

Add Electude to Your D2L Course

Last Modified on 12/11/2025 11:13 am CST

Online Services does not have access to your **Electude** account. For integration issues, please contact your Electude representative

Darcy Wedel at darcy.wedel@electude.com

Electude is an automotive e-learning platform offering programs in light vehicles, heavy vehicles, and systems technologies. Its learning modules use gamification and interactive content such as animations and simulations. At Lone Star College, this integration is used by the Automotive Program.

Enabling Electude in your D2L Course

1. Email VTAC@lonestar.edu requesting Electude be enabled in your D2L course.
2. Include a list of the courses, complete with **Subject Area**, **Catalog Number**, and **Section Numbers**. Please include the term in which you would like to use Electude.

Adding Electude 1.3 to Your D2L Course

1. Open your course in D2L.
2. Go to **Content** and select or create the module where you want to add Electude. For example, create a module and name it *Electude*.

The screenshot shows the D2L Content module interface. At the top, there is a navigation bar with tabs: Course Management, Content (which is highlighted with a red box), Grades, and Course Activities. Below the navigation bar is a search bar labeled 'Search Topics' with a magnifying glass icon. To the right of the search bar is a 'Table of Contents' section. On the left side, there is a sidebar with icons for Overview, Bookmarks, and Course Schedule. At the bottom left of the main content area, there is a red-bordered button labeled 'Add a module...'. To the right of this button is a 'Import Course' dropdown menu with a red box around it. The main content area also contains a 'Welcome' message and some other course-related information.

3. In your module, click **[Add Existing Activities] → [Third-party Integrations]**.

The screenshot shows the Electude course designer interface. At the top, there is a search bar with placeholder text 'Add dates and restrictions...' and a 'Print' and 'Settings' button. Below the search bar, there is a 'Add a description...' field with a red circle containing the number '1' above it. A 'New' button with a dropdown arrow is followed by a red box containing the 'Add Existing Activities' button with a dropdown arrow. A red box with the number '2' is placed over the 'Add Existing Activities' button. A dropdown menu is open, listing various activity types: Pearson 1.3 Deep Link, Quizzes, Self Assessments, SoftChalk Link Selector, Surveys, Third-party Integrations (which is highlighted with a red box), Wiley Assignments, Wiley Resources, and YuJa Media QuickLink.

4. Use the search bar to find **Electude**, then select **[Electude Course Designer]** from the list.

The screenshot shows the 'Add Activity' search results. The search bar at the top contains the text 'Electude' with a red box and a red circle containing the number '1' above it. Below the search bar, the results are displayed in a table format. The first result, 'Electude Course Designer', is highlighted with a red box and a red circle containing the number '2' above it. The table has two columns: 'LTI Link ▲' and 'LTI Advantage Deployment'. The 'LTI Link' column contains the result 'Electude Course Designer'. The 'LTI Advantage Deployment' column contains the result 'Electude LTI Deep Linking'. At the bottom of the search results, there is a 'Create New LTI Link' button and a 'Manage External Learning Tools' link.

NOTE: The **Electude Course Designer** tool gives faculty access to the full range of Electude content adopted by the college. It is ideal for instructors who wish to:

- A. Build a custom course by modifying an existing course or starting from scratch.

- B. Remove students who have dropped but were added to Electude via LTI.
- C. Reset activity attempts for returning students.

5. Once added, **Electude Course Designer** will appear in your module. Be sure to **hide this link from students** by adjusting the Visibility and Completion settings. For assistance with the tool, contact **Darcy Wedel** at darcy.wedel@electude.com.

ALERT: The **Electude Course Designer** content link is for Faculty use only and must be **hidden from students**. Please see [Visibility and Completion Options in Content Modules](https://vtac.lonestar.edu/help/visibility-and-completion-options-in-content-modules) (<https://vtac.lonestar.edu/help/visibility-and-completion-options-in-content-modules>) for guidance on hiding content links.

The screenshot shows the Electude Course Designer interface. At the top, there are buttons for 'New', 'Add Existing Activities', and 'Bulk Edit'. Below these, a list of content items is displayed, with the first item, 'Electude Course Designer', highlighted by a red box. To the right of this item is a visibility settings icon, which is also highlighted by a red arrow. The interface also includes fields for 'Add dates and restrictions...' and 'Add a description...', and a 'Print' and 'Settings' button at the top right.

Adding Electude 1.3 Deeplinks

Faculty have two options for adding Electude content to their D2L course:

- I. **Insert a single link that grants access to the full Electude course.**
- II. **Choose to add individual modules or activities using deep links.**

This flexibility allows instructors to tailor how Electude content is presented within their course structure.

NOTE: Work with your **Electude representative** to determine the best option for your course before adding content.

1. From within the D2L module, click **[Add Existing Activities] → [Electude 1.3 Deeplink]**.

The screenshot shows the Electude course creation interface. At the top, there are buttons for 'Print' and 'Settings'. Below that, there are fields for 'Add dates and restrictions...' and 'Add a description...'. A 'New' button is followed by a dropdown menu labeled 'Add Existing Activities'. A red box labeled '1' highlights this dropdown. A sub-menu is open, showing options like 'Assignments' (which is selected and highlighted with a blue border), 'Chat', 'Checklist', 'Connect4Education', 'Discussions', 'Electude 1.3 Deeplink' (which is also highlighted with a red box and labeled '2'), and 'ePortfolio Item'. There are also 'Bulk Edit' and 'Print' buttons on the right.

