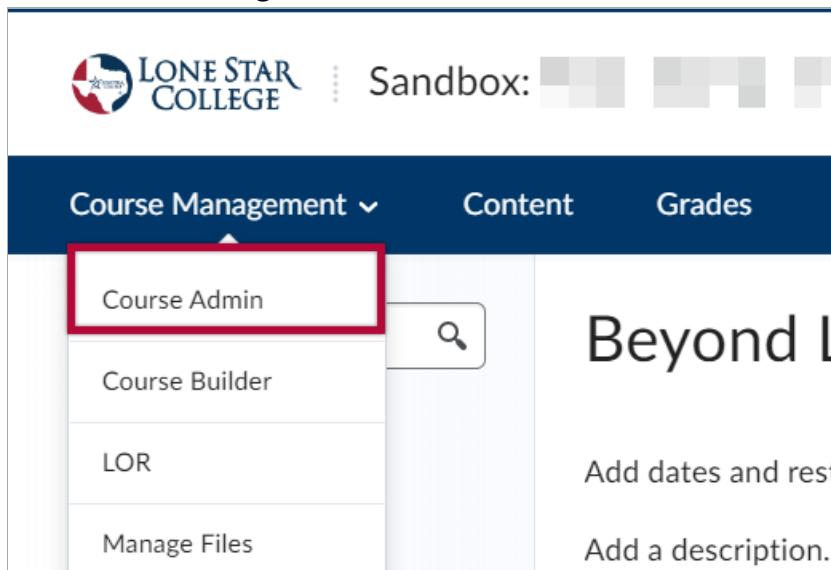

Beyond Labz is comprised of two products: **Worksheets** (Free) and **Labs** (Paid). **Worksheets** is already integrated in D2L.

Getting Your Course Set Up for use with Beyond Labz

1. Contact Beyond Labz to get a course cartridge at support@beyondlabz.com.
2. Send an email to VTAC@lonestar.edu. Include a list of the courses, complete with section numbers and terms, in which you want to use Beyond Labz.
3. After an admin has confirmed that Beyond Labz has been added to your course, proceed with the steps below.

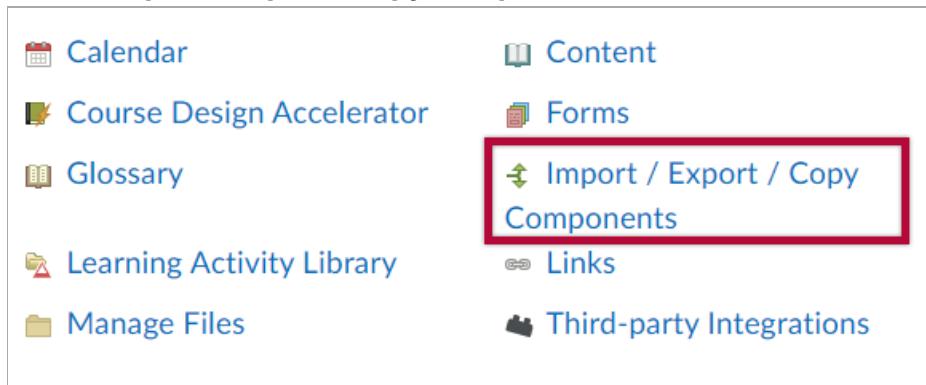

Adding Beyond Labz to your D2L Course

1. Click **Course Management**, select **Course Admin**.

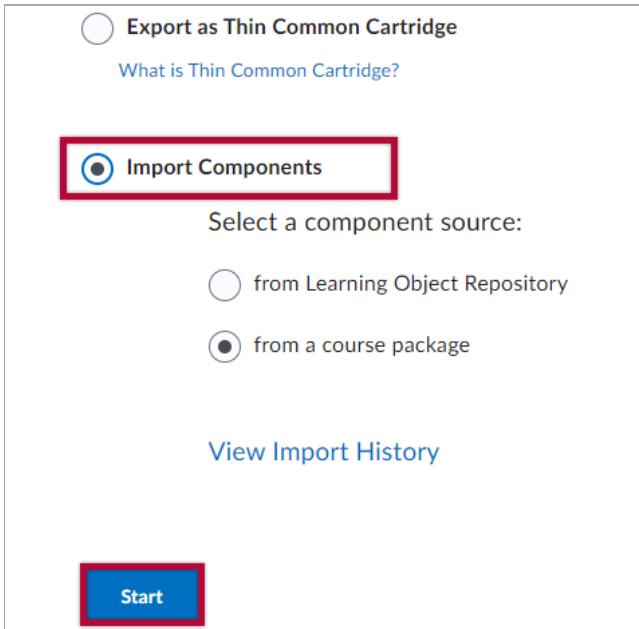

The screenshot shows the D2L course management interface. At the top, the Lone Star College logo is on the left, and 'Sandbox' is on the right. Below the header, there is a navigation bar with 'Course Management' (which has a dropdown arrow), 'Content', and 'Grades'. A red box highlights the 'Course Admin' option in a dropdown menu. The main content area on the right has a large 'Beyond L' logo and two text fields: 'Add dates and rest...' and 'Add a description..'. Below the main content, there is a search bar with a magnifying glass icon.

