Add McGraw-Hill ALEKS Math and Science/Chemistry (LTI 1.3) to Your D2L Course

Last Modified on 05/16/2025 4:10 pm CDT

LSC-Online does not have access to your **McGraw-Hill ALEKS** account. For integration issues or questions, please contact <u>ALEKS Support (https://www.aleks.com/support/form/webmaster)</u>. ALEKS now includes **Science/Chemistry** and **Math** (formerly *Campus Math*).

Please refer to <u>Pairing Your Brightspace Course to an ALEKS Course</u> (<u>https://dyzz9obi78pm5.cloudfront.net/app/image/id/6393b00ea2dca6596248e4db/n/pairing-your-brightspace-course-to-an-aleks-course.pdf</u>).

Adding ALEKS to your Course Content Module

- 1. Go to **[Content]** and select the module where you want to insert the ALEKS integration. For example, add a module and give it a name such as "*ALEKS*".
- 2. In your new module, click on [Add Existing Activities], then select [Third-party Integrations].

ALEKS	*			🖶 Print	🔅 Settings

Pairing your ALEKS Account to Brightspace or Creating a New ALEKS Account

- On the Welcome to ALEKS page, choose [No, I need a new instructor account], then select your campus from the drop-down menu. After choosing your campus, click [Continue].
 - A. If you are using a different textbook from the previous textbook that is linked to ALEKS, you will need to select **[No, I am new to ALEKS].**
 - B. The **[Yes, I want to use my existing ALEKS account]** option will relink the last course you unlinked.
