

Add OpenStax Assignable to Your Course

Last Modified on 01/16/2026 2:07 pm CST

Online Services does not have access to your OpenStax Account. For integration issues or questions, please contact [OpenStax Support](https://help.openstax.org/s/contactsupport) (<https://help.openstax.org/s/contactsupport>).

OpenStax Assignable is a new way to enhance the OpenStax experience for you and your students. Assignable empowers instructors to easily assign readings, assessments, and culturally responsive and interactive materials from the **OpenStax Resource Library**.

1. Send an email to VTAC@lonestar.edu and include which courses you intend to use **OpenStax Assignable**.
2. Once you have received confirmation that VTAC has added your courses, navigate to the **Content Module** → **[Add Existing Activities]** → **[OpenStax Assignable 1.3]**.

The screenshot shows the 'OpenStax Assignable' interface. On the left, there's a sidebar with 'Search Topics' and a list of course modules: Overview, Bookmarks, Course Schedule, Table of Contents (18 items), and a list of five other modules. The 'OpenStax Assignable' module is highlighted with a red box and a red number '1'. Below the sidebar is a button 'Add a module...'. The main area is titled 'OpenStax Assignable' with a dropdown menu. The dropdown menu has three main sections: 'Add dates and restrictions...', 'Add a description...', and a list of activity types. The 'Add Existing Activities' button is highlighted with a red box and a red number '2'. The list of activity types includes: McGraw Hill LTI 1.3, McGraw Hill SIMnet LTI (Retiring 2026), Media Library, OpenStax Assignable 1.3 (highlighted with a red box and red number '3'), Pearson 1.3 Deep Link, Quizzes, SoftChalk 1.3 Link Selector, Surveys, and Third-party Integrations. A red arrow points from the 'OpenStax Assignable' module in the sidebar to the 'Add Existing Activities' button in the dropdown menu.

3. Select **[Link your OpenStax account]**.

OpenStax Assignable

Assignable is a new, free way to enhance the OpenStax experience for you and your students. Assignable empowers instructors to easily assign readings, assessments, and culturally responsive and interactive materials from the OpenStax Resource Library.

Link your OpenStax account

Log in with your OpenStax credentials or sign up for an account.

4. Select **[Link this account]** after confirming the LSC email address is correct.

NOTE: If you have never used the OpenStax ecosystem before you will be prompted to create and verify your OpenStax account.
