For integrations issues or questions, please contact your **WileyPlus** representative or [Wiley Support](https://wpsupport.wiley.com/s/contactsupport) (<https://wpsupport.wiley.com/s/contactsupport>). Additional WileyPlus resources can be found by accessing the [WileyPLUS with D2L](https://www.wileydigitalsolutions.com.au/support/wp-content/uploads/sites/2/2016/08/WP-D2L-Pair-Course-and-Add-Key-Links.pdf) (<https://www.wileydigitalsolutions.com.au/support/wp-content/uploads/sites/2/2016/08/WP-D2L-Pair-Course-and-Add-Key-Links.pdf>) guide.

There are three tool links for WileyPlus—**Wiley Course Resources**, **Wiley Assignments**, and **Wiley Resources Tools**.

1) **Wiley Course Resources** (Wiley resources with eTextbook) under **[Third-party Integrations]** is the first step to initiating the integration for a course. Faculty will need to have course ID for pairing.

2) Faculty can build **Wiley Assignments** through **Build Wiley Assignments**.

3) Use the **Wiley Resources** link to specify Wiley teaching and learning resources.

1. From **Content**, select the module where you want to insert the WileyPlus integration, or click **[Add a module...]** and name the new module *WileyPlus*.

2. In your new module, click the **[Add Existing Activities]** button, and select **[Third-party Integrations]**.
