There are three tool links for **WileyPlus—Wiley Course Resources, Wiley Assignments, and Wiley Resources Tools**.

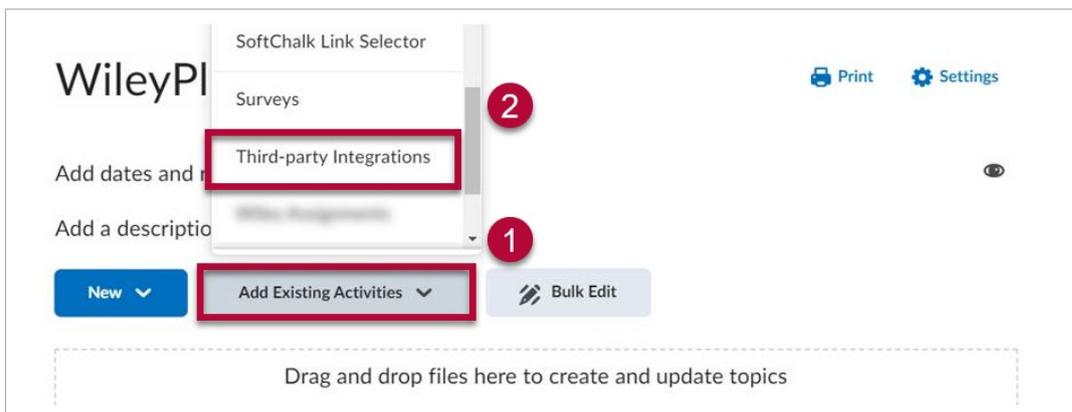

1. **Wiley Course Resources** (Wiley resources with eTextbook) under **[Third-party Integrations]** is the first step to initiating the integration for a course. Faculty will need to have a course ID for pairing.
2. Faculty can build **Wiley Assignments** through **Build Wiley Assignments**.
3. Use the **Wiley Resources** link to specify Wiley teaching and learning resources.

Adding WileyPlus to Your D2L Course

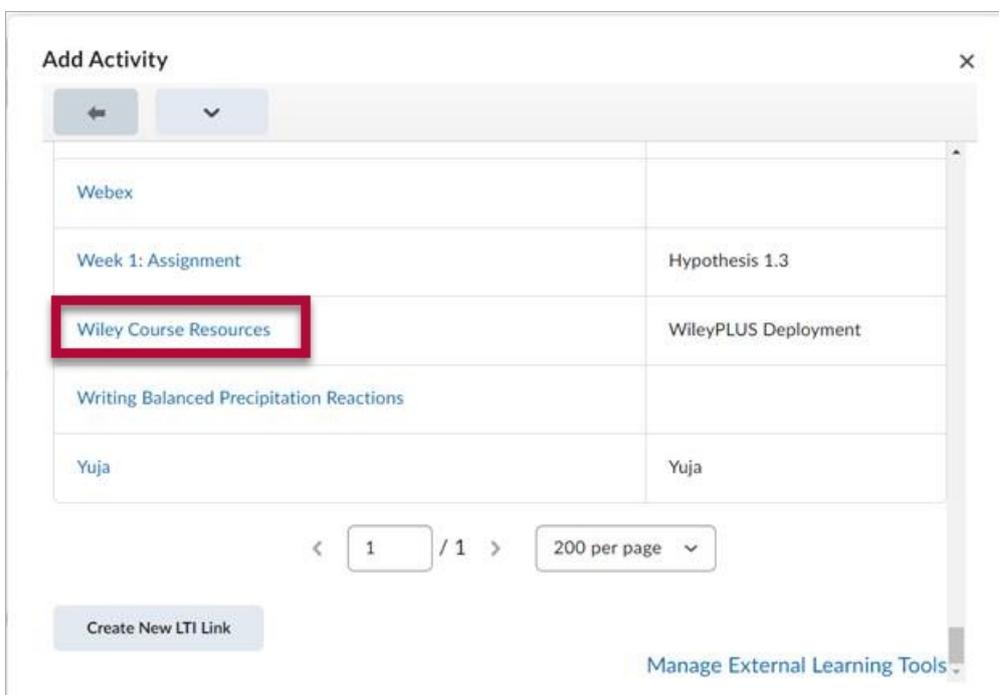

1. From **Content**, select the module where you want to insert the **WileyPlus** integration, or click **[Add a module...]** and name the new module *WileyPlus*.

