Using Simple Syllabus

Last Modified on 08/14/2025 12:48 pm CDT

NOTE: You are not required to use Simple Syllabus until the Fall 2025 8W2 session.

If you need assistance with Simple Syllabus, you can email <u>support@simplesyllabus.com ()</u>, or <u>help@simplehighered.com ()</u>, or visit the <u>Simple Syllabus Support Center</u> (<u>https://simplesyllabus.zendesk.com/hc/en-us</u>)</u>. *Please note that you will need to create an account on Simple Higher Ed to access their Faculty support articles.*

Simple Syllabus is Lone Star College's official tool for creating and sharing course syllabi. It is integrated into D2L Brightspace and comes with pre-filled campus policies and course information. You can then add your own course-specific content, including the schedule, grading breakdown, and classroom policies. Once approved by your **Syllabi Approver**, your syllabus is immediately available to students in D2L and archived for future reference. This tool helps ensure a quick and a consistent syllabus process for all courses across all campuses. You can also access your syllabus from the <u>Simple Syllabus Dashboard (http://lonestar.simplesyllabus.com/</u>) at *lonestar.simplesyllabus.com*(https://lonestar.simplesyllabus.com/).

- For more information on using the Simple Syllabus Dashboard, see <u>Using the Simple</u> Syllabus Dashboard (https://vtac.lonestar.edu/help/using-the-simple-syllabus-dashboard).
- If you are a Syllabi Approver and need information on the approval process in the dashboard, refer to <u>Using the Simple Syllabus Dashboard (For Approvers)</u> (https://vtac.lonestar.edu/help/simple-syllabus-dashboard-for-approvers).
- For details on syncing between Simple Syllabus and D2L, see <u>Simple Syllabus: Syncing</u> <u>Tentative Course Schedule with D2L (https://vtac.lonestar.edu/help/ss-syncing-d2l-graded-activities-tentative-schedule)</u>.
- For additional training videos and resources, see <u>Simple Syllabus Training and Resources</u> (<u>https://vtac.lonestar.edu/help/simple-syllabus-training</u>).

Show Overview Video

Accessing the Syllabus Editor

To begin editing your syllabus, you'll first need to access Simple Syllabus from within your D2L course. The tool is integrated directly into each official course shell and can be launched right from the course homepage.

NOTE: Simple Syllabus is only available in *official course shells*. It will not function in sandbox courses or community/group environments. To access and use the tool, you must be working within a live course section assigned through iStar.

From your **Course Homepage**, navigate to **[Course Management]** \rightarrow **[Simple Syllabus]**. This will open the **Syllabus Editor** for that course.

Editing Your Syllabus

In this section, you will learn how to update and customize the different parts of your syllabus. You can modify editable sections, add additional details, and review pre-filled content that cannot be changed. This ensures your syllabus is accurate, complete, and aligned with institutional requirements.

From the **Syllabus Editor** page, start by checking the **blue button** in the upper right corner of the screen:

- If the button shows **Edit**, you are currently in **View Mode**. Click **[Edit]** to switch to **Edit Mode**.
- If the button shows **View**, you are already in **Edit Mode** and can begin making changes.

NOTE: The **[View]** / **[Edit]** button label indicates the mode *it will take you to*, not your current mode.

You will see a structured template divided into several sections. This section will explain each part in detail below to help you understand what information to provide and how to complete your syllabus accurately.

NOTE: All optional components will have a slider located above each text box. You can use this slider to toggle the visibility of the component **ON** or **OFF**.

As you customize your syllabus by reviewing and adding content to each section below, you will notice that some information is already pre-filled. This data is automatically provided by Lone Star College to save you time. If any content requires changes, please reach out to your system admin or the <u>Simple Syllabus Support team ()</u> for assistance.

Course Information

Some information is automatically pulled from iStar and Kuali and *cannot be edited*. Such as in this example, the **Course Name**, **Course Information**, and the **Description**, **Prerequisite(s)** under the **Course Overview** section cannot be edited.

LONE STAR COLLEGE TOMBALL	Cannot be edited
Principles of Financial Acct. Syllabus ACCT 2301 Section: KE03 2025 Spring	
Course Information	
Credit Hours: 3 Term: 2025 Spring Course Times: 12:00 AM to 11:59 PM	

Optionally, you can add additional information in the text box below. Use the **[slider]** in the upper left corner of the text box to show or hide this component.

Instructor Information

As you navigate the syllabus template, you may notice certain sections highlighted in orange.

These areas require your input and must be completed before the syllabus can be published. Use the **[pencil]** icons on the left to edit each section as needed.

Example: The **Instructor Information** section below will appear in orange until you provide your contact details, office hours, or other required information.

Required fields within each section are marked with a red asterisk.

Course Overview

This section provides a summary of your course, including the description, prerequisites, and key details students need to understand the scope and objectives of the class. The **Description** and **Prerequisite(s)** sections will have content automatically pulled from iStar.

Course O	rview					
Description: This course is an introduction to the fundamental concepts of financial accounting as prescribed by U.S. generally accepted accounting principles (GAAP) as applied to transactions and events that affect business organizations. Students will examine the procedures and systems to accumulate, analyze, measure, and record financial transactions. Students will use recorded financial information to prepare a balance sheet, income statement, statement of cash flows, and statement of shareholders' equity results of operations and financial position to users of financial information who are external to the company. Students will study the nature of assets, liabilities, and owners' equity while learning to use reported financial information for purposes of making decisions about the company. Students will be exposed to International Financial Reporting Standards (IFRS) Prerequisite(s): Prerequisites: College Level Readiness in Reading AND Writing.

Required Text(s) and Materials

Here you will list all textbooks, readings, and other materials that students are expected to purchase or access for successful participation in the course. You can search for any book you need by using the search field and entering details such as the **ISBN**, **title**, **author**, or other keywords.

Simple Syllabus can connect to major bookstores such as Google, Amazon, and Barnes & Noble to help you locate book information quickly. However, VitalSource, which powers the LSC Virtual Bookstore, does not share book data with Simple Syllabus. Any titles from this provider will need to be entered manually.

Technology Requirements

Use this section to outline any hardware, software, or online tools that students must have to complete coursework and participate in class activities. *The image below shows sample text. The box will be empty by default.*

Important Course Dates

The top section is pre-filled with details pulled from iStar and cannot be edited within Simple Syllabus. Pre-filled dates include the **Course Start**, **Course End**, **Course Length**, the **Official Day of Record (ODR)**, and the **Midpoint Day of Record (MDR)**. You can add additional dates in the textbox below if needed.

NOTE: This information is particularly important for students receiving financial aid, as eligibility and disbursement often depend on maintaining enrollment through the **Official Day of Record (ODR)** and **Midpoint Day of Record (MDR)** deadlines.

Final Exam or Final Project Date

Provide the scheduled date and time for the final exam or project, along with any relevant details students need to prepare for this culminating assessment. **This text box will be empty by default.**

$B i \underline{\bigcup} x_2 x^2 11 \mathrm{pt} x_4 \mathscr{A} \P \overline{=} \overline{=} \overline{=} \overline{=} \mathbf{a} a$						
The final exam for this course will take place on Wednesday, December 11, 2024, from 10:00 a.m. to 12:00 p.m. in Room B-204. Please arrive at least 10 minutes early and bring a valid photo ID, a pen or pencil, and any materials allowed by the instructor.						
If you are completing a final project instead of an exam, all project submissions are due by 11:59 p.m. on December 11, 2024, through the D2L submission folder labeled Final Project. Late submissions may not be accepted.						
If you have any questions about the exam or project requirements, please contact me before the last week of class.						

Grade Determination

This section allows you to explain exactly how students' final grades will be calculated, including the weighting of assignments, exams, participation, and any other graded components. A template is provided for this section that you can customize to reflect your specific grading policy.

Attendance and Participation						
Regular attendance and active participation are essential to your success in this course. You are expected to attend all scheduled class sessions and contribute to discussions and activities.						
Late Work Policy						
Assignments submitted after the deadline will receive a deduction of 10% per day late unless prior arrangements have been made. Work submitted more than 5 days late may not be accepted.						
Communication						
Please use D2L email or your Lone Star College email account for all course-related communication. I will respond to messages within 48 hours during the workweek.						
Academic Integrity						
All work must be your own. Any instance of plagiarism, cheating, or academic dishonesty will result in a grade of zero on the assignment and may be reported in accordance with college policies.						

Lone Star College Policies

This section includes standardized institutional policies that apply to all courses, such as academic integrity, accessibility, and emergency procedures. *This section is pre-filled and cannot be edited.*

Lone Star College Policies

Attendance

Federal Legislation requires Lone Star College to verify attendance for students who receive financial aid each semester. If you are receiving financial aid, you must participate in an academically related activity in each course by Official Day of Record (ODR) of the enrolled semester.

Attendance Drop (NA)

If you do not attend class or participate in an academically related activity by the Official Day of Record (ODR), you will be dropped from your course and may lose financial eligibility for the semester. Any financial aid funds disbursed to you or your account must be returned to the U.S. Department of Education.

Academically Related Activities (FSA HB Sept.2019)

Academically related activities include, but are not limited to, physically attending a class where there is an opportunity for direct interaction between the instructor and students; initiating contact with a faculty member to ask a question about the academic subject studied in the course; participating in an online discussion about academic matters; submitting an academic assignment; taking an exam, an interactive tutorial or computer-assisted instruction; or attending a study group that is assigned by the school. Academically related activities do NOT include activities where a student may be present, but not academically engaged, such as logging into an online class without active participation, participating in academic counseling or advisement, living in institutional housing, or participating in the school's meal plan. In a distance education context, logging into an online class is not sufficient by itself to demonstrate academic attendance by the student. A student must participate in class or otherwise be engaged in an academically related activity, such as but not limited to, contributing to an online discussion or contacting a faculty member to ask a course-related question via approved communication channels. Completion of an online orientation or syllabus quiz constitutes attendance.

