ExamSoft

Online Services does not have access to your **ExamSoft** account. For integration issues or questions, please see the contacts listed below.

The **ExamSoft Assessment Solution** offers special quiz question types that the Nursing department needs that D2L does not offer. These will better prepare their students for the State Board Exam which has question types that D2L does not offer.

ExamSoft is released on a campus-by-campus basis, and is currently only available for **North Harris** and **CyFair**. ExamSoft is managed by the North Harris and CyFair Nursing Departments directly. To use a course with ExamSoft, the course must be added by the Campus Administrator (see below for Contact Information) in the ExamSoft portal.
