

Add F.A.Davis to Your D2L Course

Last Modified on 04/14/2026 11:28 am CDT

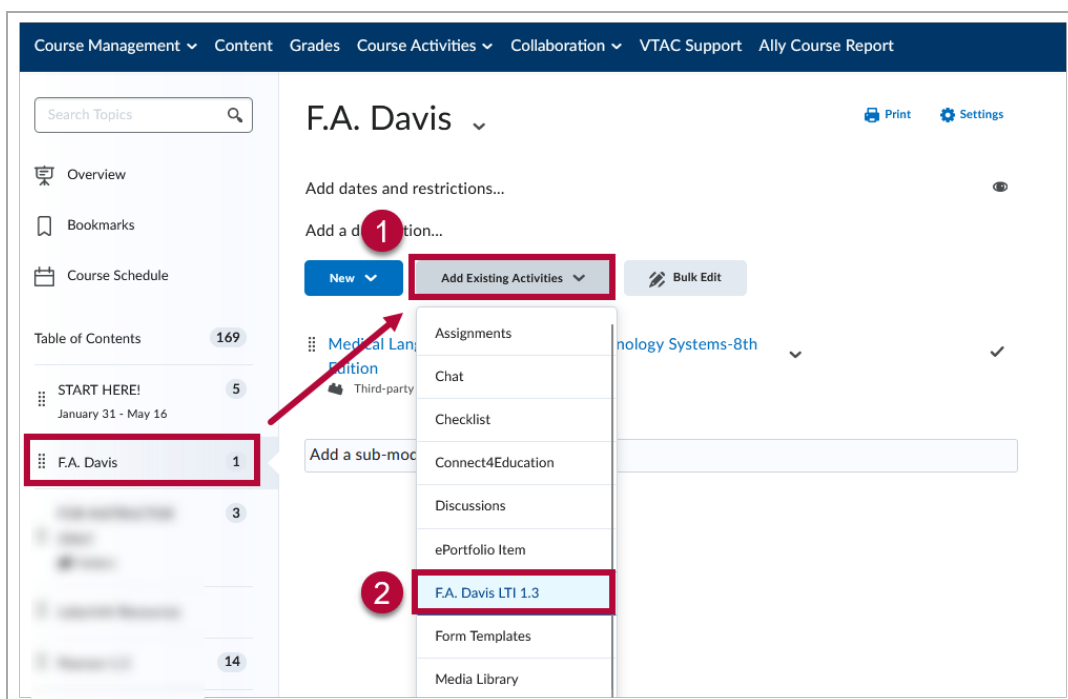

Currently, this integration is for **LSC-Tomball** only.

Online Services does not have access to your **F.A. Davis** account. For integration issues or questions, please contact [F.A. Davis Support \(https://customersupport.fadavis.com/home/\)](https://customersupport.fadavis.com/home/).

This article covers how to insert **F.A. Davis** content into your D2L course using the **F.A. Davis LTI 1.3** integration, including both the **Insert Module Deep Link** and **Create One Course Launch Link** approaches.

Inserting Content Into Your Course

1. From the content module, click **[Add Existing Activities]** then **[F.A. Davis LTI 1.3]**.

2. From the popup, select the desired product. After selecting the product, click **[Add Content]**.

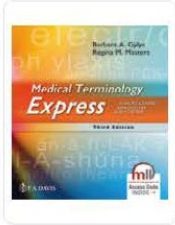

NOTE: You will only see the products listed that you have been given access to by **F.A. Davis**.

3. On the following page, you have two options for how you'd like to insert your content: **Module level** and **Course level**.

Insert Module Deep Link

1. After selecting the **[Insert Module deep link]** approach, click on **[Setup Course]**.

NOTE: Once you make a selection on this step, you will **NOT** be able to edit it. If a change is required, you will need to create a new course and start over.

2. Select the modules you'd like to include in the course. You can customize the exercises included in each module by clicking the details arrow icon and deselecting them. Once you are finished, click **[Insert Course]**.

NOTE: You will need to launch any of the deep links inserted at least once before students will be able to successfully launch the modules.

Create One Course Launch Link

1. After selecting the **[Create one course launch link]** approach, click on **[Setup Course]**.

2. You will have the option to either **[Customize Course]** or **[Use Default Setting]** to create your course. Choosing to customize your course will launch the application in a new browser tab. Navigate to the new tab and go through the steps to create your course. Once you have completed setting up your course and you are on the **Summary** screen, return to the D2L tab. Your course has been created and can be inserted as one deep link by clicking **[OK]** from the popup in D2L.

NOTE: You will need to launch any of the deep links inserted at least once before students will be able to successfully launch the modules.

Troubleshooting and Support

If you need additional assistance, contact the **IT Service Desk** at **281.318.HELP** (4357).