2. Click on **Import / Export / Copy Components**.

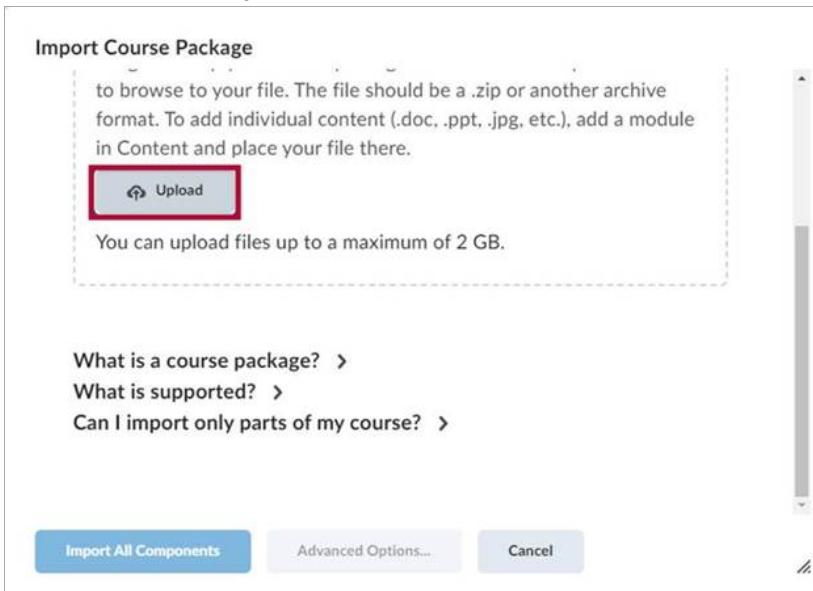

The screenshot shows a sub-menu for 'Import / Export / Copy Components'. The menu items are arranged in two columns. The left column includes: 'Calendar', 'Course Design Accelerator', 'Glossary', 'Learning Activity Library', and 'Manage Files'. The right column includes: 'Content', 'Forms', 'Import / Export / Copy Components' (which is highlighted with a red box), 'Links', and 'Third-party Integrations'. Each menu item has a small icon to its left.

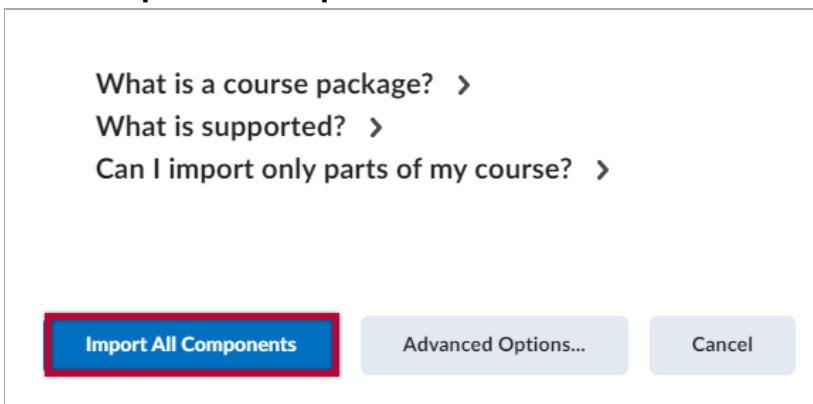

3. Click **Import Components**, select **from a course package** and click **Start**.

4. Drag and drop your course package in this window or use the **Upload** button to browse to the location where your file is located.

5. Click on **Import All Components**.

6. Click **View Content**.

✓ Uploaded > ✓ Converted > ✓ Imported

Your course package was successfully imported!

Check out the contents of your course and make sure everything is good to go.

If you do not already have an account on Beyond Labz, please visit the site to request an account.

9. You can choose to **Create a copy of the Original Course** or **Create a copy of another course**.

Your LMS course is not yet associated with a course on Beyond Labz. The assignment associated with this link is located in a Beyond Labz course you are not a teacher of (course ID 194). To use this content, a copy of the assignments will be made for you automatically, and this LMS course will be associated with that copy in Beyond Labz. This will allow you to make changes to the assignments without affecting the original course, and will ensure your student records are housed in your own Beyond Labz course.

Create a copy of the original course (ID 194) on Beyond Labz
 Create a copy of another course:
