The **New Quiz Evaluation Experience** offers a similar experience to **Assignments** and **Discussions**, promoting a consistent and familiar experience for instructors. It offers a two-panel view to easily score and provide feedback for individual questions and provide overall feedback for quiz attempts. Additionally, it allows you to associate **Rubrics** with **Written Response** questions, making the grading of written response questions more efficient. Currently, instructors can choose to toggle the new quiz evaluation experience on or off. This article describes how to enable or disable the new quiz evaluation experience.