Syllabus Disclaimer

It is the instructor's right to modify the course policies and schedule as necessary to meet the course learning outcomes, therefore, this syllabus is subject to change. Students are encouraged to read the Student Handbook and LSC Catalog for a comprehensive list of college guidelines, policies, and procedures. Prominent policies and their corresponding links are provided in the table below.

The following is a link to all LSC policies listed in the table https://www.lonestar.edu/syllabus-policies

Student Support Services

This section provides information about the academic and personal support resources available to students, including tutoring, counseling, and technology assistance. If your students are experiencing challenges, please remind them that the college offers many resources to support their success. The table in this section lists the support services available to students. Additional resources can be found on the <u>Student Resources</u> (https://www.lonestar.edu/students.htm) page. *This section is pre-filled and cannot be edited.*

Tentative Course Schedule

The optional Tentative Course Schedule section allows instructors to outline a week-by-week or date-based plan for their course. This section is fully customizable and can include **quizzes**, **assignments**, and **discussions** to help students stay on track. *This section does not pull dates or data from Content in D2L or from third-party tools such as McGraw-Hill or Pearson.* If you do not plan to use this section, make sure to set its visibility to **[Invisible]** so students will not see it.

Unlike the **Important Course Dates** section mentioned earlier, which automatically lists institutional deadlines, the **Tentative Course Schedule** is customizable and centers on your instructional plan.

NOTE: You can update this section anytime during the term by editing dates in the original graded activities in D2L (such as *quizzes, assignments,* and *discussions*). **Avoid editing synced items directly in the Tentative Course Schedule**. Doing so will break the sync that allows the syllabus to pull updated information from your course activities. For more details, please refer to the <u>Simple Syllabus: Syncing Tentative Course Schedule with</u> **D2L** (https://vtac.lonestar.edu/help/ss-syncing-d2l-graded-activities-tentative-schedule) article.

To enable this section, scroll down to the **Tentative Course Schedule** section in **Edit Syllabus** and toggle the visibility switch to **[Visible]**.

Accessibility Checker

Simple Syllabus includes a built-in **Accessibility Checker** to help ensure that your content is readable and accessible to all students, including those who use assistive technologies.

1. While editing a section, click the **[Accessibility Checker]** icon (*the universal accessibility symbol*) located in the **bottom-right corner** of the editor to scan for accessibility issues.

In the example image below, the red number 2 displayed on the **[Accessibility Checker]** icon indicates that two accessibility issues have been detected in the section you're editing. Clicking the icon will show a list of these issues with guidance on how to fix them.

etiquette policies under this heading.)	
his heading.)	
Delete heading if not needed.)	
	d

- 2. Click the **[Accessibility Checker]** icon to scan your content for common issues such as:
 - Unformatted or improper lists
 - Missing table captions or headers
 - Non-sequential heading levels
 - Low color contrast
 - Missing alt text for images
 - Empty heading fields
 - Headings that are too long (over 120 characters)

For more details, see the <u>Accessibility Checker</u>. (https://simplesyllabus.zendesk.com/hc/en-us/articles/25241490279181-<u>Accessibility-Checker</u>)article from Simple Syllabus. *Please note that you will need to create an account on Simple Higher Ed to access their support articles.*

Previewing and Submitting Your Syllabus

The **[Preview]** and **[Submit]** options in Simple Syllabus allow you to review your syllabus before making it available to students. Previewing ensures all required sections are complete and appear as intended, while submitting finalizes your syllabus for student access.

1. On the Syllabus Editor page, click [Preview] in the bottom-left corner of the page.

2. Review all sections for accuracy and completion. Any required sections that are incomplete will be **highlighted in orange** or **display an orange alert message**.

Visible	Please check with your chair or dean for the appropriate information to include herefl you are an online instructor please list a link for your online/ in-person office location or N/	
Larry Mapps Email: Larry.Mapps@lonestar.edu Student Engagement Hours is required. Department/Division Contact is required.	A The note should read, must be @ionestar.edu email address. Fields with dotted lines indicate it is rich text enabled, to add rich text highlight over words contained in the box.	
Add new instructor		

3. When finished, click **[Submit]** to make your syllabus visible to students.

4. **If enabled by the instructor**, students will see an **[Acknowledge]** button, which they must click to confirm they have reviewed the syllabus in full. This button will only appear once the student scrolls to the bottom of the syllabus, helping ensure that the content has been fully viewed before acknowledgment.

