

# Class Engagement Tool Overview

Last Modified on 03/19/2024 9:28 am CDT

The **Class Engagement Tool** provides a consolidated view of activity, progress, and achievement in a course. The tool's interface contains filtering, sorting, and searching capabilities, allowing instructors to easily identify top performers and students that might be at risk.

## Accessing the Class Engagement Tool

1. You can access the **Class Engagement** tool from **[Collaboration]** → **[Classlist]**.

2. The tiles are listed below according to the letters labeled:

- A. **To alert instructors about low class engagement**, a notification tile indicates the number of students who have not visited the course in the last 7 days. Clicking the tile

filters the class list to display the learners who have not accessed the course during this period of time.

- B. **To view course progress at a glance**, a bar chart tile displays the grade distribution within the course, with each bar representing a grade range. **Clicking a bar** filters the class list to display the students in that grade range. Click **[Clear]** to dismiss the filter.

The screenshot shows a course management interface. At the top left, a box indicates '0 students haven't visited this course in the past 7 days'. To the right is a 'Grade Distribution' bar chart with a red arrow pointing to the 80-90% range. Below the chart is a 'Filters' section with 'Current grade: 80% - 90%' and a search bar. Below the filters is a table with the following data:

<input type="checkbox"/>	Name	Current Grade	Last Visited	Discussion
<input type="checkbox"/>	[Redacted] <b>F</b>	89%	a day ago March 06, 2024	5 Threads 6 Replies
<input type="checkbox"/>	[Redacted]	87%	2 days ago March 05, 2024	4 Threads 3 Replies
<input type="checkbox"/>	[Redacted]	82%	a day ago March 06, 2024	3 Threads 6 Replies
<input type="checkbox"/>	[Redacted]	80%	21 hours ago March 06, 2024	4 Threads 7 Replies

- C. **To Email the Class** - Instructors can contact the entire class by clicking **[Email Class]**, or specific students by clicking **[Email selected]** once the checkbox next to their names are checked.

**NOTE:** When you send emails to the entire class or selected students, the **To field** in the **Compose New Message** dialog box automatically populates with email addresses that are registered in D2L. **You cannot send emails to unregistered email addresses that you manually add in the To field.**

- D. **Filters** - **Clicking a range** in the grade distribution tile above displays the **Current grade filter** with the specified grade range. Instructors can dismiss an active filter they are no longer interested in by clicking **[X]** in the filter. If multiple, discontinuous grade ranges are selected in the grade distribution tile, the **Current grade filter** displays without a grade range.
- E. **Search Bar** - Use the search bar to filter the class list by student name. You can type a **Name, User Name, or student ID number**.
- F. **Progress Summary** - Clicking a student's name displays the **Progress Summary** in the **Class Progress** tool, which provides detailed information about course progress using tracking indicators such as objectives, quizzes, surveys, and login history. Please refer to [View Class Progress \(https://vtac.lonestar.edu/help/a264\)](https://vtac.lonestar.edu/help/a264) for more details for this page.
