

Add McGraw-Hill ALEKS Math and Science/Chemistry (LTI 1.3) to Your D2L Course

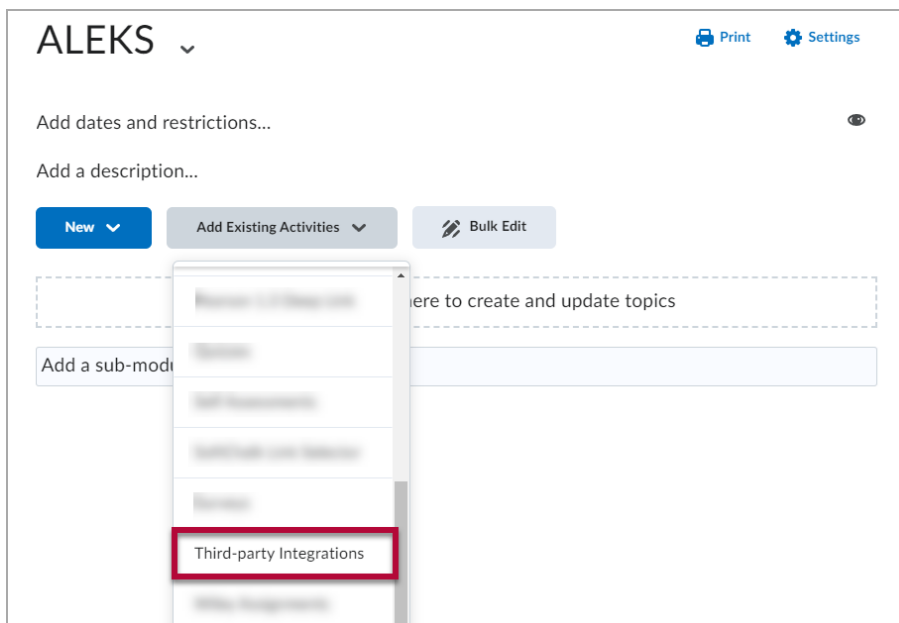

Last Modified on 04/14/2026 11:38 am CDT

Online Services does not have access to your **McGraw-Hill ALEKS** account. For integration issues or questions, please contact [ALEKS Support](https://www.aleks.com/support/form/webmaster) (<https://www.aleks.com/support/form/webmaster>). ALEKS now includes **Science/Chemistry** and **Math** (formerly *Campus Math*).

Adding ALEKS to your Course Content Module

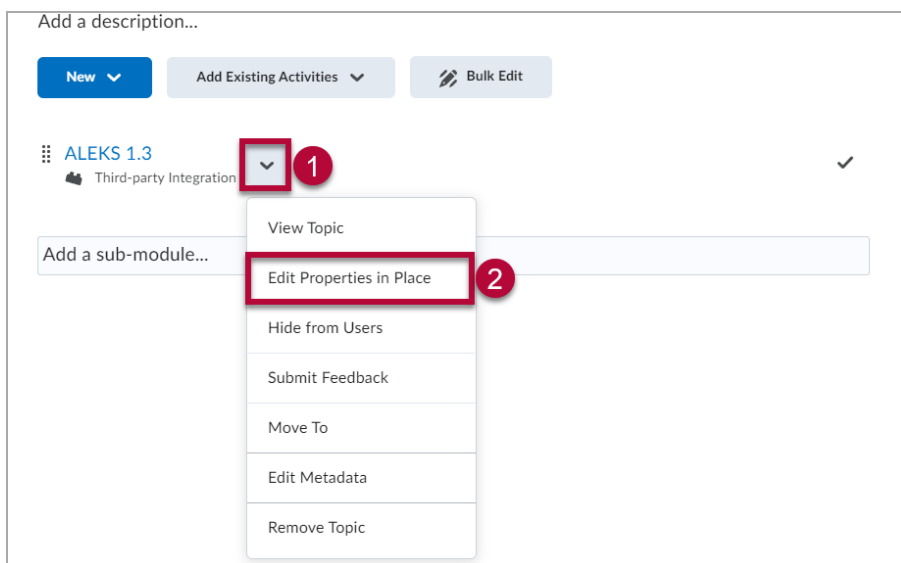

1. Go to **[Content]** and select the module where you want to insert the ALEKS integration. For example, add a module and give it a name such as "ALEKS".
2. In your new module, click on **[Add Existing Activities]**, then select **[Third-party Integrations]**.