2. In your new module, click the **[Add Existing Activities]** button and select **[Third-party Integrations]**.

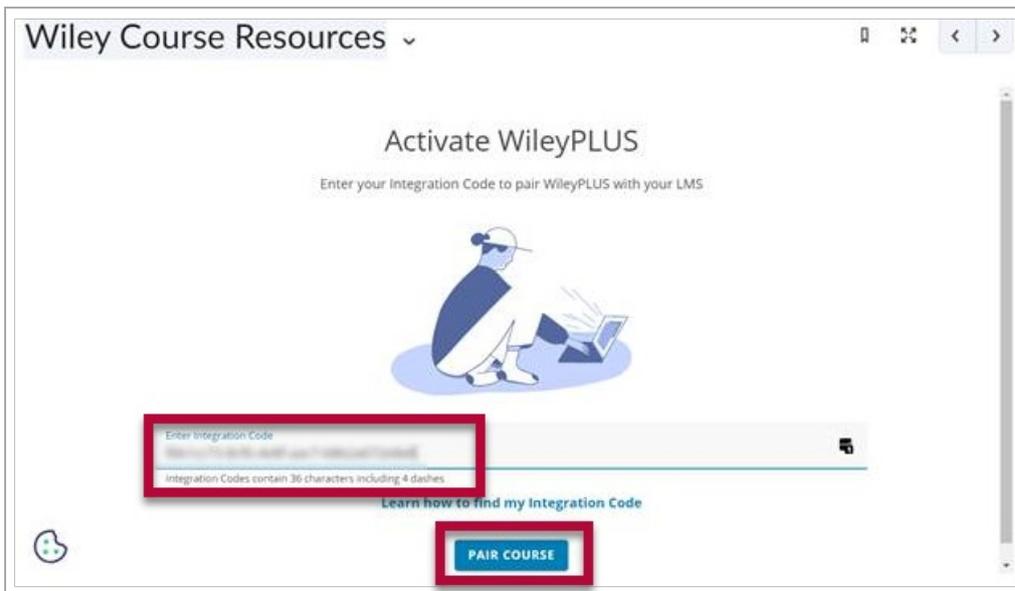

3. Click the **[Wiley Course Resources]** link.

4. Within your module, click **[Wiley Course Resources]**.

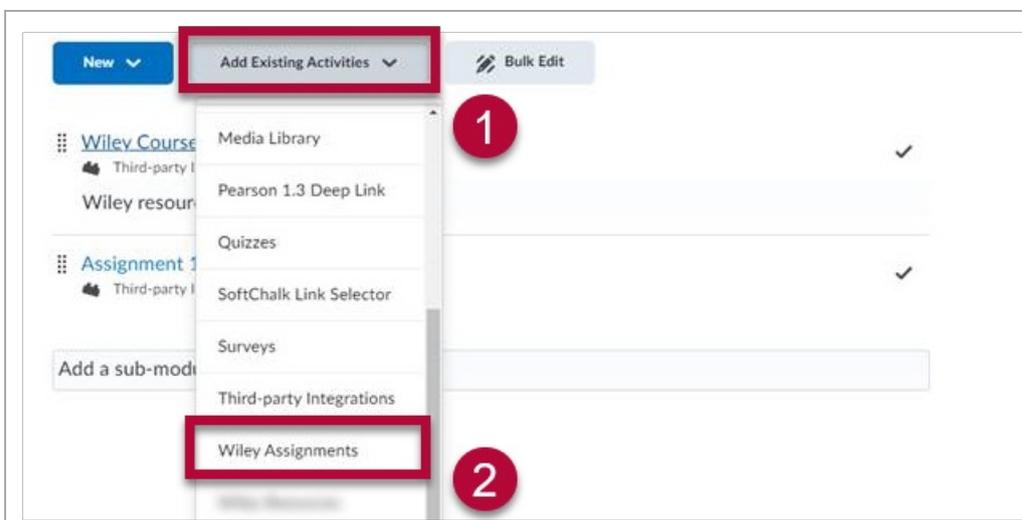

5. Enter the **Course ID** received from **WileyPLUS** via email into the **Enter Integration Code** field, then click **[Pair Course]**.

6. Confirm that this is the correct course. If this is your first time integrating, you will be presented with a login screen. If you have integrated with **WileyPlus** before, you are now done.

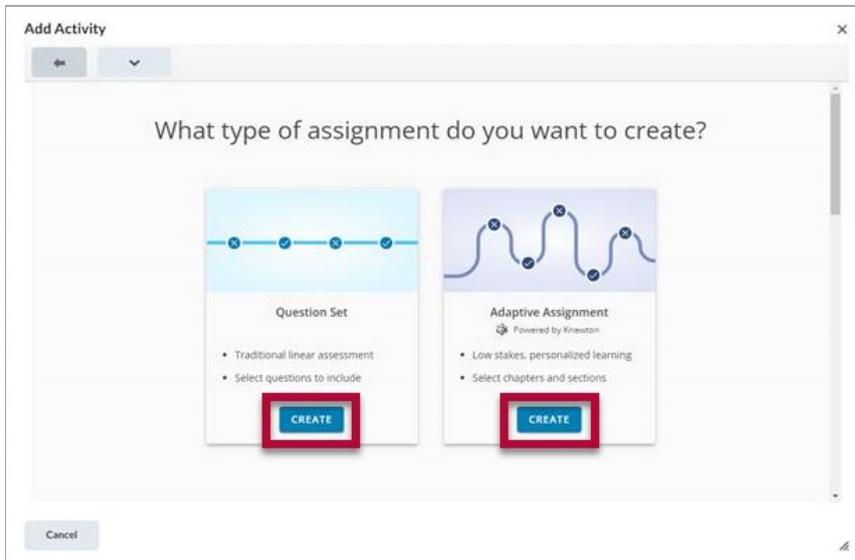

7. Add individual assignments from your **WileyPlus** course to your D2L course through **[Add Existing Activities]** then **[Wiley Assignments]**.

8. Select the type of assignment you want to create: **Question Set** or **Adaptive Assignment**, then click **[Create]**.

NOTE: The **due date** of the **Wiley Assignments** needs to match the D2L content module's due date, or the grades will not sync with D2L.