NOTE: This requirement is optional and must be enabled by the instructor for students to see the **[Acknowledge]** button. Instructors can choose whether to require acknowledgment as part of their course expectations. If not enabled, the button will not appear.

Importing Content From Another Syllabus

Simple Syllabus allows you to reuse content from a previously created syllabus to save time and maintain consistency across courses. You can import content from your own past syllabi or from syllabi created by other instructors. After importing, review and update the details to ensure they are accurate for the current term.

 Open the syllabus you want to import content into and ensure you are on the Edit Syllabus page. The button in the upper-right corner should display [View], which confirms you are currently in Edit Mode.

2. Click [Import] in the top-left corner.

FAQ: Simple Syllabus

- Can I use Simple Syllabus in sandbox or development shells?
 A. No, only official course shells are supported
- 2. What if my course shell is missing in Simple Syllabus?
 - A. Verify you are working in an official course shell. If the issue persists, please contact <u>VTAC Support (https://vtac.lonestar.edu/help/vtac-support)</u>.
- 3. When will the syllabus template for the next semester be available? A. You will have access as soon as your course sections appear in D2L.
- 4. There is incorrect course information on my syllabus. How do I fix it?A. Information is pulled from iStar. Update iStar, and the syllabus will refresh automatically.
- 5. Do we still need to upload a copy of our syllabus to the iStar portal?
 - A. Yes, you are still required to upload a PDF version to iStar after publishing in Simple

Syllabus.

6. If I am teaching a merged course, can I copy content from one syllabus to another?

A. Merged courses should be merged *before* you begin building your syllabi. Each section requires its own syllabus record. *Only one Tentative Schedule can sync automatically; other sections must be copied or entered manually.*

7. Can we insert a table for Learning Outcomes?

A. Most outcomes will import automatically, but you can format them as needed.

8. Are adjunct instructors required to list engagement hours?

- A. Adjunct faculty are not assigned formal engagement hours but are expected to be accessible to students. In the required field, they can include a statement such as: "While I do not hold regular office hours, I am available by appointment. Please email me with your availability to set up a meeting."
- 9. Can faculty attach a PDF copy of the syllabus to the Acknowledge Syllabus assignment?
 - A. While technically possible, this is not recommended. Simple Syllabus tracks valuable engagement data, including whether students have viewed the syllabus and clicked [Acknowledge]. Uploading the syllabus elsewhere may result in the loss of these insights, which are visible to faculty through the dashboard.

10. Will activities from third-party tools (e.g., McGraw-Hill, Pearson) appear in the Tentative Course Schedule?

A. No. Activities or assessments from third-party integrations such as McGraw-Hill Connect, Pearson, or other publisher tools do not sync with Simple Syllabus as these tools are external to D2L.

11. What is the default font used for text in Simple Syllabus?

A. The default font is *Roboto*. If Roboto is not installed on the user's system, it will default to *Helvetica Neue*, and then to a plain *sans-serif* font.

FAQ: Simple Syllabus and Course Merges

- 1. If I merge my courses after creating a syllabus in Simple Syllabus, will I lose the syllabus content I've already entered?
 - A. No, you will not lose your syllabus content. Syllabi in Simple Syllabus are tied to sections, not to the Brightspace course shell. When courses are merged in D2L, the individual sections still exist, so the syllabi assigned to those sections remain intact.
- 2. Do I need to copy and paste my syllabus content into a Word document as a backup before merging?
 - A. While your syllabus will remain intact, creating a backup is always a good precaution. If you have significant edits, saving a local copy can provide peace of mind.

3. What happens to the Tentative Course Schedule after merging?

A. The Tentative Course Schedule syncs only with the primary course shell in Brightspace. If you have a secondary section, its Tentative Course Schedule will not automatically sync. Faculty will need to update this portion manually if your syllabus is in a secondary section.

- 4. If a student is in a secondary section and clicks the Syllabus link in the Navbar, will they see the correct syllabus?
 - A. Yes. Students will be directed to the syllabus assigned to their section, even after the course merge. They will not need to navigate through the dashboard manually.

Additional Resources and Support

- For additional assistance, you can contact **Simple Syllabus Customer Support** by emailing <u>support@simplesyllabus.com ()</u>, or <u>help@simplehighered.com ()</u>, or by visiting the <u>Simple</u> <u>Syllabus Support Center (https://simplesyllabus.zendesk.com/hc/en-us)</u>, where you will find guides, video tutorials, and answers to common questions. *Please note that you will need to create an account on Simple Higher Ed to access their Faculty support articles.*
- For a more in-depth walkthrough, including video tutorials and recordings of past training sessions, please refer to the <u>Simple Syllabus Start Training</u> (<u>https://vtac.lonestar.edu/help/simple-syllabus-start-training</u>) article on VTAC.