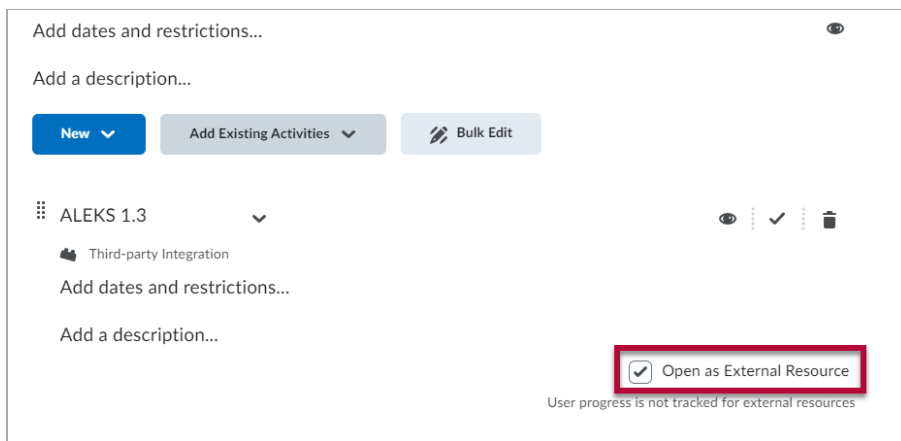

3. Click the **[ALEKS 1.3]** link.

4. The tool must also be configured to open as an external resource. Click the drop-down arrow and select **[Edit Properties in Place]**.