2. On first use, you'll see an **Accept Terms** page. Click [**I agree.**] to proceed.

terms of service and the [privacy and cookie statement](#)'. A red box highlights the 'I agree.' button." data-bbox="141 420 663 614"/>

The screenshot shows a 'Accept terms.' page. The page has a red header with the text 'Accept terms.'. Below the header, there is a message: 'By clicking the button you agree to the [terms of service](#) and the [privacy and cookie statement](#)'. At the bottom, there is a red button labeled 'I agree.'.

Option 1: Add Full Electude Course via Single Link

For example, if an instructor wants students to access the full *Classroom: A1 Engine Repair* course in Electude with one click, they would use **Option 1**. This approach is helpful for instructors who prefer to manage the entire Electude course from within a single content link in D2L.

1. Click the **[Courses]** tab to see available courses.

2. On the left panel, select **[LV Classroom AST/MAST]**. On the right panel, click **[Electude Light Vehicle - Classroom AST (2023 - 2024)]**.

3. Click **[Classroom: A1 Engine Repair]** to expand the course.

Electude Light Vehicle - Classroom AST (2023 - 2024)

This version of Electude Classroom has been updated to the 2024 - version. It is recommended to utilize that version as it is the most up-to-date version available.

This version of Classroom will be marked Obsolete in Summer of 2024 but will still be available by selecting "show obsolete content" on the Content Package main page. It will then be deleted and no longer available in December of 2024.

We hope you enjoy the changes we've made to continually improve our products!

4. Click **[Select as LTI tool]** to add the entire course as one link.

Electude Light Vehicle - Classroom AST (2023 - 2024)

Welcome to Classroom: A1 Engine Repair! The following course was designed to mimic areas:

- Theory: E-learning and e-Book modules for a guided, gamified, and exploratory learning here.
- Quizzes: By popular request, Quiz modules for every E-learning module are now conv
- Practical Applications: How-to's, Lab Task Modules and PDFs, and Virtual Labs.
- Tests: Chapter Tests, prewritten and ready to measure student learning.
- Instructor Resources: Hidden for students, contains a Lesson plan in .doc and .pdf, as Presentation for the chapter.

You will also notice that all of the How-to and applicable Virtual labs are grouped in one ASE Test Prep module for the course is located at the bottom.

Option 2: Add Links to Individual Content or Modules

Alternatively, if the instructor only wants to provide access to specific components—such as individual quizzes, chapters, or simulations—they would use **Option 2** by adding direct links.

1. Follow the steps above until you reach **Classroom: A1 Engine Repair**, but *do not select it as an LTI tool*. Instead, click **Chapter 1: Engine Repair Introduction**.

NOTE: In this example, *Chapter 1: Engine Repair Introduction* contains 38 individual modules. You will need to browse through the list and locate the specific activity you want to add as a deep link.

TITLE	LEVEL	MODULES	DURATION	PUBLICATION
Chapter 1: Engine Repair Introduction	Basics	38	06:25	01/03/23
Chapter 2: Components of an Engine	Basics	24	05:10	01/03/23
Chapter 3: Crankshaft	Advanced	16	03:18	01/03/23
Chapter 4: The Connecting Rod	Advanced	16	03:29	01/03/23

2. Click **[Tests] → [Select as LTI tool]** to insert the specific link into D2L. You can use the breadcrumb trail above to navigate back to previous levels.

NOTE: After a student submits an activity, the corresponding grade item will be automatically created and populated in the D2L gradebook.

The screenshot shows the Electude LMS interface. The top navigation bar includes 'Modules', 'Courses', 'Support Tickets' (which is highlighted with a red box and an arrow), and 'Settings'. The main content area is titled 'Chapter 1: Engine Repair Introduction'. On the left, there's a sidebar with 'Search' and a list of courses: 'Self-made', 'CCAR E-Safety', 'Haynes All Access (USA)', 'LV Classroom AST/MAST' (which is highlighted with a red box and an arrow), 'MotoLogic', 'MotoLogic Practical Exercises', 'Favorites', and 'Deleted courses'. The 'LV Classroom AST/MAST' item is also highlighted with a red box and an arrow. The 'COURSE INFORMATION' section shows details like 'Certificate template', 'Level: Basics', 'Created: 01/03/23', and 'Content package'. Below this is a 'Courses' table with several entries, one of which, 'Tests', is highlighted with a red box and an arrow. The table columns are 'TITLE', 'LEVEL', 'MODULES', 'DURATION', and 'PUBLICATION'.

Electude Support

Faculty can access Electude support directly within D2L by clicking on the **Electude Course Designer** tool or any **Electude content item**. From there, they can select the **Support** tab to view resources such as the **Electude Teacher's Manual** and **Student Manual**. Support tickets can also be submitted to Electude through this same tab.

The screenshot shows the Electude Support Tickets page. The top navigation bar includes 'Modules', 'Courses', 'Students', 'Support Tickets' (which is highlighted with a red box and an arrow), and 'Settings'. The main content area is titled 'Tickets'. It says 'Here you can contact our customer service. Support requests are visible to all. You can also search for public FAQs.' Below this is a sidebar with links: 'News', 'Tickets' (which is highlighted with a red box and an arrow), 'Teacher's manual', 'Student manual', 'LMS technical documentation', and 'Status page'. The 'Tickets' sidebar also shows a red box with the number '6'. To the right is a table with columns '#', 'SUBJECT', and 'AUTHOR'. At the bottom, it says 'Electude LMS 2024.12.0.g31b57ea955 - © 2024 Electude Beheer B.V. - [Terms of Service](#) - [Privacy](#)'.