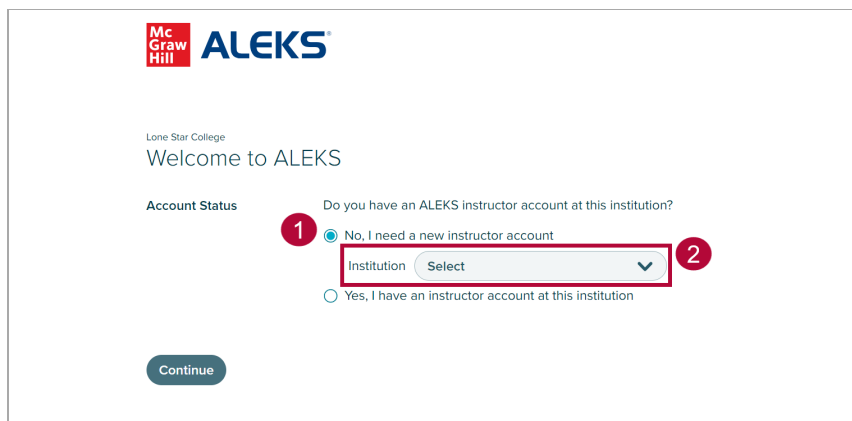

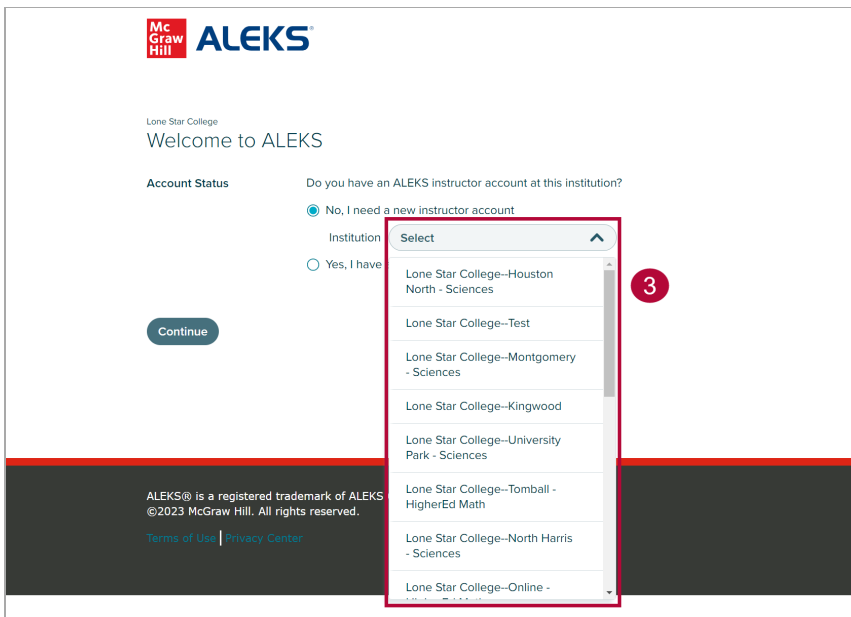

5. Place a check mark in **[Open as External Resource]**.

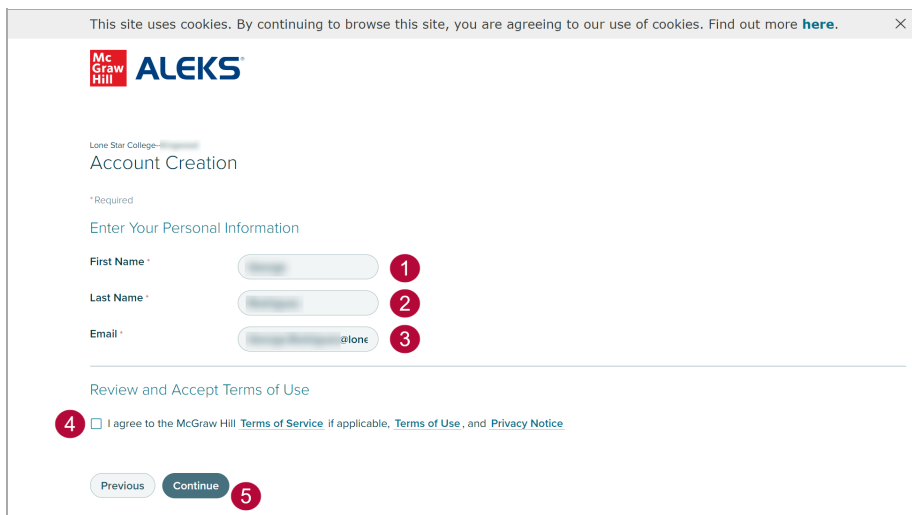

Pairing your ALEKS Account to Brightspace or Creating a New ALEKS Account

1. On the **Welcome to ALEKS** page, choose **[No, I need a new instructor account]**, then select your campus from the drop-down menu. After choosing your campus, click **[Continue]**.
 - A. If you are using a different textbook from the previous textbook that is linked to ALEKS, you will need to select **[No, I am new to ALEKS]**.
 - B. The **[Yes, I want to use my existing ALEKS account]** option will relink the last course you unlinked.

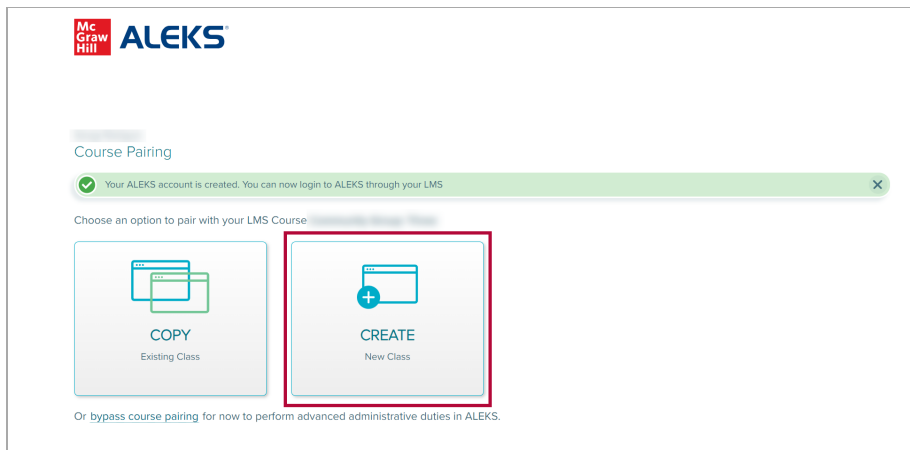

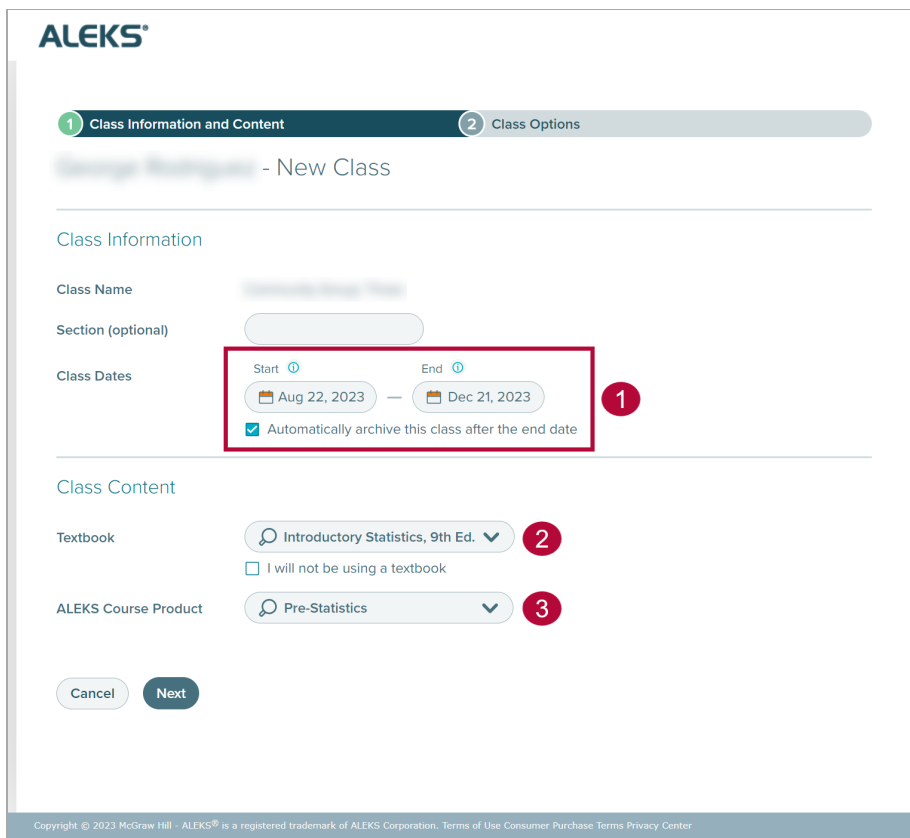

2. On the **Enter Your Personal Information** page, ALEKS will auto-populate your **First name**, **Last name**, and **Email Address**. Check the **[I Agree]** checkbox and click **[Continue]**.

3. Select **[Create]**.

4. On the **Class Information and Content** page, fill out the fields as needed: **Class Dates**, **Textbook**, and **ALEKS Course Product**.

5. On the **Textbook** field, the generated list will be based on your chosen campus. Select your course textbook and click **[Next]**.

NOTE: Some campuses do not have all CHEM and MATH course options. Only campuses that have MATH courses will show MATH textbooks, and campuses that only have CHEM will only show CHEM textbooks.
